

OCFS SOaR

(Security Outreach and Review)

Help keep the CONNECTIONS Application Secure!

- ❑ Do you know who your Security Coordinator is or how to find out?
- ❑ Do you know and understand your district or agency's current security settings?
- ❑ Have you End dated all users who are no longer in the district or agency, or no longer use CONNECTIONS?
- ❑ Do you know what Business Function Profiles your staff has?
- ❑ Do you know what is contained in Bundled Business Functions and who has them?
- ❑ Do you use specialty Business Functions for special functions to support limited access for specialized workers?
- ❑ Do you know how many Designees your district or agency has and who they are?
- ❑ Does your district or agency use Agency Access and Organizational Hierarchy for FSI and FSS stage work?

We can help!

The good news is that there is information and help at your fingertips!

The OCFS Implementation and Security units have developed tools that can help you to work in the CONNECTIONS application in the most secure way possible while meeting the business needs of your district or agency.

Contact your OCFS Regional Implementation person if you would like us to help you complete a SOaR assessment, or if you have questions about the settings for your CONNECTIONS security.
