The Kinship Guardianship Assistance Program

Introduction

The Kinship Guardianship Assistance Program (KinGAP) is a federally supported program for children in kinship foster care. The program provides financial assistance to related caregivers who assume legal guardianship of children formerly under their care as foster children. Under this program, medical coverage is provided to most of the children.

The purpose of the program is to promote permanency for foster children who do *not* have a discharge goal of return to parent or adoption by providing safe permanent placements with relatives. KinGAP establishes requirements for assessing when the child and the prospective relative guardian are eligible for kinship guardianship assistance payments. These requirements include a number of legal, clinical and assessment considerations that must be made before proceeding with a kinship guardianship assistance arrangement.

KinGAP also assists a relative who is eligible for kinship guardianship assistance payments by providing up to \$2,000 per child as part of the Non-Recurring Guardianship Expenses Program for payment of the costs directly associated with securing letters of guardianship over the foster child. Furthermore, KinGAP assists youth, age 16 and older, after they leave foster care as part of a kinship guardianship assistance arrangement by making independent living services and education and training vouchers available both to support permanency and to prepare the child to live independently after the termination of the kinship guardianship assistance arrangement.

KinGAP is available for foster children who are legally freed for adoption, as well as those who are not legally freed for adoption. For this reason, the program is an appealing permanency alternative for related foster parents because legal guardianship does not require termination of parental rights. If children are not legally freed, transfer of legal guardianship to the related foster parents allows existing family connections to remain intact, including the children's rights of association with their siblings, grandparents, and other extended family members. Legal guardianship also leaves open the possibility that children might someday return home to their biological parents should the issues that brought them into foster care be resolved.

Background

In October 2008, the federal Fostering Connections to Success and Increasing Adoptions Act (P.L. 110-351) created an option for states to provide financial assistance to relatives who are caring for foster children and become the legal guardian of those children. The federal law allowed states to use federal funds (under Title IV-E of the Social Security Act) for subsidies to guardians of eligible children.

New York State's subsidized guardianship program was implemented on April 1, 2011, as a result of Part F of Chapter 58 of the Laws of 2010 (Chapter 58) entitled "Kinship Guardianship Assistance Program" (KinGAP) (see §§458-a--458-f of the SSL). Chapter 58 also amended the Family Court Act (FCA) and the Surrogate's Court Procedure Act, setting

forth standards and procedures relating to the application for and issuance of letters of guardianship to prospective relative guardian(s). The New York State statute meets all federal requirements to operate KinGAP and to obtain federal reimbursement for eligible foster children. In addition, Chapter 58 includes New York State specific provisions and extends eligibility for this program to eligible non-Title IV-E children.

In 2011, in preparation for the implementation of the program, the Office of Children and Family Services (OCFS) convened several workgroups comprised of representatives of various parts of the agency. They analyzed the program's impact and addressed issues and considerations necessary so that social services districts and voluntary foster care agencies could implement and offer this program as a new permanency option to eligible families. In addition, OCFS consulted with social services district staff on their pre-implementation work and areas that would need to be addressed in OCFS's instructions to the field. Furthermore, work was initiated with other impacted state agencies (Department of Health, Office of Temporary and Disability Assistance and the Office of Court Administration) about necessary policy and procedural changes.

In 2012, the implementation work continued with a focus on fine-tuning specific aspects of the program, and providing technical assistance to social services districts and voluntary agencies as they encountered more KinGAP cases. One area in particular where technical assistance was provided to districts and agencies was with entering the correct systems codes in the various information technology systems at OCFS. Much of the technical assistance provided was to districts in regards to coding questions/issues and, as a result, OCFS designed a KinGAP Systems Tip Sheet to walk workers through the information that must be entered into the systems for a KinGAP case.

In 2013, OCFS received more case-specific questions as workers began working on more complex KinGAP cases. Some of the questions raised have resulted in OCFS revising some KinGAP materials to address the issues that workers were encountering in the field. Updated KinGAP information has been provided to the field regularly via the KinGAP webpage and email notifications. OCFS continues to provide a KinGAP general email mailbox for questions.

The appendix of this report contains a comprehensive list of all of KinGAP activities in 2013. Links are provided on the list to written materials developed for this program.

Reporting Requirements

In addition to establishing KinGAP, Section 12 of Part F of Chapter 58 sets forth reporting requirements for OCFS with regard to KinGAP and some additional relevant data. No later than February 1, 2012, and each year thereafter, OCFS must report the required information to the Governor, Speaker of the Assembly, Temporary President(s) of the Senate, the Minority Leader of the Senate, the Chair of the Assembly Committee on Children and Families, and the Chair of the Senate Committee on Children and Families, detailing the implementation and progress of KinGAP.

