KATHY HOCHUL  
Governor

SUZANNE MILES-GUSTAVE, ESQ.  
Acting Commissioner

January 31, 2024

Dear Chief Executive Officer,

Thank you for submitting Erie County's Supervision and Treatment Services for Juveniles Program (STSJP) plan for Program Year (PY) 2023-2024. Your entire STSJP plan, including any amounts listed for PY 2023-2024 STSJP-RTA, has been **approved**.

The County is eligible to receive 62% State reimbursement for STSJP expenditures up to the capped STSJP allocation amount. Your municipality will continue to receive 49% State reimbursement for eligible detention services expenditures up to the capped allocation amount. If your municipality shifts a portion of its detention allocation into its STSJP plan, your municipality will receive 62% State reimbursement, up to the capped allocation, if such shifted funds are spent on STSJP eligible expenditures. A municipality may make a detention allocation shift at the time of the STSJP plan submission or up until June 30, 2024, unless otherwise approved by the Office of Children and Family Services.

If the County plans to shift its detention allocation for STSJP eligible expenses, please submit a request on official letterhead to Lynn Tubbs and email it to [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) outlining

1. the amount that will be shifted and
2. the type of programming or services the re-purposed detention funds will be used for under STSJP

Once the shift is approved, an amended STSJP plan will need to be submitted.

As a reminder, to access RTA reimbursement that a municipality may be eligible for, the expenditures must be specifically included in a locality's comprehensive RTA plan.

All STSJP claims, inclusive of STSJP-RTA, must be submitted electronically via the Juvenile Detention Automated System (JDAS) for the service period of October 1, 2023, to September 30, 2024. Questions on all aspects of the claiming process should be directed to the STSJP mailbox at [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) with the subject line: "STSJP Claiming Questions".

If you have any STSJP plan questions, please also email us at [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) and write "STSJP Plan Questions" in the subject line or reach out to Lynn Tubbs at (518) 473-9116.

Thank you for your continued partnership as we reform the juvenile justice practices in New York State by safely engaging youth and their families through innovative programming to reduce out of home placement and detention of youth.

Sincerely,

PART I – MUNICIPALITY LEVEL DETAILS
<b>A. Municipality Level Analysis</b>
<ol style="list-style-type: none"> <li> <ol style="list-style-type: none"> <li>Identify the communities or neighborhoods (ZIP codes) from which the highest number of Youthful Offenders (YO), Adolescent Offenders (AO), Juvenile Offenders (JO), Juvenile Delinquents (JD), and Persons in Need of Supervision (PINS) enter the youth justice system, are remanded to detention, and/or are residentially placed; and</li> <li>Discuss what factors may be contributing to these high numbers:                             <ol style="list-style-type: none"> <li>During 2022 and 2023, the majority of youth admitted into secure and specialized secure youth detention resided in two zip codes which were 14215 and 14211. In addition to these zip codes, STSJP programs will work with youth in zip codes 14201, 14204, 14207, 14208, 14212, 14213, 14150, 14075, 14225, 14224, 14221, 14220 and 14216. Youth in these zip codes are either in the juvenile justice system or at risk of entering the juvenile justice system</li> <li>The City of Buffalo is a highly segregated city. The East Side of the City, where the two predominant zip codes are located, was "red lined" several decades ago, an act which has led to historic disinvestment of public and private funds for community development and betterment activities. This disinvestment has extended to area schools, as well. Poverty is high in these zip codes and services are sparse in comparison to the central and western parts of the City. Resident resources such as grocery stores, banks, pharmacies and other critical services are harder to locate than in other parts of the City. Opportunities for youth employment and positive youth development, particularly for teenagers, are sparse. Environmental degradation and physical deterioration of homes and lots has contributed to blight. Further, a history of disproportionate arrest of African Americans by City police leads to a disproportionate increase of African American representation in the Juvenile Justice system. All of these factors combined contribute to higher representation of juvenile crime in the listed zip codes.</li> </ol> </li> </ol> </li> <li>Resources available at the following link can help you answer these questions: <a href="https://www.ocfs.ny.gov/programs/youth/stsjp/planning.php">https://www.ocfs.ny.gov/programs/youth/stsjp/planning.php</a></li> </ol>

(a) In the charts below, please provide the municipality's distributions by race, ethnicity, and sex assigned at birth for the general population of youth younger than 18, and for the detained and placed population of youth. For the placement admissions data, please add together county data from Tables 1b-Total OCFS Facility Admissions by Sex, Race/Ethnicity and Age, 6b-JD Foster Care Admissions by Sex, Race/Ethnicity and Age and 7b-PINS Post-Dispositional Foster Care Admissions by Sex, Race/Ethnicity and Age from [Annual Out of Home Placement Admissions Data Packet](#)

b) If you identified any disparities when comparing youth representation in the general population and their representation in detention and placement, explain how this plan will address those disparities. If you did not identify any disparities, please note such.

