

What is NYSCB?

The New York State Commission for the Blind works with legally blind adults 55 and over who want to retain or regain employment or who want to learn skills to help them live as independently as possible at home or in their communities.

Services for Older Adults

Many older adults are choosing to delay retirement or reenter the workforce after retirement. Those who are legally blind are eligible for services available through NYSCB. Services may include:

- Low vision examinations and aids
- Navigation and travel training
- Home and personal management training
- Work readiness training
- Work experience opportunities
- Connection to community resources
- Training for employment
- Services to help you keep your present job
- Assistance in finding a job

Many of these services are also available for those over 55 who simply wish to learn skills and techniques for living well with vision loss. These are provided through our community partners.

Programs

Employment Program

NYSCB can assist you in obtaining a job, starting your own business, or managing a business through its Business Enterprise Program.

A vocational rehabilitation counselor will help you develop a plan and get the training you need to reach your employment goal.

Job Save Program

If you are having difficulty in your present job or business, a vocational counselor can advise you on talking to your employer about your vision loss, and can arrange vision and job services that may help you continue working productively in your chosen field.

Independent Living Program

If you are an adult or senior who wants to live as independently as possible but are not interested in employment, NYSCB has programs to teach you the skills to maintain your home, travel safely, and keep in touch with family and neighbors.

Any New York State resident who is legally blind may be eligible for services provided by NYSCB.

Legal blindness is defined as:

- A visual acuity of 20/200 or less in the better or stronger eye with best correction, OR
- A restricted field of vision of 20 degrees or less in the better or stronger eye.

If you are working and severely visually impaired but not yet legally blind, you may qualify for “Job Save” services.

For more information call NYSCB at **1-866-871-3000**, or visit our website visionloss.ny.gov for more information.

Where to apply

If you want more information about the programs and services offered by NYSCB, please call the regional office located closest to you.
