## INTRODUCTION

The Monitoring and Analysis Profiles (MAPS) are data packages that provide information on the major child welfare services provided by local Departments of Social Services (DSS). MAPS was developed in 1985 to support the program monitoring role of the Regional Office staff and New York State Office of Children and Family Services (OCFS). Since then, the MAPS packages, which are produced annually, have also been disseminated to assist in child welfare planning and decision-making.

This MAPS package provides data on Child Protective Services (CPS), Preventive and/or Protective Services, Foster Care, and Adoption for New York City, Upstate (combines all counties except New York City), and Statewide. It contains detailed information for 2007 and charts of selected trend information for the five-year period, 2003-2007. Data for all counties other than New York City are contained in separate packages.

MAPS 2007 provides two significant changes:

- 1- **Change in source file.** For MAPS 2007 the source file changed from a CCRS extract (Monthly Status Master) to the OCFS Data Warehouse. The old data extract file had significant limitations regarding child movements, Service Program Choices, and Permanency Planning Goals recorded whereas the OCFS Data Warehouse captures all activities for these children.
- 2- **Changes to the Preventive Services pages.** Starting in 2005, Service Program Choices are entered into CONNECTIONS by the workers during completion of the Family Assessment Service Plan (FASP). The change in how and where Service Program Choices are entered has resulted in changes to how Preventive Services is being reported in MAPS 2007. New to MAPS 2007 are the Preventive and/or Protective Services pages, specifically page 9. Page 9 has now become pages 9 and 9A. Pages 9 and 9A report on trend data for “Preventive Only”, “Protective Only” and “Preventive and Protective” Services. Page 9A was added to give more detailed information on the program choices of “Protective Only” and “Preventive and Protective”.

To calculate the total number of Preventive Openings it is now necessary to add the Preventive Only total for a given year to the Preventive and Protective total for that year. For example, the total number of Preventive Openings for 2007 is calculated by adding 12,733 Preventive Only Openings (Page 9) to 16,990 Preventive and Protective Openings (Page 9A) for a total of 29,723. Similarly, the total Protective Openings for 2007 is calculated by adding the Protective Only Openings (27,552) to the Protective and Preventive Openings (16,990) for a total of 44,542.

Program data on Child Protective Services are taken from the CONNECTIONS database, while the program data on Preventive and/or Protective Services, Foster Care and Adoption are taken from the Child Care Review Service (CCRS) database. Both of these are statewide, computerized child welfare databases.

The current MAPS package was developed based on the data contained in OCFS Data Warehouse on March 31, 2008, and from the CONNECTIONS database as of March 1, 2008. The numbers in the MAPS package may differ from those that appear on the routine reports that are distributed by OCFS either because they are taken from the databases on different dates or because the definition of a term differs. Additionally, lag reporting by some Social Services districts affects

all Foster Care, Preventive and/or Protective Services and Adoption data. The report, "Final Annual Summary Characteristics of Children in Foster Care," produced by OCFS and released in September 2008 contains data reported at a later date, thus accounting for late reporting into CCRS.

In most instances, numbers are converted into rates or percentages to highlight important aspects of the child welfare service programs. The use of rates and percentages is a critical component of MAPS as it allows for comparisons by controlling for differences in population. The population figures used to calculate rates for 2003 through 2007 are taken from the 2007 Complete New York and New Jersey Demographic Database Files, copyright May 2007, Woods and Poole Economics, Inc. For Child Protective Services data, rates are calculated based on the number of children ages 0 through 17 because very few reports are taken on youth aged 18 and over. However, since OCFS does have children in foster care 18 years old and above, the rates for Foster Care, Adoption and Preventive and/or Protective Services are based on the number of children ages 0 through 21.

Data on the ethnic composition of children receiving Preventive and/or Protective Services or Foster Care are from the CCRS database (See Appendix A for changes to race/ethnicity). Data for their foster/adoptive parents are from CONNECTIONS.

The MAPS package focuses on developing a profile of the child welfare services programs in each local Social Services district. The data describe what are believed to be key, measurable characteristics of county child welfare services. The package is designed to provide a framework within which to examine the relationships among variables, raise questions, and initiate discussions about child welfare programs. Unlike indicators, it is not intended to judge performance or to focus attention on a single variable.

