**\*\*Technical Assistance Update\*\*** As part of the “GCGC – Get Clean Get Clear” initiative and to further assist our users, we have modified our technical assistance process. **The Technical Assistance folder will be a temporary home for modified reports.** When you are satisfied with the solution to your inquiry, we will help you MOVE the modified report to your “my content” folder for your personal use. If the change requested is globally needed, we will make those changes in the production report folders, and you can use them from there.  
*This change will greatly improve your search results!*
