Commissioner

October 17, 2022

Dear Chief Executive Officer,

Thank you for submitting Cattaraugus County's Supervision and Treatment Services for Juveniles Program (STSJP) plan for Program Year (PY) 2022-2023. Your entire STSJP plan, including any amounts listed for PY 2022-2023 STSJP-RTA, has been **approved**.

The County is eligible to receive 62% State reimbursement for STSJP expenditures up to the capped STSJP allocation amount. Your municipality will continue to receive 49% State reimbursement for eligible detention services expenditures up to the capped allocation amount. If your municipality shifts a portion of its detention allocation into its STSJP plan, your municipality will receive 62% State reimbursement, up to the capped allocation, if such shifted funds are spent on STSJP eligible expenditures. A municipality may make a detention allocation shift at the time of the STSJP plan submission or up until June 30, 2023, unless otherwise approved by the Office of Children and Family Services.

If the County plans to shift its detention allocation for STSJP eligible expenses, please submit a request on official letterhead to Lynn Tubbs and email it to stsjp@ocfs.ny.gov outlining

1. the amount that will be shifted and
2. the type of programming or services the re-purposed detention funds will be used for under STSJP

Once the shift is approved, an amended STSJP plan will need to be submitted.

As a reminder, to access RTA reimbursement that a municipality may be eligible for, the expenditures must be specifically included in a locality's comprehensive RTA plan.

All STSJP claims, inclusive of STSJP-RTA, must be submitted electronically via the Juvenile Detention Automated System (JDAS) for the service period of October 1, 2022 to September 30, 2023. Questions on all aspects of the claiming process should be directed to the STSJP mailbox at stsjp@ocfs.ny.gov with the subject line: "STSJP Claiming Questions".

If you have any STSJP plan questions, please also email us at stsjp@ocfs.ny.gov and write "STSJP Plan Questions" in the subject line or reach out to Geneva Hilliard at (518) 486-1819 or Lynn Tubbs at (518) 473-9116.

Thank you for your continued partnership as we reform the juvenile justice practices in New York State by safely engaging youth and their families through innovative programming to reduce out of home placement and detention of youth.

Sincerely,

Nina Aledort, PhD

NOTE: Cooperative Applications submitted jointly by two or more counties

Counties submitting such applications must provide additional information under **Part I - Municipality Level Details, Section C. Cooperative Application.**

PART I – MUNICIPALITY LEVEL DETAILS

A. Municipality Level Analysis

1. (a) Identify the communities or neighborhoods (ZIP codes) from which the highest number of Youthful Offenders (YO), Adolescent Offenders (AO), Juvenile Offenders (JO), Juvenile Delinquents (JD), and Persons in Need of Supervision (PINS) enter the youth justice system, are remanded to detention, and/or are residentially placed; and (b) Discuss what factors may be contributing to these high numbers:

The communities with the zip codes of 14760 (Olean), 14779 (Salamanca) and 14042 (Pioneer/Delevan) have the most youth entering the youth justice system for services. These communities have centralized school districts which encompass many small, rural neighborhoods.

The three school districts mentioned above are the three largest school districts within the county so it is logical the amount of referrals for MST would come from the largest populated areas from within the county.
2. Resources available at the following link can help you answer these questions:
<https://www.ocfs.ny.gov/programs/youth/stsjp/planning.php>

(a) In the charts below, please provide the municipality's distributions by race, ethnicity, and sex assigned at birth for the general population of youth younger than 18, and for the detained and placed population of youth younger than 18. (**Note:** Every July, the National Center for Health Statistics releases population data for the previous year. The population data you are being asked to report on was the latest available at the time OCFS updated the contents of this plan. For the Placement Admissions data, please add together county data from Tables 1b, 6b, and 7b of the Annual Out of Home Placement Admissions Data Packet.)

