CONNECTIONS Security Awareness

Please note that this piece was in the last edition of the CONNECTIONS NEWS.

Each time a user signs on to Citrix, and before they are logged into CONNECTIONS, they are presented with a warning that describes the conditions under which they agree

to access the application. The user has to say "OK" to that message via the push button before that application opens and allows them use.

Please take the time to review the information contained in the warning (as posted below) so that you understand what you are agreeing to each time you use CONNECTIONS. The integrity of the CONNECTIONS application and the information contained in it is every user's responsibility.