The plan will address disparities by focusing enhanced and intensive diversion services in the zip codes where the disparities in juvenile justice system involvement are occurring.

**B. Local Collaboration**

1. Legislation requires local collaboration. Please describe your municipality's activities in developing this year's STSJP plan in collaboration with local agencies responsible for probation, law enforcement, detention, diversion, social services, courts, service providers, schools, and youth development programs:

The Erie County Juvenile Justice system is highly collaborative. The Erie County Juvenile Justice Collaborative consists of representatives from probation, mental health, social services, legal services, law enforcement and other members of the system of care. This group meets monthly to discuss trends in juvenile justice activities and discuss possible collaborative solutions, including pilot initiatives. The Juvenile Detention Services Team is also a collaborative initiative between social services, probation, and mental health which puts in place services and programs for youth and families at the early entry point of the juvenile justice system as well as for youth discharged from detention. This group meets weekly.

2. Is your municipality gathering participant youth and family feedback as part of your STSJP plan development?

- Yes. (If yes, please describe how the plan incorporates that feedback at the system level, e.g., funding and service continuum decisions.)
- No. (If no, please describe the barriers to implementation and the municipality's solutions to develop such feedback mechanism during PY 2023-2024.)

No formal feedback mechanism has been implemented at this time. Plans to implement a survey tool to practioners, agencies, participants, family and staff are being planned for the upcoming year. Individual service providers implement feedback tools of their own design. Erie County does use feedback from youth and families within the STSJP programs to inform our plan development The Youth Services Division has started the process for a formal comprehensive needs assessment by the end of 2023. The Youth Services Division has started a process for a comprehensive needs assessment of Erie County youth in 2023, which will include the needs of high-risk youth and youth in the Juvenile Justice system.

3. Was community feedback in low opportunity ZIP codes sought as part of the STSJP plan development?

Yes. (If yes, please describe how the plan incorporates that feedback at the system level, e.g., funding and service continuum decisions.)

No. (If no, please describe the barriers to implementation and the municipality's solutions to develop such feedback mechanism during PY 2023-2024.)

Erie County does use feedback from local stakeholders during meetings where community needs are discussed. However, the Youth Services Division does not have the capacity to implement a comprehensive needs assessment for Erie Youth. Appearance ticket and arrest data was utilized among the scoring team when agencies were selected for STSJP funding but a formal needs assessment will be completed by the end of 2023 when the Youth Services Division has fully collaborated with a professional service to complete this needs assessment

**C. Cooperative Application (Complete this section only if this is a joint application.)**

1. Describe the provisions for the proportionate cost to be borne by each county:

2. Describe how personnel will be compensated across and between counties in the cooperative:

3. Will a single fiscal officer be the custodian of the funds made available for STSJP?

Yes. (If yes, please provide their contact details below.)

No. (If no, skip to Q.4.)

Officer's Name:		Title:
Phone: ( )	Ext:	Email:
4. Provide the name and email address of the person who will be responsible for collecting and submitting STSJP data for jointly funded programs, as well as the names and email addresses of the fiscal officers responsible for jointly funded programs:

**B. Program 1 Description and Target Population**

1. A Family Support Services (FSS) program may ONLY serve youth at risk of becoming, alleged to be, or adjudicated as PINS; or children under 12 years of age who do not meet the definition of a JD and whose behavior, but for their age, would bring them within the jurisdiction of the family court under Article 3 of the Family Court Act (FCA). This program meets the legal definition of an FSS program (Social Services Law Section 458-m) and will operate in this capacity for PY 2023-2024.

Yes  No

2. Please check all applicable boxes below to identify the service types that will be utilized for this program in PY 2023-2024:

STSJP	STSJP-RTA	
<input type="checkbox"/>	<input type="checkbox"/>	Prevention (P)
<input type="checkbox"/>	<input type="checkbox"/>	Early Intervention (EI)

<input type="checkbox"/>	<input type="checkbox"/>	Reentry/Aftercare (R/A)
<input type="checkbox"/>	<input type="checkbox"/>	Indirect Services

**\*Note:** If you indicated this program will operate as an FSS, it cannot provide STSJP-RTA services under this program. Additionally, children under 12 years of age who do not meet the definition of either a PINS or a JD and whose behavior, but for their age, would bring them within the jurisdiction of the family court under Article 3 of the FCA, may only be served through the Prevention and Early Intervention service domains.

3. Please list the ZIP codes this program will target:

14201;14204;14207;14208;14211;14212;14213;14215;14150;14075

4. Describe the program, including how it is family focused. If you answered "Yes" to Q.1. Family Support Services program, be sure to demonstrate how your program meets each requirement of the legislation. Also, please explain how each of the service types selected in Q.2. will address the unique needs of youth at that system point, and how those services will aid in the reduction of youth detained and residentially or otherwise placed. If you selected Indirect Services, please list them. (Please refer to the *STSJP Annual Plan Development Guide* for additional guidance.)

