

Community Reinvestment Program - Day Placement Initiative RFP				
Selected Awardees -- and -- Non-Selected Applicants				
December 2011				
The Community Reinvestment Program-Day Placement Initiative will provide youth and their families with a comprehensive network of supports allowing treatment to be provided in a day placement setting within their home communities rather than in residential facilities. The target population is youth ages 14-16 who live in the Bronx, Brooklyn or Monroe counties who have been adjudicated as juvenile delinquents and placed in the custody of OCFS. This is primarily a diversion from placement program.