The information is to be provided on a yearly basis and includes, but is not limited to:

- The total number statewide, and number of children in each local department of social services (LDSS), who have entered into KinGAP within that yearly reporting period;
- The total number of children who have entered into KinGAP since implementation;
- The total number of applications statewide, and number of KinGAP applications in each LDSS;
- The total number of KinGAP applications denied and accepted by an LDSS;
- The ages of children entering into KinGAP;
- The number of fair hearings requested by KinGAP applicants and recipients, including the reasons for such hearing requests;
- The number of fair hearings held, the time frames within which decisions were rendered, and the number of fair hearings resolved in favor of the aggrieved party and the LDSS;
- Changes since implementation of KinGAP in the percentage of foster care children adopted, reunified, and released to other permanency outcomes;
- Changes since implementation of KinGAP in the percentage of children directly placed with relatives under Article 10 of the FCA; and
- Changes in the average length of stay in foster care.

This report is the third one since the start of the KinGAP program in April 2011. OCFS has seen a significant increase in the number of KinGAP applications and completed KinGAP arrangements in the past year, and expect this number to continue to rise in 2014, as social service districts and voluntary agencies become more familiar with the program and its benefits. OCFS has continued to work diligently this past year to assist districts and agencies with entering their KinGAP activity codes into the appropriate OCFS data systems to provide an accurate picture of the KinGAP work they have completed.

The remainder of this report will focus on the data collected as required by Chapter 58.

Summary of Data Reported by Districts

The data reported on the tables included in this report were based on the data entered by social services districts in the OCFS system of record, the Child Care Review Service (CCRS). Previously reported numbers may differ in each annual report due to coding changes and local districts correcting or otherwise modifying the CCRS record.

Based on the OCFS system of record, CCRS, between January 1, 2013, and December 31, 2013, there were a total of 351 KinGAP applications received. Out of these 351 applications, 300 were received by New York City and 51 by counties in the Rest of State (ROS), which are significantly higher than the 2012 numbers of 157 (NYC) and 23 (ROS). In 2013, in addition to New York City, applications were received by Allegany, Cayuga, Columbia, Dutchess, Oneida, Onondaga, Orange, St. Lawrence, Schenectady, Suffolk, Ulster, and Westchester Counties. Only two KinGAP applications were denied, and these were both in New York City. Statewide, 270 KinGAP applications were accepted (approved) and 79 applications were pending at the time of finalization of this report (Table 2).

In 2013, 257 children entered the KinGAP program; 188 children in New York City and 69 in ROS, as compared to 21 (NYC) and 35 (ROS) last year. Since the start of the KinGAP program in April 2011, 354 children have achieved permanency and have been discharged from foster care to a KinGAP arrangement (Table 1).

The KinGAP program continues serving children at a variety of ages, from less than two years old to older than 18 years of age at the time of their entry into KinGAP. More than half (56 percent) of the children fall between 6-13 years old, and an additional 21.4 percent are between ages of 3-5 (Table 3).

In 2013, according to our data records, there were no fair hearing requests on behalf of KinGAP cases. In the previous reporting period, there were two fair hearing requests received by OCFS on KinGAP application denials. One of the fair hearings had findings in favor of the social services district and the second case has been adjourned while settlement discussions are ongoing (Table 4).

There has been some change in the distribution of types of permanent exits from foster care in 2013 compared to 2010. In 2013, 2.5 percent of all 10,326 permanent exits were exits to KinGAP. In 2010, 56.1 percent of children who exited foster care were reunited with their families compared to 48.6 percent in 2013. In 2010, 16.5 percent were adopted, while 19.5 percent were adopted in 2013. In 2010, 27.5 percent had some other permanent outcome while in 2013, 29.5 percent had some other permanent outcome (Table 5.a).

Of the 2,179 children statewide who exited foster care from an approved relative foster care placement¹ in 2013, 9.2 percent entered KinGAP. In ROS counties, 7.8 percent of children who exited relative foster care entered KinGAP in 2013 and 9.5 percent of children in NYC relative foster homes exited to KinGAP. Statewide, 44.4 percent of children who left relative foster care were reunified with their parents, 26.3 percent were adopted, and 20 percent had some other permanent exit (Table 5.b).

