KATHY HOCHUL  
Governor

SUZANNE MILES-GUSTAVE, ESQ.  
Acting Commissioner

December 11, 2023

Dear Chief Executive Officer,

Thank you for submitting Franklin County's Supervision and Treatment Services for Juveniles Program (STSJP) plan for Program Year (PY) 2023-2024. Your entire STSJP plan, including any amounts listed for PY 2023-2024 STSJP-RTA, has been **approved**.

The County is eligible to receive 62% State reimbursement for STSJP expenditures up to the capped STSJP allocation amount. Your municipality will continue to receive 49% State reimbursement for eligible detention services expenditures up to the capped allocation amount. If your municipality shifts a portion of its detention allocation into its STSJP plan, your municipality will receive 62% State reimbursement, up to the capped allocation, if such shifted funds are spent on STSJP eligible expenditures. A municipality may make a detention allocation shift at the time of the STSJP plan submission or up until June 30, 2024, unless otherwise approved by the Office of Children and Family Services.

If the County plans to shift its detention allocation for STSJP eligible expenses, please submit a request on official letterhead to Lynn Tubbs and email it to [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) outlining

1. the amount that will be shifted and
2. the type of programming or services the re-purposed detention funds will be used for under STSJP

Once the shift is approved, an amended STSJP plan will need to be submitted.

As a reminder, to access RTA reimbursement that a municipality may be eligible for, the expenditures must be specifically included in a locality's comprehensive RTA plan.

All STSJP claims, inclusive of STSJP-RTA, must be submitted electronically via the Juvenile Detention Automated System (JDAS) for the service period of October 1, 2023, to September 30, 2024. Questions on all aspects of the claiming process should be directed to the STSJP mailbox at [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) with the subject line: "STSJP Claiming Questions".

If you have any STSJP plan questions, please also email us at [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) and write "STSJP Plan Questions" in the subject line or reach out to Lynn Tubbs at (518) 473-9116.

Thank you for your continued partnership as we reform the juvenile justice practices in New York State by safely engaging youth and their families through innovative programming to reduce out of home placement and detention of youth.

Sincerely,

Nina Aledort, PhD  
Deputy Commissioner

PART I – MUNICIPALITY LEVEL DETAILS
<p><b>A. Municipality Level Analysis</b></p>
<ol style="list-style-type: none"> <li> <ol style="list-style-type: none"> <li>Identify the communities or neighborhoods (ZIP codes) from which the highest number of Youthful Offenders (YO), Adolescent Offenders (AO), Juvenile Offenders (JO), Juvenile Delinquents (JD), and Persons in Need of Supervision (PINS) enter the youth justice system, are remanded to detention, and/or are residentially placed; and</li> <li>Discuss what factors may be contributing to these high numbers:</li> </ol> <p>The major population center of Franklin County is the county seat of Malone(12953). Malone has the largest target population of youth to be served by STSJP and RTA programs. Secondary population centers exist in Saranac Lake(12983) and Tupper Lake(12986). The highest number of YO's, AO's, JO's and JDs originate in those 3 zip codes, with a slight increase per capita from the 12986 zip code. The highest number of PINS come from the 12953 zip code and the 12986 zip code. The two Zip Codes that have the highest number of youth placed in Residential Treatment are 12953 and 12983.</p> <p>The rural, isolated character of the county contributes to a lack of economic, cultural, and social opportunities for youth from impoverished or isolated family systems, which is a contributing factor to the youth behaviors that lead to court intervention. This would be a factor in the 12986 zip code specifically, as it is one of the larger towns in the county but has very few opportunities and services for it's population. The contributing factor in the highest number of PINS in the 12953 zip code would be that it is the largest school district in the county and is located in the County Seat, which is the most populated town in the county.</p> <p>In the data year there were two Franklin County youth remanded to Detention and our out of home placements are low.</p> </li></ol>
<ol style="list-style-type: none"> <li>Resources available at the following link can help you answer these questions: <a href="https://www.ocfs.ny.gov/programs/youth/stsjp/planning.php">https://www.ocfs.ny.gov/programs/youth/stsjp/planning.php</a></li> </ol>

(a) In the charts below, please provide the municipality’s distributions by race, ethnicity, and sex assigned at birth for the general population of youth younger than 18, and for the detained and placed population of youth. For the placement admissions data, please add together county data from Tables 1b-Total OCFS Facility Admissions by Sex, Race/Ethnicity and Age, 6b-JD Foster Care Admissions by Sex, Race/Ethnicity and Age and 7b-PINS Post-Dispositional Foster Care Admissions by Sex, Race/Ethnicity and Age from [Annual Out of Home Placement Admissions Data Packet](#)

Female	4639	48	0	0	0	0

b) If you identified any disparities when comparing youth representation in the general population and their representation in detention and placement, explain how this plan will address those disparities. If you did not identify any disparities, please note such.