The multi-year data in the MAPS package show movement on selected variables for a five-year period, 2003-2007. They provide a framework to explore relationships among variables over time and to identify trends in child welfare programs.

MAPS is distributed electronically to users of Microsoft Exchange. Each district has its own MAPS data in its own Public Folder. Under Public Folders, click on: All Public Folders, then on dfa.state.ny.us, then on OCFS (Office of Children and Family Services), then on MAPS (Monitoring and Analysis Profiles), then on MAPS-2007 and then on a geographic entity area.

Definitions necessary to understand the data are printed at the bottom of the appropriate page. These definitions also apply to the multi-year data pages. Appendix A contains additional clarifying information to facilitate an accurate interpretation of complex variables. Careful review and use of the MAPS package are required to understand the data.

*In summary, MAPS is not intended to be a package of indicators by which performance may be judged. Rather, it is intended to provide a framework within which reasoned questions can be asked by those who have been trained to its uses and limitations and who have substantive knowledge of the child welfare system in New York State. Questions about this data and suggestions and/or comments related to the design of this package may be directed to Nancy Martinez, Director, Office of Strategic Planning and Policy Development, 52 Washington St., 3rd floor, Rensselaer, New York 12144-2796, or (518) 473-1776. E-mail requests for copies can be sent to Carol Cimino, via Microsoft Exchange or the Internet at Carol.Cimino@OCFS.state.ny.us.*

### Prior Foster Care

**N:** Number of children with a Mandated Preventive Services case opened in 2007 who were in Foster Care sometime in the 12 months prior to the Preventive opening. **%:** Children with a Mandated Preventive Services case opened in 2007 who were in Foster Care sometime in the 12 months prior to the Preventive opening, as a percentage of all children with a Mandated Preventive Services case opened in 2007.

### Concurrent Child Protective Services

**N:** Number of children with a Mandated Preventive Services case opened in 2007 who were receiving Child Protective Services at the time of the Preventive opening. Concurrent also includes children who began receiving Child Protective Services at the same time as the Preventive opening.

**%:** Children with a Mandated Preventive Services case opened in 2007 who were receiving Child Protective Services at the time of the Preventive opening, as a percentage of all children with a Mandated Preventive Services case opened in the calendar year.

### Subsequent Foster Care

**N:** Number of children with a Mandated Preventive Services case opened in 2006 who entered Foster Care within the specified time period following the Mandated Preventive Services case opening. (Within 15 months includes children who went into foster care within 3 months.) **%:** Number of children with a Mandated Preventive Services case opened in 2006 who entered Foster Care within the specified time period following the Mandated Preventive Services case opening, as a percentage of all children with a Mandated Preventive Services case opened in 2006.

### Length of Time:

**N:** Number of children with a Mandated Preventive Services case opened in 2006 whose case was closed within the specified time periods; children with more than one case closed during the year are only counted once. (Within 15 months includes cases closed within 3 months.) **%:** Children with a Mandated Preventive Services case opened in 2006 whose case was closed within the specified time periods, as a percentage of all children with a Mandated Preventive Services case opened in 2006.

Total With Race/Ethnic Code: N: Number of children in foster boarding or adoptive homes on 12/31/07 who have a race/ethnic code in CCRS.

Number With Same Race/Ethnic Code: N: Number of children in foster boarding or adoptive homes on 12/31/07 whose race/ethnic code in CCRS is the same as at least one of his or her foster parent's race/ethnic code in the Connections database. Congregate care and approved relative homes are excluded.

%: Children with a race/ethnic code in CCRS whose code is the same as at least one foster parent's race/ethnic code in the Connections database as a percentage of children in foster care on 12/31/07 with a race/ethnic code for a specified race/ethnic group. There are a small number of foster parents with no race/ethnic code in the Connections database; these are counted as not matched.

Siblings in Foster Care: N: Number of children in foster care on 12/31/07 who have a sibling in foster care.

Separated: All of the siblings in a sibling group of the specified size are in separate facilities.

Partly Separated: Some of the siblings in a sibling group of the specified size are in separate facilities.

Intact: All of the siblings in a sibling group of the specified size are in the same facility.

%: Number of siblings who are separated, partly separated, or intact as a percentage of all siblings in a sibling group of the same size.

