## INTRODUCTION

The need for specialized supports for victims of domestic violence (DV) and their children was officially recognized when New York State enacted the Domestic Violence Prevention Act in 1987. This law (Article 6-A, 459-a et. seq. of the New York State Social Services Law [SSL]) requires local departments of social services (LDSSs) to provide shelter and services to victims of domestic violence and establishes mainstream funding mechanisms for these programs.

As a result of the Domestic Violence Prevention Act, the New York State Office of Children and Family Services (OCFS) promulgated regulations that:

- promote standards for the establishment and operation of residential and non-residential domestic violence programs; and
- establish LDSSs responsibility for offering and providing domestic violence services, and for instituting financial and contractual arrangements with providers of domestic violence residential services.

These regulations (18 NYCRR Parts 408, 452-455, and 462) can be found on the OCFS website: <http://ocfs.ny.gov/main/dv/regulations.asp>.

The Domestic Violence Prevention Act requires an annual report to the governor and legislature regarding implementation of the Act. SSL§ 459-d specifies the information to be included in the report, as follows:

- The number of persons estimated to have been assisted in programs covered by this article
- The number of persons estimated to have been denied shelter and/or services
- The amount of public and private funds for approved programs by services type
- The amount of fund used for the administration and staffing of such programs
- The occupancy rate and length of stay by residential program
- The name and description of new programs developed by service type
- The name and description of programs in danger of closing that received funds and the status of such programs
- The name and description of programs that closed during the reporting year, and the reason for such closure
- The number of individuals who requested and received transitional services and the effect of providing such services to victims of domestic violence and their families
- The name and description of programs that received technical assistance and the effect of such assistance
- The name and description of programs that closed during the reporting year and the reason for such closure
- The number of individuals who requested and received transitional services and the effect of providing such services to victims of domestic violence and their families
- The name and description of programs that received technical assistance and the effect of such assistance
- A schedule showing the approved daily rates of reimbursement payable to residential programs for victims of domestic violence pursuant to section one hundred thirty-one-u of this chapter
- All such other matters as may be necessary to inform the governor and the legislature regarding the implementation and effectiveness of programs covered by this article

## I. 2016 Annual Report Statistical Requirements<sup>1</sup>

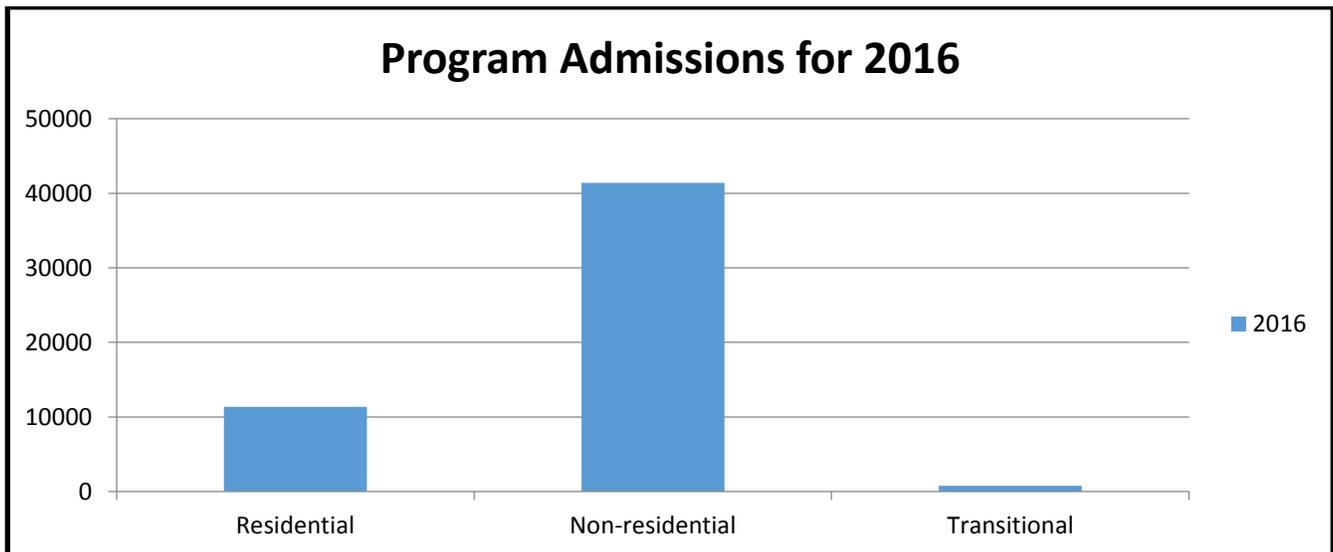

In response to the data requirements for preparing the Domestic Violence Annual Report, OCFS manages a web-based Domestic Violence Information System (DVIS), which addresses the required reporting elements under the purview of OCFS for both its state and federal annual reports. The system is accessible to all approved domestic violence providers in the state.