It has been noted that in the 2022 year, the only detention admission was a Black/African American youth. This is a noted disparity as Franklin County is a very homogenous community comprised mainly of white individuals and the Black/African American population is very low, comprising just 1% of the population. However, it should be noted that this youth was remanded by a family court in the Albany area where the youth was placed in a residential treatment center and there is a higher population of Black/African American youth as oppose to the local family court issuing the remand.

It should also be noted that 100% of all youth placed in 2022 were male.

The collaborative nature of this plan between the LDSS and the community stakeholders will address these disparities as there will also be discussion whether or not a youth has been identified because of race, gender, etc. If disparities are noted, the plan will address that issue at the beginning of the process. Additionally, with the stakeholders involved, services will be able to be provided to the youth and family that can help in advocating on behalf of the youth,

The collaborative nature of the plan also allows for there to be opportunity to provide education and conversation around disparity in the County and how to address it at all agency levels.

**B. Local Collaboration**

1. Legislation requires local collaboration. Please describe your municipality’s activities in developing this year’s STSJP plan in collaboration with local agencies responsible for probation, law enforcement, detention, diversion, social services, courts, service providers, schools, and youth development programs:

The development and evolution of the current plan has been accomplished by working in close collaboration with multiple community stakeholders. Some of that collaboration is case specific and occurs on an ad hoc basis. Other, more formal, collaboration occurs as follows:

Monthly meetings involving: Franklin County Probation, Community Connections, North Star Behavioral Health Services, St. Joseph's Chemical Dependency Services, Malone Village Police Department, Saranac Lake Village Police Department, Tupper Lake Village Police Department, New York State Police, all local school districts, BOCES, Berkshire Farms - Stepping Stones Program, Franklin County Family Treatment Court, Franklin County District Attorney's Office, Children's SPOA, Franklin County Tier II, Franklin County Systems of Care, and the Community Intervention Partnership (school/law enforcement/DSS).

These meetings occur in a variety of settings in both the northern portion of Franklin County around the Malone population center and in the southern portion of Franklin County in the Saranac Lake population center.

The diverse array of professionals involved in these meetings and the planning process enables the plan contained herein to be reflective of community consensus. The diversity in the team also provides alternate professional views of a given situation including the impact of racial, gender or sex bias as an issue and the team discusses alternate community based services for the child and family to prevent the youth from entering the system at the Diversion level.

2. Is your municipality gathering participant youth and family feedback as part of your STSJP plan development?

- Yes. (If yes, please describe how the plan incorporates that feedback at the system level, e.g., funding and service continuum decisions.)
- No. (If no, please describe the barriers to implementation and the municipality's solutions to develop such feedback mechanism during PY 2023-2024.)

Franklin County Dept of Social Services gathers information from youth and children through direct contact with the youth and families regarding their participation and success with all of our contracted services. We talk with families through our Franklin County SPOA Committee involvement and our Systems of Care.

The plan incorporates feedback when we are creating our contracts for services provision with Berkshire Farm for Stepping Stones and Community Connections for Life Skills and Employment programs. For example, we received feedback on how many days a month supports what youth are learning in Life Skills and how often during the school year a youth feels it is feasible to attend an after school Life Skills Class when they are involved in full time educational programming, working and/or participating in extra-curricular activities. We updated our contract for this service given that important feedback from participants in the program.

3. Was community feedback in low opportunity ZIP codes sought as part of the STSJP plan development?

- Yes. (If yes, please describe how the plan incorporates that feedback at the system level, e.g., funding and service continuum decisions.)
- No. (If no, please describe the barriers to implementation and the municipality's solutions to develop such feedback mechanism during PY 2023-2024.)

The County has a very close working relationship with our System of Care/CCSI. That organization, through our county municipality does many community information gathering events. Our county will continue to work with this organization to gather feedback and information specific to the population that this program serves. A survey is being drafted and will be provided to community members in the 12953 and the 12983/12986 area codes as well as a parent and youth survey, which will be provided to the children and families with whom we work to identify what is beneficial to them as well as what areas in which they need more support.

**C. Cooperative Application** *(Complete this section only if this is a joint application.)*

1. Describe the provisions for the proportionate cost to be borne by each county:

2. Describe how personnel will be compensated across and between counties in the cooperative:

3. Will a single fiscal officer be the custodian of the funds made available for STSJP? <input type="checkbox"/> Yes. (If yes, please provide their contact details below.) <input type="checkbox"/> No. (If no, skip to Q.4.)		
Officer's Name:	Title:	
Phone: ( )	Ext:	Email:
4. Provide the name and email address of the person who will be responsible for collecting and submitting STSJP data for jointly funded programs, as well as the names and email addresses of the fiscal officers responsible for jointly funded programs:

4. Describe the program, including how it is family focused. If you answered "Yes" to Q.1. Family Support Services program, be sure to demonstrate how your program meets each requirement of the legislation. Also, please explain how each of the service types selected in Q.2. will address the unique needs of youth at that system point, and how those services will aid in the reduction of youth detained and residentially or otherwise placed. If you selected Indirect Services, please list them. (Please refer to the *STSJP Annual Plan Development Guide* for additional guidance.)

