24817	Technical - BLOBV Architecture Change	This technical modification was originally scheduled for Build 15.1. It will ensure that the compression of word documents is consistent in development environment and production environment.
24878	FAD Record Summary - Blank Agency/Worker Tab	Corrected the condition whereby information did not appear on the FRS Agency/Worker Tab when the listed office did not have a valid non-end dated phone number in CONNECTIONS.
24863	Assign Window/Call Log	Prevents a primary worker from "unassigning" a secondary assignment on a case when the secondary worker has not yet accepted the Report from the SCR.
24868	Person Search- Clear Button	Corrected the condition in which spaces entered in the last name field of the Person Search window resulted in an internal error when the Clear button is pushed. <b>Note: problem identified during User Acceptance Test</b>
24860	Word Document Error Message	Modification to ensure an appropriate error message is displayed when the user is unable to open very large Word documents. <b>Note: problem identified during User Acceptance Test.</b>
24851	Person Search	Applied system logic to Build 15 for the scoring of "flip-flop" name matches. <b>Note: Implemented 5/20/02</b>
24855	Person Search	Corrected the time-out that was occurring when a person search was conducted on an unknown first and last name. <b>Notes: Temporary solution to enter XXX in first and last name fields implemented 5/22/02. Fix implemented 5/24/02. Data Fix to update XXX entries to be scheduled.</b>
24852	CAR (SCR)	Corrected the condition whereby the Status was not changed to COMP when navigating from the Detail window to the Header window in the CAR dialogue.  Enabled the "Detail" and "Save" push
