

## **Trends in Relative Foster Care Settings 2012-2016:**

### **Table 1: Admissions to Foster Care by Initial Placement Setting 2012-2016**

This provides the number of children admitted to foster care in homebased and non-homebased settings. These numbers are based on Monitoring and Analysis Profiles (MAPs) data.

**Non Home-Based Care:** Institutions, group homes, group residences, agency-operated boarding homes and other settings. Other settings include a small number of children in supervised independent living programs and residential treatment facilities. For example, the total number in this category in 2016 was 147.

**Home Based Care:** Foster boarding homes, foster adoptive homes, and approved relative homes.

### **Table 2: Admissions to Non Congregate Care by Relative Status**

**Relative Foster Care** is a subcategory of home based setting and includes children living in an approved relative foster home or a certified foster boarding home run by a relative. OCFS's ability to track this data has improved over time. Prior to 2015, only approved relative foster homes were specifically denoted in administrative databases. In 2015, an additional flag was added to CONNECTIONS to capture children initially placed in other home based care settings with a relative.

### **Table 3: Number of Children Admitted to Home Based Care, Relative Foster Care and Kin Placement**

**The Kinship Guardianship Assistance Program (KinGAP)** is a state and federally supported program for children exiting kinship foster care. The program provides financial assistance to related caregivers who assume legal guardianship of children who were formerly their foster children. Under this program, most children receive medical coverage.

**Kin Placement** represents children who were placed directly with a relative rather than into foster care based on data from CONNECTIONS. These are children who were placed directly with a relative or other suitable adult under Article 10 of the Family Court Act and are those that are commonly referred to as non-LDSS custody placements.

### **Table 4: Trends in Number of Children Discharged from Approved Relative Foster Homes and Number Discharged to KinGap from 2012-2016**

**# Discharged from Approved Relative Foster Homes:** In order to qualify for KinGAP a child must be exiting relative foster care. The numbers discharged from approved relative foster home reflects only a portion of the potential KinGAP universe. KinGAP is also available for foster children exiting a certified foster home placement with a relative.

**Number of Children Discharged from Relative Foster Care to KinGap:** This is the actual number children that were discharged to KinGAP during the particular year.

If you have questions on these data, please contact [Vajeera.Dorabawila@ocfs.ny.gov](mailto:Vajeera.Dorabawila@ocfs.ny.gov).

<sup>1</sup>Home Based Care include: Foster Boarding Homes, Foster Adoptive Homes, and Approved Relative Homes

<sup>2</sup>Relative Foster Care is a subcategory of home based and includes children living in an approved relative foster home or a foster boarding home run by a relative. OCFS' ability to track this data has improved over time. Prior to 2015, only approved relative foster homes were specifically denoted in administrative databases. In 2015, an additional flag was added to capture children initially placed in other home based care settings with a relative. Based on 2015 Monitoring and Analysis Files and Connections for the relative placement indicator.

Prepared by OCFS Bureau of Research, Evaluation and Performance Analytics (4/3/17).