The EHM System will allow youth to safely remain in their homes and/or communities. The EHM can also be used as a condition of probation in order to assist with ensuring the youth's supervision while avoiding out of area residential placements. The goal is to reduce foster care / residential placement, reduce rearrests, VOPs and recidivism. THE EHM System will be utilized in appropriate RTA cases wherein the goal is to keep an eligible youth out of any type of out of home placement(s).

5. Is the program capable of being replicated across multiple locations?  Yes  No

**C. Program 1 Performance History (Refer to your municipality's STSJP data files.)**

1. What, if any, funding did this program receive in PY 2022-2023? If the program was approved in PY 2022-2023 but was not implemented or is anticipated to serve no youth, please choose None.

None (If none, skip to section D.)  STSJP  STSJP-RTA

2. Please use the table to record **how many youth (#) were served** by the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

Approved Funding	Program Type					Total
	P	EI	ATD/ATPDP	ATP	R/A	
STSJP	0	0	0	0	0	0
STSJP-RTA	0	0	1	0	0	1
Total	0	0	1	0	0	1

3. Based on the program's record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2023? Please explain:

It is projected that the program will serve fewer youth than projected for in the PY 2022-2023 plan, as the projection was 20 youth overall and to date there has been 1 youth placed on electronic home monitoring during this program period.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

Approved Funding	Program Type				
	P	EI	ATD/ATPDP	ATP	R/A
STSJP	0	0	0	0	0
STSJP-RTA	0	0	20	0	0

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.

The average length of stay is within range of what would be expected for this service type as and ATD and or ATPDP.

6. Will this program's outcomes meet the PY 2022-2023 projected goals by 9/30/2023?

Yes. (If yes, skip to section D.)  Partially  No

7. (a) What outcomes are on track to meet the goals set for PY 2022-2023?

3. Based on the program’s record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2023? Please explain:  
 Based on the record of youth served, it is anticipated that the program will serve fewer youth than projected. The projection of the previous plan was 40 youth, with 32 under Early Intervention.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.  
 The length of service for youth receiving Early Intervention services under the program has decreased. However, this average includes a youth who was in the program for a very short period of time before transitioning to a mental health facility, which prompted his discharge from the program and would skew the average to being a slightly lower length of stay.

The youth are paid by Community Connections with hope that the support, coaching and mentoring of the youth can lead to permanent employment at or near discharge. The goal is to reduce risk factors that brought youth to the attention of DSS, reduce arrests and law enforcement referrals and successfully divert all need for Court involvement. It will also connect youth with supportive adults and help become a more respected and contributing member of their community.</p>

3. Based on the program’s record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2023? Please explain:

It is anticipated that this program will be serving less than it's projected capacity on 9/30/2023. By that date, no youth will have been served in the program. The significant incidents involved with the JD population during this reporting year led to placements at a higher level of care and placing them a significant distance from the supported work site. This presented as a barrier to the program.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

Approved Funding	Program Type				
	P	EI	ATD/ATPDP	ATP	R/A
STSJP	0	0	0	0	0
STSJP-RTA	0	0	0	0	0

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.

For those youth from years past, the average length of service in the program is 140 days. 4 to 6 months in a supported work program is appropriate as the goal is to move a youth from supported work into employment outside of the program.

6. Will this program’s outcomes meet the PY 2022-2023 projected goals by 9/30/2023?

Yes. (If yes, skip to section D.)     Partially     No

7. (a) What outcomes are on track to meet the goals set for PY 2022-2023?  
 (b) How will they be met?

8. (a) What outcomes are not on track to meet the goals set for PY 2022-2023?

(b) Please describe any contributing barriers:

The most significant barrier to this program was that the youth identified to be served often had engaged in such significant JD behavior that they were placed and due to their supervision needs in the home/community setting were often placed in a therapeutic setting or a residential setting, which were a significant distance from the supported work site (50 miles or more distance one way).

9. What changes have been made to overcome the barriers identified in Q.8. so that the program can achieve its desired goals for PY 2023-2024?

The Franklin County Department of Social Services is working collaboratively with the Franklin County Probation Department to receive referrals on JD youth during the Diversion period. Being able to access youth prior to their appearance in Family Court, FCDSS will be able to implement this program and hopefully reduce the number of youth coming into placement or if placed, reduce the need for them to be placed outside of the immediate area of program service.

**PART III – Goals for PY 2023-2024**

Please set the municipality’s goals for its programs to achieve in PY 2023-2024. State-required outcomes have been included with space for you to identify which programs in **Part II-Program Level Details** will serve youth within each service domain. Goals are focused by service type and should reflect the percentage of youth expected to achieve the outcome described. **Note:** Outcomes are only recorded for youth once they have left the program; this may represent a subset of all the youth served during the period. Goals should reflect high, yet realistic, expectations for the programs.