The following section of the report is the compilation of data for calendar year 2016 (reported as of January 2017).

### Summary of 2016 Domestic Violence Statistics:

- Individual providers across the state received approximately **213,708** domestic violence crisis/hotline calls.<sup>2</sup>
- A total of **11,338** adults and children received residential domestic violence services.
- Approximately **41,399** adults and children received non-residential domestic violence services.
- A total of **759** adults and children entered transitional housing for victims of domestic violence.
- A total of **14,148** adults and **14,418** children were denied shelter in domestic violence residential programs in 2016.<sup>3</sup>

<b>Program Admissions</b>					
	<b>Residential</b>		<b>Non-Residential</b>		<b>Transitional</b>
	<b>2016</b>		<b>2016</b>		<b>2016</b>
Adults	5,571		35,553		310
Children	5,767		5,846		449
<b>Total</b>	<b>11,338</b>		<b>41,399</b>		<b>759</b>

<sup>1</sup> Some of the data presented was provided by the New York City Human Resources Administration.

<sup>2</sup> Combined total of hotline calls between New York City (85,375) and Rest of State (128,333) due to separate reporting systems.

<sup>3</sup> Denials reported may reflect denials at more than one program, as well as victims and their children that ultimately are able to obtain shelter at another program. Therefore, the numbers likely reflect some duplicate counting. This is due to the confidential nature of DV service provision and the limitations that confidentiality places on data collection.

Safe Horizon, Inc.	New York	81	57	73
Sanctuary for Families, Inc.	New York	141	93	112
Urban Resource Institute	New York	117	29	67

<sup>4</sup> Average length of stay is the mean of all stays in bed nights for each type of residential facility.

<sup>5</sup> New York City does not have any residential programs that fall under the category of "Domestic Violence Programs."

<sup>6</sup> Domestic Violence Programs can shelter up to 30 percent non-domestic violence victims. The numbers presented reflect only domestic violence victims sheltered and do not reflect overall occupancy or length of stay for the programs.

<sup>7</sup> There may be additional transitional programs serving victims of domestic violence not accounted for in this report. OCFS does not license transitional housing. OCFS collects data only on transitional housing programs operated by OCFS-licensed residential domestic violence providers.

## **II. Funding for Approved Domestic Violence Programs**

OCFS collects financial information from all approved residential programs annually. Financial information is also collected from non-residential programs that have associated residential programs. Due to the established time frames for the submission of cost reports, the financial information presented in the annual report is lagged by one year. As a result, the financial data contained in this annual report was reported by domestic violence providers for fiscal periods ending in 2015.

<b>Total Residential and Non-residential Program Revenues (2015)</b>			
	<b>Residential Programs</b>	<b>Non-residential Programs</b>	<b>All Programs</b>
Government Revenue	\$84,353,817	\$56,478,135	\$140,831,952
Private Revenue	\$5,755,431	\$15,572,897	\$21,328,328
<b>Total</b>	<b>\$90,109,248</b>	<b>\$72,051,032</b>	<b>\$162,160,280</b>

## **III. Domestic Violence Program Events**

### **Programs Opened/Closed in 2016**

- Grace Smith House Inc. closed its Northeast Domestic Violence Shelter on September 1, 2016, due to underutilization. The isolated rural location of the shelter made it very difficult for many victims of domestic violence to access its services. Grace Smith House Inc. is seeking to expand its remaining shelter, which is in a more easily accessible location.

### **Programs in Danger of Closing in 2016**

- Community Action Commission to Help the Economy (CACHE) reported experiencing significant fiscal issues.

## **IV. Additional Initiatives**

OCFS provided technical assistance through a variety of sources to all residential and non-residential domestic violence programs. Through its home and regional offices, OCFS provided on-site monitoring and technical assistance with program and policy development, as well as in licensing, financial and contract issues. OCFS often collaborates with staff from the Office of Temporary and Disability assistance (OTDA) to assist with reimbursement and LDSS responsibility issues. OCFS contracts with Office for the Prevention of Domestic Violence (OPDV) to provide training and technical assistance to LDSSs and providers. The technical assistance has improved the quality of services, the documentation of program impacts, and the coordination among stakeholders.
