

CBCAP & Trust Fund Community-Based Prevention Programs

2022
January 1 - December 31

Strengthening Families - Working Together Upstream

OCFS funds many community-based child abuse prevention programs. These include family resource centers, home visiting programs, parenting education programs, and clinical and family strengthening programs that provide evidence-based or evidence-informed services.

Reaching Families

2,809 Adults

2,411 Children

with over 27,900 visits

Funding comes from two different sources: the federal Community-Based Child Abuse Prevention (CBCAP) program and the New York State Children and Family Trust Fund (Trust Fund). Programs partner with other community agencies and parents to assist families in their caregiving roles, strengthen informal supports, offer resources directly or through referrals, and promote community investment. These services build on protective factors that research shows can reduce child abuse and neglect.
