

The National Safety Council is pleased to announce that we have been contracted by the New York State Office of Children and Family Services to deliver a Pediatric and Adult CPR and AED and First Aid program that will meet the needs of regulated child care providers effective December 1, 2014.

To schedule classroom training please contact one of the providers listed below that are training in your county.

The program is also available online. To access the NSC Online course, please visit <http://www.safetyserve.com/ocfs/> and then click on New Student. The Access Code for new students is **NYFIRST**. Upon successful completion of the online course you will need to complete a skill test session, with an NSC approved Training Center listed below, to receive your course completion cards.
