

CONNECTIONS Build Bulletin

FSS Modernization Phase 2: Education Module Scheduled for Implementation on Friday, June 26

Phase 2 of the Family Services Stage Modernization, is scheduled for implementation on Friday, June 26, during the normal morning maintenance window from 4 a.m. to 7 a.m. Phase 2 will no longer include the Progress Notes window of the FSS due to technical issues encountered with pasted images. Modernized Progress Notes windows will be implemented at a later date. FSS Phase 2, which will be available to users at the start of the business day on Friday, will include the:

- Education Window
- Individualized Education Plan (IEP) Window

A **Quick Start Guide** intended for workers who are familiar with the CONNECTIONS FSS stage and whose responsibilities include maintaining education information in CONNECTIONS is now available on both the [Intranet](#) and [Internet](#).

Due to the relative simplicity of Phase 2, there will be no formal training offered; users should be able to adequately familiarize themselves with the modernized Education Module via the Quick Start Guide. If additional pre-build support is needed, please feel free to contact your Regional CONNECTIONS team members.