Children Returning to Care By Length of Time Since Last Discharge: N: Number of children who were readmitted to foster care in 2007 who had been discharged from foster care within the specified number of months prior to the last 2007 admission. Children returning to foster care from a trial discharge are not considered to have been readmitted.

%: The number of children readmitted to foster care in 2007, as a percentage of the total number of children admitted to foster care in 2007.

Race /Ethnicity – see Appendix A for definitions.

Time From Goal to Discharge (to Adoption) N: Children of the specified age group who were discharged to Adoption in 2007 whose time from goal set to Adoption to discharge to Adoption was in the specified time period. %: The number of children of each age group who took the specified time to get from goal set to Adoption to be discharged to adoption as a percentage of all children in that age group who were discharged to Adoption during 2007.

Sequence of Milestones: For children who had both a goal of adoption and were free in 2007, percentages for whom sequence of these milestones was: Goal [set] First, or [goal set] Within 30 Days [of freeing], or Free(d) First.

Subsidies at Time of Discharge

N: Number of children discharged to adoption in 2007 with a subsidy designation of either "hard-to-place" or handicapped.

%: Discharges with a designated subsidized adoption as a percentage of all discharges to adoption.

Type of Subsidy at Discharge

%: Subsidies with a designated type as a percentage of all subsidies.

Children with waivers from photo listing are excluded from all "N"s and Percentages.

## **APPENDIX A: CLARIFICATION OF DATA SOURCES AND DEFINITIONS**

This appendix clarifies definitions or specifies what data were used to produce the Child Protective Services (CPS), Preventive and/or Protective Services, Foster Care, and Adoption components of the MAPS packages. All Child Protective Services program data used come from the State Central Register (SCR) (CONNECTIONS). Preventive and/or Protective Services, Foster Care, and Adoption data come from the Child Care Review Service (CCRS). Data from 2003-2007 are provided for selected variables. For the definitions of these variables, refer to the MAPS page where the variable appears.

### **Population Sources**

The population figures used to calculate rates are taken from the 2007 Complete New York and New Jersey Demographic Database Files, Woods and Poole Economics, Inc. The child population includes children under 22 in all program areas except CPS, where only children under 18 are included in rate calculations.

### **Race and Ethnicity Categories**

After a number of years of reporting race and ethnicity as separate variables, a decision has been made to combine these variables. Reporting race/ethnicity as a single variable provides easier comparisons of the child welfare experiences of minority children. The revised race/ethnicity data will be found on pages 6, 8, 12 and 13. As a result of combining race and ethnicity in MAPS 2007, caution should be used when comparing the new race/ethnicity data with MAPS reports from 2001-2006.

### **New Coding of Race/Ethnicity in MAPS**

Note: The Race/Ethnicity categories in the MAPS report are roll ups of the codes that are entered into CCRS.

<b>MAPS Category</b>	<b>included in category</b>
White	White (Not Hispanic)
African American	Black, Interracial Black/White, Interracial Black/Asian Ethiopian, Haitian
Latino	Interracial Puerto Rican/White, Interracial Puerto Rican/Black, Other Hispanic, Interracial Puerto Rican/Asian, Interracial Puerto Rican/ Other Hispanic, Puerto Rican, Cuban
Native American/Alaska Native	American Indian/Alaska Native
Asian	Cambodian, Interracial Asian/White, Asian, Laotian, Vietnamese
Unknown	Interracial Other, Other, Unknown

## **CHILD PROTECTIVE SERVICES (CPS)**

On June 29, 1997, the existing State Central Register reporting system and database were replaced with the CONNECTIONS reporting system and database. Since June 29, 1997, all incoming calls have been processed through the CONNECTIONS system.

The standards for case practice did not change with the implementation of CONNECTIONS. Regulations framing casework practice on all aspects of Child Protective Services remain the foundation for assuring the safety of children in New York State. However, the structure and terminology for CONNECTIONS is very different. While the definition of a 'report' is the same, it is now labeled depending on where it is in the process, or what 'stage' it is in (*e.g.* Intake, Investigation, etc.).

The data incorporate information from the Investigation stage. The "date of determination" occurs when the supervisor records an approval of the worker's assessment of the report. This action also closes the Investigation stage. All reports for which a district has primary responsibility for investigating are counted. These include familial, foster care and day care reports. The "Reports Received" and "Reports Indicated" sections on the Trend page have been rerun.

