Quarterly Detention Report - Nassau

Notes

1 Counts represent unique detention events. Detention events are defined as continuous stays that do not involve a change in adjudication type (i.e., JO, JD, PINS) or home county. A youth can have multiple detention events during the period.

2 Average Daily Service Population (ADSP) is the sum of each youth's days in detention during the period (including day of admission and day of release), divided by the number of days during the period.

3 Average Length of Stay (ALOS) in days is calculated for released youth only. LOS is determined by subtracting a youth's admission date from his/her release date. In the rare case that a youth is admitted and released on the same date, his/her LOS is set to one.

4 Median Length of Stay (MLOS) in days is calculated for released youth only. Outliers (i.e., youth with unusually long lengths of stay) have less of an impact on MLOS than ALOS.

5 Length of stay less than or equal to 3 days is calculated for released youth only. Percentages shown are out of the number released for each category (e.g., male, female).

6 Prior to 2014, race/ethnicity was classified by capturing one race category per youth. To facilitate cross-year comparison, youth with multiple race selections are recategorized into single categories by giving Hispanic and Black designations priority over White.

7 This category includes Violent Felony Offenses (VFO) and VFO-like class A-1 offenses not in VFO legislation.

8 The Quarterly Detention Report (QDR) is run by home county. This category shows the number and proportion of youth for whom home and court county differ.

9 Mixed youth are youth who spent time in both Secure and Non-Secure facilities during a continuous stay that did not involve a change in adjudication type (i.e., JO, JD, PINS) or home county. Please note that a youth in detention at the end of the period with a Non-Secure or Secure stay type could switch to the Mixed stay type in subsequent periods if he/she is transferred from a Non-Secure to Secure facility or vice versa without a change in adjudication type or home county.

*For a more comprehensive list of data definitions and technical notes see the OCFS QDR Data Definitions & Technical Notes document.