Race/Ethnicity	2020 General Population <18 years		2021 Detention Admissions <18 years		2021 Placement Admissions <18 years	
	#	%	#	%	#	%
Black/African American	605	4	3	25	1	12
White	14385	86	7	58	7	88
Native American/Alaskan	866	5	0	0		
Asian/Pacific Islander	182	1	0	0		
Hispanic	710	4	1	8	0	0

Sex Assigned at Birth	2020 General Population <18 years		2021 Detention Admissions <18 years		2021 Placement Admissions <18 years	
	#	%	#	%	#	%
Male	8579	51	9	75	7	88
Female	8169	49	3	25	1	12

b) If you identified any disparities when comparing youth representation in the general population and their representation in detention and placement, explain how this plan will address those disparities. If you did not identify any disparities, please note such.

2021 JDAS data reflects two Black/African American youth with admissions into detention. One of the identified youth had multiple admissions into detention in 2021 which may account for the numbers reflecting a total of three Black/African American youth. We do not identify a disparity. We are now ensuring the use of the family resource sheet at FOCUS Intake process to enlist possible resources for youth to assist in deferring a detention admission. We are discussing a potential plan on how to apply some of the blind removal processes to detention process.

B. Local Collaboration

1. Legislation requires local collaboration. Please describe your municipality’s activities in developing this year’s STSJP plan in collaboration with local agencies responsible for probation, law enforcement, detention, diversion, social services, courts, service providers, schools, and youth development programs:

This plan was developed via consistent collaboration with the departments of probation and youth bureau, in addition to voluntary agency service providers and community schools. On a bi-weekly basis (barring holidays, illness, and vacations) a meeting is held with all stakeholders present, including but not limited to local agencies responsible for probation, detention, diversion, social services, service providers, and youth development programs. Of note, probation services for youth are embedded in the school districts identified in question #1, and input from school personnel is obtained as part of the day to day/face to face interactions (both formal in terms of deliberate and planned meetings/reviews and informal in terms of impromptu problem solving sessions as needed) between probation and school staff. Also embedded within the school milieu are law enforcement officers who maintain the same type of contact with the aforementioned regularity. The court system is not specifically represented; however, the attorney who represents the probation department in all juvenile justice endeavors is present.

2. How is your municipality gathering participant youth and family feedback as part of your STSJP plan development?
 MST gathers feedback once a month with active families participating in the program. MST uses a therapist adherence measure to ask families a series of questions to assess how their assigned therapist is meeting the needs of the family and to measure against the analytical process used in treatment planning. MST also gathers follow up feedback from families that have closed at the 6 month marker and at the 1 year marker. Questions asked in this

survey include but are not limited to the child's residential status, participation in school and/or employment, any violations of or involvement with law enforcement, and involvement in pro-social activities. MST also gains further information from family if they report negative outcomes. This information is then incorporated into the monthly supervision provided with DSS and MST coordinator. Themes are identified, discussed at monthly meetings and protocols/practice are requested to be shifted as needed.

Describe how the plan incorporates that feedback; if you have not yet received youth and family feedback, please describe the barriers to implementation and the municipality's solutions to develop such feedback mechanisms during PY 2022-2023.

MST uses this feedback to increase therapist efficacy in utilization of the evidence based model in addition to increasing family engagement and sustainability of identified change. MST uses feedback from families whose cases are closed to assess any roadblocks to service provision including but not limited to engagement, feasibility of plan, and environmental stressors. The feedback is discussed during quarterly meetings held with MST throughout the year. If an area of growth is identified a plan to incorporate identified changes is completed and tracked to assess change.

In the 2021-2022 year incorporation of feedback was minimal due to staffing shortages and few youth served. For the 2022-2023 planning year our focus to incorporate the MST feedback is on how to engage earlier with the family and youth. For this years plan the feedback will be incorporated into the quarterly discussions between programs. One identified area of focus this year was youth with negative peer attention. Therapist was consulted and a plan created to address this area of parental concern.

3. Was community feedback in high-need ZIP codes (A.1.) sought as part of the STSJP plan development?

Yes. (If yes, please describe how the plan incorporates that feedback);

No. (If no, please describe the barriers to implementation and the municipality's solutions to develop such feedback mechanism during PY 2022-2023).