## **PREVENTIVE and /or PROTECTIVE SERVICES**

As referenced in the Introduction, the source file for MAPS 2007 is now the OCFS Data Warehouse. CCRS, the old data extract file had limitations regarding child movements, Service Program Choices, and Permanency Planning Goals. The OCFS Data Warehouse captures all activities for these children.

Service Program Choices are entered into CONNECTIONS by the workers during the FASP. The change in how and where Service Program Choices are entered has resulted in changes to how Preventive Services is being reported in MAPS 2007. New to MAPS 2007 are the Preventive and/or Protective Services Pages, page 9 has now become pages 9 and 9A.

### **Case**

In the CCRS database, a preventive case is child specific and each child in a family that is receiving services is a separate case.

### **Data Sources and Definitions**

For all Preventive and/or Protective Services MAPS pages or for those pages specified, the following data sources/definitions were used.

Children receiving Mandated Preventive Services are those who have, in CCRS, a Service Program Choice (SPC) of "B" for "Mandated Preventive."

In CCRS, children receiving foster care services can be identified in one way, - by the presence of a movement code of "M910" for "Child Placement".

Page 6, "Mandated Preventive Openings by Age and Race/Ethnicity," and page 8, "Mandated Preventive Population by Age and Race/Ethnicity 12/31/07" use the movement code to identify the children "In Care" and "Not In Care."

Page 7, "Characteristics of Mandated Preventive Openings" uses the movement code to identify children receiving prior or subsequent foster care services. Concurrent Child Protective Services is based on the Service Program Choice (SPC) of "D" for "Protective."

Children receiving Child Protective Services (CPS), referred to on page 7, are those who are in an indicated SCR case that remains open, are in an open CCRS case, and have a Service Program Choice (SPC) of "D" for "Protective."

### **"Characteristics of Mandated Preventive Openings," Page 7**

The "Prior Foster Care" category counts children who had a Service Program Choice (SPC) code of "Placement" at any time during the 12 months before the Mandated Preventive SPC occurred.

The "Concurrent Child Protective Services" category includes all children receiving Child Protective Services at the time of the Mandated Preventive opening.

### **"Preventive Only Trend Data" Page 9, "Preventive and/or Protective Trend Data" Page 9A**

Pages 9 and 9A report on trend data for "Preventive Only", "Protective Only" and "Preventive and Protective" Services. Page 9A was added to give more detailed information on the program choices of "Protective Only" and "Preventive and Protective".

To calculate the total number of Preventive Openings it is now necessary to add the Preventive Only total for a given year to the Preventive and Protective total for that year. For example, the total number of Preventive Openings for 2007 is calculated by adding 12,733 Preventive Only Openings (Page 9) to 16,990 Preventive and Protective Openings (Page 9A) for a total of 29,723. Similarly, the total Protective Openings for 2007 is calculated by adding the Protective Only Openings (27,552) to the Protective and Preventive Openings (16,990) for a total of 44,542.

## **FOSTER CARE**

### **"Services Prior To/At Foster Care Admission," Page 14**

"On the date of the foster care admission" includes the actual date of foster care admission and up to 30 days after the admission date.

Children receiving Child Protective Services (CPS) are those who are in an indicated SCR case that remains open, are in an open CCRS case, and have a Service Program Choice code of "Protective" in CCRS.

### **"Admissions, Discharges and In Care, Facility Type by Placement Location and Age," Page 16**

The "other" category contains many specialized programs/services that serve very few children. If needed, information on what is included in this category is available upon request.

### **"Days in Care," Page 19**

All facility types (level of care) in the chart are determined from specific movement codes entered into CCRS. The definition of foster boarding home includes emergency foster boarding homes.

Some children placed in adoptive homes are counted in the foster boarding home category because that is how the home is coded in CCRS.

Other: Includes residential treatment facilities, skilled nursing facilities, specialized schools, etc.

Congregate Care: Includes Institutions, Agency Operated Boarding Home (AOBH), Group Home, Group Residence, Supervised Independent Living Programs (SILPs) and Other.

Adoptive Home: Includes Adoptive and/or Adoption Subsidy Home.
