Commissioner
Section 491.3(g)(3) of Title 18 NYCRR is amended to read as follows:

(3) Upon written request by the operator, the department may waive the capacity limits set forth in paragraph (1) of this subdivision. An exception [shall] **will** be granted only upon demonstration by the operator that:

(i) there are compelling conditions which necessitate the establishment of a larger facility; and

(ii) the physical plant and proposed program comply with department regulations and applicable local codes.

Any such waiver granted to a social services district will be limited to an original term of six months duration and may be extended for additional six-month periods. Such waiver cannot be granted unless the department has received from the social services district in which the shelter for adults is located, and has approved, a plan for the reduction of the population housed in the shelter for adults. Any extension of a waiver may be granted only upon submission to the department of a supplemental plan for the reduction of the population housed in the shelter for adults and the department's approval of the plan. The social services district cannot admit or retain a number of persons in excess of the capacity specified by the department after review of the district's waiver requests.
