

## ***Notice Regarding Impact Analysis Documents***

Dated: 9/15/03

*This notice is being sent on behalf of the OCFS CONNECTIONS Implementation Team.*

The CONNECTIONS Implementation Team has been working on the development of a number of different resources that, in their entirety, will assist districts and agencies in preparing for upcoming builds/new functionality. One of these resources is a set of Impact Analysis documents (previously called Action Items) organized around work processes that are impacted by the new design. It is anticipated that these Impact Analyses will be useful for districts as they are addressing some of the readiness issues identified in build-specific self assessments.

To assist you in preparing for Build 16, the following Impact Analysis documents have been developed.

- CPRS General
- Consolidation of a New Investigation into an Open Investigation
- Investigation Conclusion Window
- Safety Assessment
- Risk Assessment Profile
- Progress Notes

If you have any questions or need assistance in utilizing these documents as you prepare for Build 16, please contact your Regional Office CONNECTIONS Field Support representative.
