ENTRY OF AN EXCEPTION CODE ON A RECIPIENT'S FILE

In March, a worker receives an enrollment asking that recipient AX25541E be enrolled with a backdated "Begin Date" of 01/05/08. In order to backdate this enrollment, the worker must check the recipient's Medicaid Coverage History by looking at the WMS Main Menu and selecting 12 – WMS Case & Individual Inquiry as shown below.

The "From Date" of the requested enrollment (01/05/08) falls within the eligibility date segment from 02/01/07-01/31/08 (the 2nd segment on file) when the Case Number was PCARE 19. Therefore PCARE19 is the case number that must be input into the Restriction/Exception Subsystem for this enrollment. Return to the Main WMS Menu by hitting the DO key (SF16) or (Ctrl. F6 on the PC).

PLEASE NOTE THAT THE CASE NUMBER THAT YOU ENTER MUST BE THE SAME AS THE CASE NUMBER SHOWN ON THE MA COVERAGE HISTORY SCREEN (WINQ 55) FOR THE BEGIN DATE OF THE EXCEPTION CODE YOU ARE TRYING TO ENTER. IF THE CURRENT CASE NUMBER IS ENTERED AND THE EXCEPTION CODE IS BACKDATED TO A DATE WHEN THE RECIPIENT HAD A DIFFERENT CASE NUMBER, THE INPUT SCREEN WILL BLINK AND GIVE THE 020 ERROR MESSAGE-"INDIVIDUAL HAS NO CURRENT MA COVERAGE." IN THIS INSTANCE THE 020 MEANS THERE IS NO MA COVERAGE FOR THE RECIPIENT USING THE CURRENT CASE NUMBER FOR A JAN. '08 BACKDTE. YOU MUST USE CASE NUMBER THAT MATCHES THE EXCEPTION CODE "BEGIN DATE" IF YOU ARE BACKDATING INPUT.

DEACTIVATION

Deactivation must be used to remove an erroneous entry of an exception code. This will completely remove the input transaction from the Recipient's R/E record although the transaction still will be shown on the WMS R/E Audit screen. Instances when deactivation should be used are:

- When a R/E code has been added to the wrong recipient's case record.
- When a R/E has been entered with an incorrect From Date. (Code was put on for 03/05/08-999999 when it should have been entered for 01/01/08-999999).
- When the wrong exception code has been added to the recipient's case record. (e. g. A R/E 47 has been input instead of a 74)

In all of the instances above, the R/E code must be deactivated.

- **WORKER ENTRY**

1. Access the R/E Subsystem. (See Pages 6-7)
2. Enter the R/E TYPE to be removed. (73)
3. Enter the R/E PERIOD THRU DATE equal to the R/E FROM DATE.
4. Transmit and store the data using SF13.

**ERROR MESSAGE 020
“INDIVIDUAL HAS NO CURRENT MA COVERAGE”**

Error message 020 is the most common WMS error message in the Restriction/Exception Subsystem. It is “INDIVIDUAL HAS NO CURRENT MA COVERAGE”. However, it can mean:

- The individual didn’t have MA eligibility on the date you are trying to cover with the code 72, 73, 74, OR
- The recipient had coverage at the time you are trying to enter, only the coverage at the time was under a DIFFERENT CASE NUMBER.
- The Recipient has another Restriction/Exception on his/her CIN which is not compatible with code 72, 73 OR 74. (R/E Codes not allowed with a 72 - 74 are: 23, 30, 35, 38, 46, 47, 48, 49, 50, 51, 55, 60, 62-71, 78, 81 a previously existing 72, 73, OR 74,).
- The recipient does not have coverage that will allow input of an Exception code 72-74. (R/E Codes 72-74 are NOT allowed with Coverage Codes 4, 5, 7, 8, 9, 10, 13, 14, 17, 18, 19, 20, 21, 22, 23, 24, 34 or 36.)

TRANSMISSION TIMEFRAMES

All WMS Subsystem information (Restriction/Exception, Principal Provider, and Prepaid Capitation,) is entered into WMS in real time. However, the send from WMS to CSC was weekly until the weekend of 06/10/05 (it was sent at COB on Friday afternoon). All subsystem information gathered from Monday through Friday was sent during this transmission. The information on the file reached CSC and was processed against CSC edits during the following week. The updated information was then put on file at CSC on the following Monday. Therefore, for billing purposes, providers were told to send claims that process against the R/E or PP subsystem 2 Mondays after the WMS input transaction date. This was the famous “Two Monday Rule”.

As of June 10th, 2005, the PP and R/E files are sent daily. Information on the subsystems is sent COB EACH night. It is available for provider billing at eMedNY the day following WMS input.

CSC Representatives are available at the following phone numbers:

- Practitioner Services - 1 - 800 - 522 - 5518 or (518) 447 – 9860
- Institutional Services - 1 - 800 - 522 - 1892 or (518) 447 – 9810
- Professional Services - 1 - 800 - 522 - 5535 or (518) 447 - 9830

The Practitioner Unit handles Physicians, Nurses, Physician’s Assistants, Nurse-Midwives etc.

The Institutional Unit handles Hospitals, Clinics, Nursing Homes, Child Care, Home Health and Personal Care Services.

The Professional Unit handles Pharmacies, DME, Labs, Transportation etc.

**MEDICAID ELIGIBILITY VERIFICATION SYSTEM (MEVS)
(Card Swipe)**

EMEVS Restrictions/Exceptions and Principal Provider are also updated nightly. Information input into WMS from Monday through Friday will be available for MEVS verification on the day following WMS data input.

Verification of basic MA eligibility is available thru MEVS 24 hours after WMS input. For example, a recipient made eligible on WMS on Monday could be verified as MA eligible through MEVS on the next day - Tuesday.
