Migration Completed Wednesday March 23, 2005 from 5:00AM-7:00 AM

Status	SIR	Problem Description	Users Affected
Implemented	2630	WMS lines are erroring in BICS due to incorrect Line Numbers. PSS 04 (delete) is corrupting line numbers with BICS File Maintenance returning inaccurate ALEC error 116. Cases with BICS Unsatisfactory Error 116 should be cancelled in WMS and data re-entered.	Statewide WMS
Implemented	2662	Usage of PSS 04 in WMS is not updating BICS correctly resulting in inaccurate POS lines in BICS. WMS has been fixed to send correct PSS update to BICS. The previously cancelled lines will remain live on the authorizations until a Data Fix is run to correct the BICS POS lines. The date for the data fix is yet to be determined. Districts should continue to watch rosters for these lines and void them as necessary.	Statewide WMS
