INTRODUCTION

The Monitoring and Analysis Profiles (MAPS) are data packages that provide information on the major child welfare services provided by local Departments of Social Services (DSS). MAPS was developed in 1985 to support the program monitoring role of the Regional Office staff and New York State Office of Children and Family Services (OCFS). Since then, the MAPS packages, which are produced annually, have also been disseminated to assist in child welfare planning and decision-making.

This MAPS package provides data on Child Protective Services (CPS), Foster Care, and Adoption for New York City, Upstate (combines all counties except New York City), and Statewide. It contains detailed information for 2012 and charts of selected trend information for the five-year period, 2008-2012. Data for all counties other than New York City are contained in separate packages.

A significant change was made to MAPS starting with MAPS 2007:

- 1- **Change in source file.** The source file changed from a CCRS extract (Monthly Status Master) to the OCFS Data Warehouse.

Program data on Child Protective Services are taken from the CONNECTIONS database, while the program data on Foster Care and Adoption are taken from the Child Care Review Service (CCRS) database. Both of these are statewide, computerized child welfare databases.

The current MAPS package was developed based on the data contained in OCFS Data Warehouse on March 31, 2013, and from the CONNECTIONS database as of March 31, 2013. The numbers in the MAPS package may differ from those that appear on routine reports that are distributed by OCFS either because they are taken from the databases on different dates or because the definition of a term differs. Additionally, lag reporting by some Social Services districts affects all Foster Care and Adoption data.

In most instances, numbers are converted into rates or percentages to highlight important aspects of the child welfare service programs. The use of rates and percentages is a critical component of MAPS as it allows for comparisons by controlling for differences in population. The population figures used to calculate rates for 2008 through 2012 are taken from the 2007 Complete New York and New Jersey Demographic Database Files, copyright May 2007, Woods and Poole Economics, Inc. For Child Protective Services data, rates are calculated based on the number of children ages 0 through 17 because very few reports are taken on youth aged 18 and over. However, since OCFS does have children in foster care 18 years old and above, the rates for Foster Care and Adoption are based on the number of children ages 0 through 21.

Data on the ethnic composition of children receiving Foster Care are from the CCRS database (See Appendix A for changes to race/ethnicity). Data for their foster/adoptive parents are from CONNECTIONS.

The MAPS package focuses on developing a profile of the child welfare services programs in each local Social Services district. The data describe what are believed to be key, measurable characteristics of county child welfare services. The package is designed to provide a framework within which to examine the relationships among variables, raise questions, and initiate discussions about child welfare programs. Unlike indicators, it is not intended to judge performance or to focus attention on a single variable.

Definitions necessary to understand the data are printed at the bottom of the appropriate page. These definitions also apply to the multi-year data pages. Appendix A contains additional clarifying information to facilitate an accurate interpretation of complex variables. Careful review and use of the MAPS package are required to understand the data.

In summary, MAPS is not intended to be a package of indicators by which performance may be judged. Rather, it is intended to provide a framework within which reasoned questions can be asked by those who have been trained to its uses and limitations and who have substantive knowledge of the child welfare system in New York State. Questions about this data and suggestions and/or comments related to the design of this package may be directed to Vajeera Dorabawila, Research Scientist/Assistant Director, Bureau of Research, Evaluation and Performance Analytics, 52 Washington St., 3rd floor, Rensselaer, New York 12144-2796, or (518) 402-7386. E-mail requests for copies can be sent to Vajeera Dorabawila, via Microsoft Exchange or the Internet at Vajeera.Dorabawila@ocfs.ny.gov

Admissions: N: Number of children admitted to foster care during the calendar year.

Rate: The number of children admitted to foster care during the calendar year for every 1000 children in the district.

Discharges: N: Number of children discharged during the calendar year. The number does not include trial discharges.

%: Children discharged during the calendar year, as a percentage of all children who were in foster care at any time during the calendar year.

In Care: N: Number of children in foster care on 12/31/12

Rate: The number of children in foster care on 12/31/12 for every 1000 children in the district.

Race /Ethnicity – see Appendix A for definitions.

Destination: For children discharged during 2012, the stated discharge reason: return to a homelike setting (Home); discharge to adoption (Adoption); assuming responsibility for self, e.g. independent living, military service, etc. (Independent Living); discharge to another state service system (Other State Agency); or one of several other reasons, e.g., moved out of district, etc. (Other).

| 13-24 months | 236 | 4.6 |

Total With Race/Ethnic Code: N: Number of children in foster boarding or adoptive homes on 12/31/12 who have a race/ethnic code in CCRS.

Number With Same Race/Ethnic Code: N: Number of children in foster boarding or adoptive homes on 12/31/12 whose race/ethnic code in CCRS is the same as at least one of his or her foster parent's race/ethnic code in the Connections database. Congregate care and approved relative homes are excluded.

%: Children with a race/ethnic code in CCRS whose code is the same as at least one foster parent's race/ethnic code in the Connections database as a percentage of children in foster care on 12/31/12 with a race/ethnic code for a specified race/ethnic group. There are a small number of foster parents with no race/ethnic code in the Connections database; these are counted as not matched.