Of the 257 children who entered the KinGAP program in 2013, 200 came from an approved relative foster home and 57 came from a certified foster home. Between 2011 and 2013, there was a 27 percent increase in the number of children placed directly (in the direct legal custody) with a relative for the first time under Article 10² (non-LDSS custody) (Table 6). The increase from 1,454 in 2011 to 1,852 in 2013 equates to 398 more children with direct relative placements in 2013 as compared to 2011.³ In NYC, the number of children directly placed

¹ It should be noted that children may enter a KinGAP arrangement from a certified foster home, as well as an approved relative foster home. Approved homes are those of a relative within the third degree by blood or marriage to the parent; a relative to any degree can be certified as a foster parent and meet the KinGAP requirement of being related to the child by blood, marriage or adoption.

² Prior to November 7, 2011, there was one dispositional code (62) that was used for both relative and non-relative direct custodial placements; therefore, there was no way to separate out the relative from the non-relative data, though it is thought that most of these direct placements were with relatives. As of November 7, 2011, the use of dispositional code 62 was no longer allowed and districts were given two codes to separate out Article 10 direct custodial placements with relatives (88) and non-relatives (89).

³ 2013 brought additional improvements in how direct placements with relative are calculated. Table 6 in all previous KinGAP annual reports should be disregarded in favor of the numbers reported in this year's report. For

with relatives was relatively stable with a 5% increase in first relative direct placements (272 in 2011 compared to 285 in 2013). In ROS, there was a 33% percent increase from 1,182 in 2011 to 1,567 in 2013.

Of the 1,454 children placed directly in the legal custody of relatives for the first time in 2011, 412 children moved to either relative foster care (127 children) or non-relative foster care (285 children) within 12 months of the direct relative placement. In comparison, of the 2,061 children placed directly in the legal custody of relatives for the first time in 2012, 400 children moved to either relative foster care (114) or non-relative foster care (286). There has not been 12 months of follow-up yet for the 1,852 children who were directly placed with relatives in 2013, so outcomes for 2013 will be reported in next year's KinGAP report (Table 6).

The average length of stay for children exiting all foster care settings went down 7.1 percent in ROS from 23.07 months in 2010 to 21.45 months in 2013. In NYC, the average increased 18.2 percent from 33 months in 2010 to 39 months in 2013 (Table 7.a).

The average length of stay for children exiting foster care from approved relative homes in ROS shortened from 27.98 months in 2010 to 25.51 months in 2013. In NYC, the average increased from 33 months in 2010 to 38 months in 2013 (Table 7b). For children who left approved relative homes for KinGAP, the average length of stay was 45.28 months for NYS overall in 2013. The NYC average length of stay was 48 months and the ROS average length of stay was 28.32 months for children who left approved relative foster homes to KinGAP (Table 7c).

the historical record, in the 2011 report, children who had both direct placements and foster care placements during the same placement track were not included in Table 6. In the 2012 report, Table 6 included all direct placements made in the calendar year, regardless of whether the child also had a foster care placement before or after the direct relative placement. In the 2013 report, 2011 and 2012 were recalculated to make sure that only the first direct relative placement for each child was being counted, and the 2013 numbers were calculated the same way. As footnote 2 indicates, more precise coding changes were not made until Nov 7, 2011, we cannot be sure that all calculations that involve direct placements prior to this date are completely accurate.

List of Tables

Table 1: Number of Children Entering KinGAP

Responds to § 12, subsection (a) of the statute⁴: “the total number, and number per local social services district, of children who have entered into the kinship guardianship assistance program within the yearly reporting period, as well as the total cumulative number of children in the program.”

Table 2: Applications for KinGAP Assistance

Responds to § 12, subsection (b) of the statute: “the total number, and number per local social services district of applications for kinship guardianship assistance, including the number of applications denied and the number accepted by the local social services district.”

Table 3: Ages of Children at KinGAP Entry

Responds to § 12, subsection (c) of the statute: “the ages of children entering into the kinship guardianship assistance program.”

Table 4: Fair Hearings

Responds to § 12, subsection (d) of the statute: “the number of fair hearings requested by applicants for, and recipients of, kinship guardianship assistance, including the reasons for such hearing requests, the number of fair hearings held, the time-frames within which decisions were rendered, and the number of fair hearings resolved in favor of the aggrieved party and in favor of the local social services district.”

Table 5: Changes in Permanent Exits

Responds to § 12, subsection (e) of the statute: “changes since implementation of the kinship guardianship assistance program in: the percentage of foster children adopted, reunified, and released to other permanency outcomes.” There are two parts to this table:

Table 5, Part A: Changes in Permanent Exits from All Foster Care Settings Since KinGAP Implementation

Table 5, Part B: Changes in Permanent Exits from Approved Relative Settings Since KinGAP Implementation

Table 6: Percentage Change in Children’s First Direct Placement with a Relative or Other Suitable Adult under Article 10 (non-LDSS Custody)

Responds to § 12, subsection (e) of the statute: “changes since implementation of the kinship guardianship assistance program in: ... the percentage of children directly placed with relatives under article ten of the family court act.”

