

CONNECTIONS Build Bulletin

FSS Modernization Phase 2: Education Module

Phase 2 of the Family Services Stage (FSS) Modernization will modernize the Education Module, including the Education and Individualized Education Plan (IEP) windows.

A *Quick Start Guide* is now available on both the [Intranet](#) and [Internet](#). A pilot begins on Friday, June 12, in select districts and agencies. Implementation is tentatively scheduled for late June/early July 2015. Due to the relative simplicity of Phase 2, there will be no formal training offered; users should be able to adequately familiarize themselves with the modernized Education Module via the Quick Start Guide. If additional pre-build support is needed, please feel free to contact your Regional CONNECTIONS team members.

More detailed information, including the formal implementation schedule, will be made available in the coming weeks.