Siblings in Foster Care: N: Number of children in foster care on 12/31/12 who have a sibling in foster care.

Separated: All of the siblings in a sibling group of the specified size are in separate facilities.

Partly Separated: Some of the siblings in a sibling group of the specified size are in separate facilities.

Intact: All of the siblings in a sibling group of the specified size are in the same facility.

%: Number of siblings who are separated, partly separated, or intact as a percentage of all siblings in a sibling group of the same size.

Children Returning to Care By Length of Time Since Last Discharge: N: Number of children who were readmitted to foster care in 2012 who had been discharged from foster care within the specified number of months prior to the last 2012 admission. Children returning to foster care from a trial discharge are not considered to have been readmitted.

%: The number of children readmitted to foster care in 2012 as a percentage of the total number of children admitted to foster care in 2012.

Race /Ethnicity – see Appendix A for definitions.

APPENDIX A: CLARIFICATION OF DATA SOURCES AND DEFINITIONS

This appendix clarifies definitions or specifies on what data were used to produce the Child Protective Services (CPS), Foster Care and Adoption components of the MAPS packages. All Child Protective Services program data used come from the State Central Register (SCR) (CONNECTIONS). Foster Care and Adoption data come from the Child Care Review Service (CCRS). Data from 2008-2012 are provided for selected variables. For the definitions of these variables, refer to the MAPS page where the variable appears.

Starting with MAPS 2007, changes were made to the source file, race/ethnicity categories, and the Preventive services pages. Details regarding these changes are found in this appendix.

Population Sources

The population figures used to calculate rates are taken from the 2007 Complete New York and New Jersey Demographic Database Files, Woods and Poole Economics, Inc. The child population includes children under 22 in all program areas except CPS, where only children under 18 are included in rate calculations.

Race and Ethnicity Categories

After a number of years of reporting race and ethnicity as separate variables, a decision has been made to combine these variables. Reporting race/ethnicity as a single variable provides easier comparisons of the child welfare experiences of minority children. The revised race/ethnicity data will be found on pages 7 and 8. As a result of combining race and ethnicity, starting with MAPS 2007, caution should be used when comparing the new race/ethnicity data with MAPS reports from 2002-2006.

New Coding of Race/Ethnicity in MAPS

Note: The Race/Ethnicity categories in the MAPS report are roll ups of the codes that are entered into CCRS.

CHILD PROTECTIVE SERVICES (CPS)

On June 29, 1997, the existing State Central Register reporting system and database were replaced with the CONNECTIONS reporting system and database. Since June 29, 1997, all incoming calls have been processed through the CONNECTIONS system.

The standards for case practice did not change with the implementation of CONNECTIONS. Regulations framing casework practice on all aspects of Child Protective Services remain the foundation for assuring the safety of children in New York State. However, the structure and terminology for CONNECTIONS is very different. While the definition of a 'report' is the same, it is now labeled depending on where it is in the process, or what 'stage' it is in (*e.g.* Intake, Investigation, etc.).

The data incorporate information from the Investigation stage. The "date of determination" occurs when the supervisor records an approval of the worker's assessment of the report. This action also closes the Investigation stage. All reports for which a district has primary responsibility for investigating are counted. These include familial, foster care and day care reports. The "Reports Received" and "Reports Indicated" sections on the Trend page have been rerun.

Family Assessment Response (FAR) data

Starting with MAPS 2009, all CPS pages reflect Family Assessment Response (FAR) data for the counties that participate in this approach to CPS investigations. Beginning in late 2008, several counties were approved to use an alternative approach with families for some of their CPS maltreatment reports. This alternative approach known as FAR is considered a CPS response, even though no determination is made as to whether or not there is some credible evidence of maltreatment. The intent of FAR is to promote child safety and family well-being through enriched family engagement.

FOSTER CARE

"Services Prior To/At Foster Care Admission," Page 9

"On the date of the foster care admission" includes the actual date of foster care admission and up to 30 days after the admission date.

Children receiving Child Protective Services (CPS) are those who are in an indicated SCR case that remains open, are in an open CCRS case, and have a Service Program Choice code of "Protective" in CCRS.

"Admissions, Discharges and In Care, Facility Type by Placement, Location and Age," Page 11

The "other" category contains many specialized programs/services that serve very few children. If needed, information on what is included in this category is available upon request.

"Days in Care," Page 14

All facility types (level of care) in the chart are determined from specific movement codes entered into CCRS. The definition of foster boarding home includes emergency foster boarding homes. Some children placed in adoptive homes are counted in the foster boarding home category because that is how the home is coded in CCRS.

Other: Includes residential treatment facilities, skilled nursing facilities, specialized schools, etc.

Congregate Care: Includes Institutions, Agency Operated Boarding Home (AOBH), Group Home, Group Residence, Supervised Independent Living Programs (SILPs) and Other.

Adoptive Home: Includes Adoptive and/or Adoption Subsidy Home.
