The differential payment rate categories for legally exempt providers for homelessness and for nationally accredited programs are optional. If the district chooses not to set differential payment rates, the district must enter zero. - Applicant has a history of denial, case closing or overpayment, resulting from an investigation
- Applicant is self-employed, but cannot provide adequate business records
- Primary tenant with no utility bills in their name
- Information on application is inconsistent with prior case information
- Applicant unsure of their own address

This referral is a front-end detection referral and it is made when risk factors such as a history of denial, case closing or overpayment resulting from an investigation; a P.O. Box is supplied as a mailing address without a reasonable explanation (however the applicant will be given the opportunity to explain their need for the P.O. II. Program Integrity

1. Each social services district must submit a description of the sampling methodology used to determine which providers of child care assistance services will be reviewed for the purpose of comparing the child care provider's attendance forms for children receiving CCAP services with any Child and Adult Care Food Program (CACFP) inspection forms to verify that child care was actually provided on the days listed on the attendance forms.

Describe the sampling methodology and review process:

Child care subsidy attendance forms will be compared with the adult and child care food program (CACFP) inspection forms for all providers that participate in CACFP to verify that child care was actually provided on the days listed on the attendance forms. Brightside Up, Inc. will secure the inspection form records from providers that participate in CACFP and meet with the supervisor of the daycare unit to compare them with the subsidy attendance records. This will be done quarterly with all providers that participate in CACFP and

Rensselaer County: Child Care Assistance Program (CCAP)

care for subsidized children.

2. Each social services district must establish a random sampling methodology used to determine which cases will require verification of a recipient's continued need for child care, including, as applicable, verification of participation in employment, education, or other required activities.

Please note: The district cannot use criteria such as race, color, sex, gender identity, sexual orientation, disability, religious creed, political belief or any other factors prohibited by law as indicators in drawing the sample.

Describe the sampling methodology and review process:

Rensselaer County uses information received from our Fraud Department to determine if further employment verification is needed. The Department also looks at applicants with risk factors such as an unstable employment history, inconsistent household composition, returned mail, inconsistent absent parent information, caregivers that are unable to be contacted at work, questionable documents, a history of fraud, a history of over-payments, or any other inconsistencies that would warrant verification.

In situations where any of the above risk factors are present, employers may be contacted, a fraud referral could be made, collateral contacts may be made, or a face to face meeting could be arranged.

The process of recognizing "red flags" and initiating further investigations have resulted in quality control beyond the normal eligibility determination.

III. Inspections of Child Care Provider Records and Premises

The district may choose to make announced or unannounced inspections of the records and premises of any provider / program that provides child care to children in receipt of child care assistance to determine if the child care provider is in compliance with applicable laws and regulations and any additional requirements imposed on such a provider by the social services district per 18 NYCRR §415.4.

The district has the right to make inspections of any child care provider prior to children in receipt of child care assistance receiving care, including care in a home, to determine if the child care provider is in compliance with applicable laws and regulations and any additional requirements imposed on such a provider by the district.

The district must report violations of regulations as follows:

- Violations by a licensed or registered child care provider must be reported to the applicable Office of Children and Families (OCFS) Regional Office.
- Violations or areas of non-compliance by an enrolled or enrolling legally exempt child care provider must be reported to the applicable Enrollment Agency.

Does the district choose to make inspections of such child care providers / programs?
