**APPENDIX G-3**

**III. Reasonable Distance, Very Low Income, Definition of Engaged In Work For Child Care In Lieu of Temporary Assistance, Family Share, Case Closings and Openings, and Fraud and Abuse Control Activities\_ (Required Section)**

**Reasonable Distance**

Your district is required to define reasonable distance based on community standards for determining accessible child care.

The following defines "reasonable distance": **15 minutes from home to provider, one way**

Describe any steps/consultations made to arrive at your definition: **Time was used rather than distance because many roads in rural Delaware County are difficult to traverse, some with low speed limits.**

**Very Low Income**

Very Low Income is defined by each district and is used in determining priorities for child care benefits.

Very Low Income is defined as **150%** of the State Income Standard.

**Definition of Engaged In Work For Child Care In Lieu of Temporary Assistance**

**The minimum number of hours for Federal Fiscal Year 2006 are:**

- **20 hours for a single parent with a child under the age of six years old**
- 30 hours for a single parent whose children are six years of age and older
- in two parent families the parents must be working a combined total of 55 hours with at least one parent working 30 or more hours.

If a district proposes a higher minimum number of required hours of work describe the requirement below.

- hours for a single parent with a child under the age of six years old
- hours for a single parent whose children are six years of age and older
- in two parent families the parents must be working a combined total of 55hours with at least one parent working           or more hours.

**Family Share**

Family share is the weekly amount paid towards the costs of the child care services by the child's parent or caretaker. In establishing family share, your district must select a percentage from 10% to 35% to use in calculating the family share. The family share of child care is calculated by applying the family share percentage against the amount of the family's annual gross income that is in excess of the State Income Standard divided by 52.

Family Share Percentage selected by our district **25%**.

### Case Closings (select one or two)

1. The district must describe below how priority is given to federally mandated priorities and describe local priorities. If all NYSCCBG funds are committed, the district will discontinue funding to those families that have lower priorities in order to serve families with higher priorities. Described below is how the district will select cases to be closed in the event that there are insufficient or no funds available.

2. The district has not established priorities beyond the federally-mandated priorities. If all NYSCCBG funds are committed, case closings for families which are not eligible under a child care guarantee and are not a federally-mandated priority must be based on the length of time in receipt of services. The length of time used to close cases may be based either on the shortest or longest time receiving child care services but must be consistent for all families. The district has chosen to close cases based on:

- shortest time receiving child care services  
 longest time receiving child care services

### Case Openings

The district must describe below how priority is given to federally mandated priorities and how the district will select cases to be opened in the event that there are insufficient funds available.

**The district will serve families above the very low income definition as available funds permit. For example, if the district is confined by available resources to the very low income definition, but additional resources become available, the district will serve above the minimum level (not to exceed 200% of poverty) in increments which are consistent with the anticipated availability of funds. Priority will be given to families with children with special needs. Beyond that, and within dollar amounts available, service will be available to additional households on a first come, first served basis.**

### Fraud and Abuse Control Activities

The district must identify below the criteria it will use to determine which child care subsidy applications suggest a higher than acceptable risk for fraudulent or erroneous child care subsidy payment and procedures for referring such applications to the district's front end detection system.

### **Lack of adequate identification; Past Fraud; Unable to verify residency; Living off loans from family**

The district must describe below its sampling methodology used to determine which cases it will seek verification of an applicant or recipient's continued need for child care including, as applicable, verification of participation in employment, education or other required activities.

**All participants are recertified every six months. Interim certifications are also completed when information becomes available suggesting that the situation has changed.**

The district must describe below its sampling methodology used to determine which child care providers of subsidized child care services they will review for the purpose of comparing the child care providers' attendance forms for children receiving subsidized child care services and any child and adult care food program inspection forms to verify that child care was actually provided on the days listed on the attendance forms.

**There are currently 38 providers enrolled in the CACFP feeding program. Each provider is monitored four times a year the first year of participation and three times per year thereafter. Attendance is verified against the CACFP claims for the day. The first year two of the visits are pre-arranged and two are unannounced and in years thereafter, two of the three visits are unannounced. All monitoring visits are conducted by Delaware Opportunities Inc. Delaware Opportunities is also responsible for monitoring day care subsidy use and has readily available attendance information and claims. Accordingly, Delaware Opportunities can compare one hundred percent of the CACFP program participants with subsidy participants.**

Accredited Programs may receive a differential payment up to \_\_\_\_\_ % above market rate.

Care during non-traditional hours may be paid up to \_\_\_\_\_ % above market rate.

Limitations to the above differentials are as follows:

Payments may not exceed 15% above market rate. However, if your district wishes to establish a payment rate that is in excess of 15% above the applicable market rate must describe below why the 15% maximum is insufficient to provide access within the district to accredited programs and/or care provided during non-traditional hours.

**Sleep**