Representatives from service providers who work within the district are included in the planning process, which includes but is not limited to parents/extended family/community members. In the context of the group collaboration milieu, MST is part of the collaborative team, and offers feedback at each meeting, both in terms of new cases/referrals, existing cases which are reviewed at the 1 and 3 month service provision marker, and as part of an informal algorithm utilizing past service provision to influence future service delivery.

C. Cooperative Application *(Complete this section only if this is a joint application.)*

1. Describe the provisions for the proportionate cost to be borne by each county.

2. Describe how personnel will be compensated across and between counties in the cooperative:

3. Will a single fiscal officer be the custodian of the funds made available for STSJP?

Yes. (If Yes, please provide their contact details below.)

No. *(If No, skip to Q.4.)*

4. Provide the name and email address of the person who will be responsible for collecting and submitting STSJP data for joint-funded programs, as well as the names and email addresses of the fiscal officers responsible for joint-funded programs:

 Yes No

2. Please check all applicable boxes below to identify the service types that will be utilized for this program in PY 2022-2023:

4. Describe the program, including how it is family focused. If you answered "Yes" to Q.1. Family Support Services program, be sure to demonstrate how your program meets each requirement of the legislation. Also, please explain how each of the service types selected in Q.2. will address the unique needs of youth at that system point, and how those services will aid in the reduction of youth detained and residentially or otherwise placed. If you selected Indirect Services, please list them. (Please refer to the *STSJP Annual Plan Development Guide* for additional guidance.)

Multisystemic Therapy is an evidenced based service designed to divert at risk youth with severe behaviors at home, school, and/or community from out of home placements or from becoming heavily involved within the justice system. MST gains their referrals from FOCUS group where youth are assessed for services from juvenile probation and referred out based on their needs. MST strives to promote behavior change within the youth's natural environment, using the strengths of each system (e.g., family, school, peers, etc.) to facilitate change. By providing the delivery of services in the natural ecology, and the rigorous, monitored implementation of MST combine to produce the positive change within the family environment. MST is utilized as an EI program with referrals provided by Probation (JD Intake/PINS Diversion) Intake to prevent further involvement in the youth justice system.

5. Is the program capable of being replicated across multiple locations? Yes No

C. Program 1 Performance History (Refer to your municipality's STSJP data files.)

1. What, if any, funding did this program receive in PY 2021-2022? If the program was approved in PY 2021-2022 but was not implemented or is anticipated to serve no youth, please choose None.
 None (If none, skip to section D.) STSJP STSJP-RTA

2. Please use the table to record **how many youth (#) were served** by the program between 10/1/2021 and 3/31/2022. Enter zero (0) if not applicable.

STSJP	0	3	0	0	0	3
STSJP-RTA	0	0	0	0	0	0
Total	0	3	0	0	0	3

3. Based on the program's record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2022? Please explain:
 I anticipate MST will begin serving more youth due to the team hiring more therapists.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2021 and 3/31/2022. Enter zero (0) if not applicable.

Total	0	188	0	0	0

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.
 The average length of service for MST families is 90-150 days.

6. Will this program's outcomes meet the PY 2021-2022 projected goals by 9/30/2022?
 Yes. (If Yes, skip to section D.) Partially No

7. (a) What outcomes are on track to meet the goals set for PY 2021-2022?
 (b) How will they be met?
 100% of families have completed treatment, youth are still living at home, are currently enrolled in school, and no new arrests at this time.

8. (a) What outcomes are not on track to meet the goals set for PY 2021-2022?
 (b) Please describe any contributing barriers.
 A projected outcome was to have more families served, and the main barrier to the achievement of this goal was an understaffing of the agency who provides the services, specifically, Catholic Charities.

9. What changes have been made to overcome the barriers identified in Q.8. so that the program can achieve its desired goals for PY 2022-2023?
 MST has been able to canvas local colleges and universities for prospective employees, minimally increase the starting salary for therapists, and hire therapists who are currently in the process of training.
