Dear Permittee,

The State Pollutant Elimination System (SPDES) permit renewal for the facility referenced above is approved with the new effective and expiration dates. This letter together with the previous valid permit for this facility effective on 03/01/2009 and any subsequent modifications constitute authorization to discharge wastewater in accordance with all terms, conditions and limitations specified in the previously issued permit(s).

IMPORTANT NOTICE - In accordance with Article 17, Title 8 (State Pollutant Discharge Elimination System) and Article 70 (Uniform Procedures) of the Environmental Conservation Law, your permit is subject to the Discharge Notification Act (DNA). This law requires permittees to post a sign near each outfall of a wastewater discharge to surface waters, and also to provide a public repository for discharge Monitoring Reports (DMRs) required by the SPDES permit. To initiate your complying with the provisions of the DNA, your permit is hereby modified and the DNA requirement pages are made a part of your permit.

Please note, however, that compliance with DNA requirements can be waived in certain cases. If an outfall satisfies any of the criteria listed in item (g) of the enclosed Discharge Notification Requirements, you are eligible for seeking a waiver from the DNA. To do so, you must notify the Department by completing the enclosed Notice of Waiver form and sending it to the Bureau of Water Permits, NYSDEC, 625 Broadway, Albany, NY 12233-3505. Construction of a sign and the maintaining of DMRs at a public repository is not required for the specific outfall or outfalls identified in the Notice of Waiver.

As a reminder, SPDES permits are renewed at a central location in Albany in order to make the process more efficient. All other concerns with your permit, including applications for permit modification 01' transfer to a new owner, a name change, and other questions, should be directed to:

Regional Permit Administrator, NYSDEC REGION 3 HEADQUARTERS
21 SOUTH PUTT CORNERS RD, NEW PALTZ, NY 12561-1620 (845) 256-3185

If you have already filed an application for modification of your permit, it will be processed separately by that office.

If you have questions concerning this permit renewal, please contact LINDY SUE CZUBERNAT at (518) 402-

Sincerely,
Dear SPDES Permittee:

Enclosed please find a validated NOTICE-RENEWAL APPLICATION/PERMIT form renewing your State Pollutant Discharge Elimination System (SPDES) permit for the referenced facility, this validated form, together with the previously issued permit (see issuance date of this permit in Part 3 of the NOTICE/RENEWAL APPLICATION/PERMIT form), and any subsequent permit modifications constitute authorization to discharge wastewater in accordance with all terms, conditions and limitations specified therein.

IMPORTANT NOTICE In accordance with Article 17, Title 8 (State Pollutant Discharge Elimination system) and Article 70 (Uniform procedures) of the Environmental Conservation Law, your permit is subject to the Discharge Notification Act (DNA). This law requires permittees to post a sign near each outfall of a wastewater discharge to surface waters, and also to provide e public repository for discharge Monitoring Reports (DMRs) required by the SPDES permit, to initiate your complying with the provisions of the DNA, the Department has elected to modify your permit during this renewal period.

Please note however, that compliance with DNA requirements can be waived in certain cases. If an outfall satisfies any of the criteria listed in item (g) of the enclosed DISCHARGE NOTIFICATION REQUIREMENTS, you are eligible for seeking a waiver from the DNA. To do so, you must notify the Department by completing the enclosed Notice of Waiver form and sending it to the Bureau of Water Permits, NYSDEC, 625 Broadway, Albany, NY 12233-3505.

Construction of a sign and the maintaining of DMRs at a public repository is not required for the specific outfall or outfalls identified in the Notice of Waiver...
The instructions and other information that you received with the NOTICE/RENEWAL APPLICATION/PERMIT package fully described procedures for renewal and modification of your SPDES permit under the Environmental Benefit Permit Strategy (EBPS). As a reminder, SPDES permits are renewed at a central location in Albany in order to make the process more efficient. All other concerns with your permit such as applications for permit modifications, permit transfers to a new owner, name changes, and other questions should be directed to the Regional Permit Administrator at the following address:

Margaret Duke  
NYSDEC – Region 3  
21 South Putt Corners Road  
New Paltz, NY 12561-1696  
(845)256-3054.

