Dear Readers:

As we look forward to 2017, the New York State Office of Children and Family Services' Commission for the Blind acknowledges its gratitude to the success and support from our valued State Rehabilitation Council.

During Federal Fiscal Year 2016, NYSCB's administration of Vocational Rehabilitation yielded a nearly 3 percent increase in successful outcomes and continuing satisfaction of our key federal Standards and Indicators. Support from our Council was critical to our success in 2016.

Even as we continued to confront an unpredictable fiscal climate this past year, the Council met regularly to advise NYSCB and its thoughtful recommendations inspired us to maintain and approve upon our outstanding service delivery system.

We thank the Council for its steadfast support of NYSCB and we look forward to an even more productive 2017 as we continue to fulfill the obligations of the Workforce Innovation and Opportunity Act.

The SRC meets once each calendar quarter.

The Council is comprised of members representing consumers who are blind, consumers with multiple disabilities, parents, disability advocacy groups (National Federation of the Blind and American Council of the Blind), the Client Assistance Program (CAP), community rehabilitation program service providers, New York State Educational Department, business, industry and labor, the New York State Workforce Investment Board, Section 121 Native American Rehabilitation Programs, and New York State Independent Living. Planned Goals and Activities for FY2016/2017:
The SRC is scheduled to meet quarterly in FY 2017. In addition, the Executive Committee, the Assistive Technology Task Force, and each of the four standing committees will meet via conference call throughout the year.

The standing committees are: Membership; Quality Assurance; Policy, Procedure and Planning; Workforce Development and Transition. Chair Drum will appoint the Chairs and members of each committee and will give each its charge. The Assistive Technology Task Force, likewise, will continue its work.

Below are several goals the Council plans to work on during the next year through its committees and task force, in keeping with its mandated requirements.

Assistive Technology Task Force

Goal 1: Positively affect NYSCB’s internal AT service infrastructure with regard to the approval of, timely provision of, and training on AT products for those NYSCB clients seeking to obtain or maintain employment.

Goal 2: Positively affect the accessibility of information and communications technology (ICT) services and systems for the blind community as related to their obtaining and maintaining employment.

Membership Committee

Goal 3: Continue to recruit qualified, diverse candidates to fill new positions or vacancies on the State Rehabilitation Council. This will include collaboration with the Workforce Development Committee to include participation of the NYS Department of Labor.

Quality Assurance Committee

Goal 4: Review the most recent Consumer Satisfaction Survey and the most recent Needs Assessment and generate recommendations to NYSCB based on their results.

Goal 5: Assist in the development of a tool to evaluate the effectiveness of NYSCB’s outreach efforts to healthcare professionals and pre-service students.

Policy, Procedures, and Planning Committee

Goal 6: Closely collaborate with NYSCB, working with NYSED to include explicit language in all future state contracts pertaining to full accessibility of high stakes testing and instructional materials.

Goal 7: Work with NYSCB to make intake materials available on NLS cartridges. Explore the possibility of including voluntary registration for NLS as part of the intake process for prospective consumers who may not already be NLS patrons.

Goal 8: Work with NYSCB to ensure proper and full implementation of policies regarding dissemination of materials in alternative/accessible formats.
Workforce Development Committee

**Goal 9:** In conjunction with the Membership Committee, recruit additional SRC membership from the following constituencies: NYS Department of Labor, State Workforce Investment Board, and business, industry and labor.

**Goal 10:** Develop and conduct a survey to investigate the current level of utilization of the NYSDOL Workforce Career Centers by blind and visually impaired jobseekers.

Transition Committee

**Goal 11:** To conduct a survey to gather data to assess the quality of the coordinated set of activities and student participation in transition planning.

Other Planned Activities in FY 2017

The SRC will participate with NYSCB in developing the State Plan for Federal Fiscal Year 2018. The participation will include information gathering from its members’ respective constituencies. The 2018 State Plan will incorporate information obtained at the public forums held at the ACB and NFB state conventions as well as any other public hearings held by NYSCB.

The SRC will re-examine its current by-laws to determine whether any amendments or restructuring may be needed.

The SRC will continue the orientation and new member training in the future at one of the quarterly meetings based on the timeliness of appointment each Fiscal Year hereafter.

The SRC and its committees will collaborate with the ACCES-VR SRC to ensure the implementation of the vocational rehabilitation services goals of the joint State Plan.

In addition, the SRC will work to strengthen connections with other SRC’s outside New York State, as well as with the National Coalition of SRC’s and the National Council of State Agencies for the Blind.

Finally, the SRC will work with NYSCB to bring about implementation of the various recommendations made by the committees and Council as a whole. Many of the recommendations of the committees overlap with each other as well as with those of the NYSCB Executive Board. Communication and brainstorming among the members of all of these bodies will further refine their recommendations, and thereby result in an across-the-board improvement in services and opportunities for New Yorkers who are blind.