Table 7: Average Length of Stay

Responds to § 12, subsection (e) of the statute: “... the average length of stay in foster care.” There are three parts to this table and the numbers in the table refer to months in foster care:

Table 7, Part A: Average Length of Stay in Months for Children Exiting Foster Care

Table 7, Part B: Average Length of Stay in Months for Children Exiting Foster Care from an Approved Relative Home Setting

Table 7, Part C: Average Length of Stay in Months for Children Exiting Foster Care from an Approved Relative Home Setting to KinGAP

⁴ Part F of Chapter 58 of the Laws of 2010

OCFS KinGAP Activities

In the first two years of the program, OCFS provided significant support to districts and agencies to assist them in implementing this program. In 2013, the third year of the KinGAP program, OCFS continued its efforts to support and promote the KinGAP program through the following activities:

- **Report to the Governor and Legislature on the Kinship Guardianship Assistance Program (April 1 – December 31, 2012)**
 - The annual reports to the Governor and Legislature on the KinGAP Program can be found at: <http://ocfs.ny.gov/kinship/reports.asp>
- **KinGAP HELP Mailbox**
 - A special mailbox continues to receive questions regarding the Kinship Guardianship Assistance Program. Several social services districts and voluntary agencies have submitted questions over the past year, and most questions have progressed from basic to more case-specific and complex as districts and agencies have worked on more KinGAP cases. The mailbox address is: KinGaphelp@dfa.state.ny.us
- **KinGAP Training**
 - A computer-based Kinship Guardianship Assistance Program (KinGAP) eligibility course continues to be delivered by the Center for Development of Human Services (CDHS) in conjunction with OCFS.
 - The link to the KinGAP eligibility course introduction is <http://www.bsc-cdhs.org/cwe/> (click on KinGAP on the left side).
 - The link to the KinGAP Eligibility Trainee Workbook is <http://www.bsc-cdhs.org/cwe/kingap/Kinship%20Guardianship%20Assistance%20Eligibility%20Trainee%20Guide.pdf>
- **Support For Relatives**
 - OCFS revised a previous publication entitled *Know Your Options: Relatives Caring for Children* to include information about the KinGAP Program.
 - This booklet now covers all the options available to relatives to care for their kin, including permanency options if a reunification is not possible.
 - The booklet can be found at: <http://ocfs.ny.gov/kinship/resources.asp>
- **New York State KinGAP Webpage**
 - OCFS continues to add resources to the KinGAP webpage as they become available.
 - The webpage is at: http://ocfs.ny.gov/kinship/background_and_process.asp
- **KinGAP Systems Tip Sheet**
 - In 2013, OCFS revised the Tip Sheet that presents the systems activities in CCRS, WMS, and CONNECTIONS that workers need to enter in a KinGAP case from the point of a

Appendix

KinGAP application being received to the discharge of the child and payment of the KinGAP assistance payment. This revision was based on feedback from counties using the instructions.

- The KinGAP Systems Tip Sheet can be found at:
http://ocfs.ny.gov/kinship/KinGAP_Systems_Information.asp

- **KinGAP Data Warehouse Reports**
 - KinGAP Reports that coincide with the reports prepared for this report are available to LDSSs and state staff in the Data Warehouse to those staff who have access to Child Welfare Reports.
 - These reports are found in the KinGAP Reports folder within the Child Welfare Services Reports folder.
 - OCFS staff runs these KinGAP reports regularly to keep informed of the progress on KinGAP applications and completions.
 - For questions on access to these reports you can contact the Data Warehouse at Data.Warehouse@ocfs.ny.gov

- **KinGAP Automation Project**
 - In 2013, OCFS continues to work with Information Technology staff to develop a web-based application that can be used to enter and transmit Kinship Guardianship Assistance applications, supporting documentation and KinGAP Agreements from direct worker to supervisory staff and administrative staff within an LDSS and/or between voluntary agencies and LDSS/ACS agencies.
 - In addition to OCFS and IT staff, staff from ACS and upstate social service districts are involved in this project.
 - The most current status report from IT, dated November 2013, states that: “Analysis and documentation of the current KinGAP manual process in NYC/ACS is complete and we are currently working on a core system design and mockup screens for that process”.
 - Target for ACS Implementation –June 30, 2014.
 - Target for Upstate Implementation – May 31, 2016.