If you have already filed an application for modification of your permit, it will be processed separately through our regional office. If you have questions concerning this permit renewal, please contact Lindy Sue Czubernat at (518) 402-9165.

Sincerely,

Charles B. Gardner

SPDES Permit No.: NY 003 0384

Effective Date of Modification 07/15/03

DISCHARGE NOTIFICATION REQUIREMENTS

(a) Except as provided in (c), (f) and (g) of these Discharge Notification Act requirements, the permittee shall install and maintain identification signs at all outfalls to surface waters listed in this permit. Such signs shall be installed within 90 days of the Effective Date of this Modification.
Subsequent modifications to or renewal of this permit does not reset or revise the deadline set forth in (a) above, unless a new deadline is set explicitly by such permit modification or renewal.

(c) The Discharge Notification Requirements described herein do not apply to outfalls from which the discharge is composed exclusively of storm water, or discharges to ground water.

(d) The sign(s) shall be conspicuous, legible and in as close proximity to the point of discharge as is reasonably possible while ensuring the maximum visibility from the surface water and shore. The signs shall be installed in such a manner to pose minimal hazard to navigation, bathing or other water related activities. If the public has access to the water from the land in the vicinity of the outfall, an identical sign shall be posted to be visible from the direction approaching the surface water.

The signs shall have minimum dimensions of eighteen inches by twenty-four inches (18” x 24”) and shall have white letters on a green background and contain the following information:

(e) For each discharge required to have a sign in accordance with a), the permittee shall, concurrent with the installation of the sign, provide a repository of copies of the Discharge Monitoring Reports (DMRs), as required by the RECORDING, REPORTING AND ADDITIONAL MONITORING REQUIREMENTS page of this permit. This repository shall be open to the public, at a minimum, during normal daytime business hours. The repository may be at the business office repository of the permittee or at an off-premises location of its choice (such location shall be the village, town, city or county clerk's office, the local library or other location as approved by the Department) in accordance with the RECORDING, REPORTING AND ADDITIONAL MONITORING REQUIREMENTS page of your permit, each DMR shall be maintained on record for a period of three years.

(continued)

SPDES Permit No.: NY 003 0384
(f) If, upon November 1, 1997, the permittee has installed signs that include the information required by 17-0815-a(2)(a) of the ECL, but do not meet the specifications listed above, the permittee may continue to use the existing signs for a period of up to five years, after which the signs shall comply with the specifications listed above.

(g) All requirements of the Discharge Notification Act, including public repository requirements, are waived for any outfall meeting any of the following circumstances, provided Department notification is made in accordance with (h):

(i) such sign would be inconsistent with any other state or federal statute,

(ii) the Discharge Notification Requirements contained herein would require that such sign could only be located in an area that is damaged by ice or flooding due to a one-year storm or storms of less severity;

(iii) instances in which the outfall to the receiving water is located on private or government property which is restricted to the public through fencing, patrolling, or other control mechanisms. Property which is posted only, without additional control mechanisms, does not qualify for this provision;

(iv) instances where the outfall pipe or channel discharges to another outfall pipe or channel before discharge to a receiving water; or

(v) instances in which the discharge from the outfall is located in the receiving two-hundred or more feet from the shoreline of the receiving water,

(h) if the permittee believes that any outfall which discharges wastewater from the permitted facility meets any of the waiver criteria listed in (g) above, notification (form enclosed) must be made to the Department's Bureau of Water Permits, Central Office, of such fact, and, provided there is no objection by the Department, a sign and DMR repository for the involved outfall(s) are not required. This notification must include the facility's name, address, telephone number, contact, permit number, outfall number(s), and reason why such outfall(s) is waived from the requirements of discharge notification, The Department may evaluate the applicability of a waiver at any time, and take appropriate measures to assure that the ECL and associated regulations are complied with.

(i) The permittee shall periodically inspect the outfall identification signs in order to ensure that they are maintained, are still visible and contain information that is current and factually correct.