The High Risk Supervision (HRS) program involves the supervision of RTA and non-RTA youth and requires intensive case management which includes numerous contacts with youth in the community, the family, Family Court, collateral / ancillary services as well as other community organizations which engage the youth and family. Some contacts require after hours home visits and site visits (planned and unplanned / unannounced); crisis response, service provider and family team meetings. This high-intensity supervision is offered to post dispositional youth and the goal of these intensive supports is to prevent further penetration in the Juvenile Justice system while keeping youth at home and in their community. Youth are referred by a Judge or the Department of Probation.

5. Is the program capable of being replicated across multiple locations?  Yes  No

**C. Program 1 Performance History (Refer to your municipality's STSJP data files.)**

1. What, if any, funding did this program receive in PY 2022-2023? If the program was approved in PY 2022-2023 but was not implemented or is anticipated to serve no youth, please choose None.

None (If none, skip to section D.)  STSJP  STSJP-RTA

2. Please use the table to record **how many youth (#) were served** by the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

Approved Funding	Program Type					Total
	P	EI	ATD/ATPDP	ATP	R/A	
STSJP				5		5
STSJP-RTA				5		5
Total				10		10

3. Based on the program’s record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2023? Please explain:

It is projected for this program to serve more youth in PY23-24 due to an increase in appearance tickets and the fact that court dockets are returning to normal levels of activity, and due to an increase in community-based diversion services for RTA youth.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

Approved Funding	Program Type				
	P	EI	ATD/ATPDP	ATP	R/A
STSJP				240	
STSJP-RTA				330	

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.

Youth are typically on probation for one year. The average length of service for the STSJP ATP Youth who EXITED the program during the period was about 8 months. The average length of service for ATP service types compared to length of stay for youth who were in residential placements during the same period is at least 33% less. The average length of stay for youth in residential placements is about 1 year. The Judge previously was sending youth for 6 months but it was determined that a longer period of time was needed in most circumstances.

6. Will this program’s outcomes meet the PY 2022-2023 projected goals by 9/30/2023?

1. What, if any, funding did this program receive in PY 2022-2023? If the program was approved in PY 2022-2023 but was not implemented or is anticipated to serve no youth, please choose None.  
 None (If none, skip to section D.)  STSJP  STSJP-RTA

2. Please use the table to record **how many youth (#) were served** by the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

Total		2	3	17		22

3. Based on the program's record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2023? Please explain:  
 It is projected that this program will service more youth in PY22-23 due to the increase in referrals from the courts, increase in court activity, increase in arrests and appearance tickets, and increase in diversion services for RTA youth

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.  
 Due to the complexity and intense needs of cases and long periods between court appearances, LOS is what would be expected for these types of cases. The average length of stay for STSJP ATD/ATPDP (8 months) and ATP (5 months) compared to average length of stay for youth in residential placements (approximately 1 year) is between 33% - 58% less.

 New Directions intends to use an evidence supported model called “Transition to Independence Program” (TIP Model®). TIP is individually tailored, working 1-on-1 with young people. The Transition Facilitator helps a young person to see that for some topics or goals it might be helpful to involve a parent, or supportive other. The TIP Model® is designed to assist youth and young adults achieve greater self-sufficiency and independence. However, the concept of “interdependence” is central to working effectively with young people. This concept nests the focus of interdependent functioning (e.g., maintaining a job, managing money, eating well and keeping fit) within the framework of young people learning that there is a healthy, reciprocal role of supporting others and receiving support from others (i.e., social support network for emotional, spiritual, and physical wellbeing). The TIP Model® is applicable to young persons with extensive histories of serious mental health challenges, multisystem

involvement, out-of-home placements or homelessness, high prevalence of developmental delays, involvement with the court system and/or incarceration, and co-occurring substance use/abuse problems. The TIP Model® is suitable for youth who have and are living with chronic trauma. These intensive supports are intended to assist youth to avoid further penetration into the juvenile justice system as well as, for those who have court appearances pending. The program targets engagement for youth in the JJ system postdispositionally while remaining at home and in community.

**PART III – Goals for PY 2023-2024**

Please set the municipality’s goals for its programs to achieve in PY 2023-2024. State-required outcomes have been included with space for you to identify which programs in **Part II-Program Level Details** will serve youth within each service domain. Goals are focused by service type and should reflect the percentage of youth expected to achieve the outcome described. **Note:** Outcomes are only recorded for youth once they have left the program; this may represent a subset of all the youth served during the period. Goals should reflect high, yet realistic, expectations for the programs.
