**SECTION TWO – Overall analysis of communities**

Discuss and identify the neighborhoods or communities by zip codes or areas from which the highest number of youth offenders (YO), adolescent offenders (AO), and persons in need of supervision (PINS) enter the juvenile justice system and the factors that may be contributing to this. **(500 words or less)**

As Otsego County is a rural county, it is difficult to select one or two zip codes that would represent the highest number of youth entering the juvenile justice system.

**SECTION THREE – Overall analysis of disparity**

Please provide information indicating whether the use of detention or residential placement in your service area exhibits disparate outcomes for one racial/ethnic group as compared to outcomes for another racial/ethnic group. **(Please consult with the Detention and Placement data provided by OCFS and the County Profile data provided by DCJS as part of your STSJP plan support documentation).**

(250 words or less) There is no racial/ethnic disparity or disproportionality concerning detention or residential placement. Due to the demographics of Otsego County (91.9% caucasion) and low numbers of youth placed, placement of any individual of a different race/ethnic group can make it appear as if there is a disparity.

If such disparity exists, describe how the service/program addresses issues described above. **(250 words or less)**

**SECTION FOUR – Performance outcomes**
For current program year, provide the projected performance outcomes for all of your proposed services and programs, being sure to include: An estimate of the anticipated reductions in detention utilization and residential placements. (250 word or less)

SECTION FIVE – Collaboration

As per STSJP legislation, collaboration is required please describe your municipality’s activities in developing this year’s STSJP plan in collaboration with local agencies responsible for probation, law enforcement, detention, diversion, and social services, as well as, with courts, service provider, schools, and youth development programs. (250 words or less) This year’s plan was developed primarily by the Otsego County Department of Social Services and the Otsego County Probation Department. Meetings are held monthly with other service providers (ie: County Mental Health, Addiction Recovery Services, Family Stabilization) regarding what juveniles in this county need and what has helped prevent placement and/or detention.

SECTION SIX – Cooperative applications submitted jointly by two or more counties

(Complete this section only if this is a joint application)

Two or more eligible local jurisdictions (counties) may join together to establish, operate, and maintain supervision and treatment services for juveniles’ programs and may make and perform agreements in connection therewith. Counties submitting such applications must provide the following information:

Describe the provisions for the proportionate cost to be borne by each county:

Describe the manner of employment of personnel across and between counties in the cooperative:

PLEASE DO NOT INCLUDE ANY RTA PROGRAM FUNDING IN SECTION SEVEN (section directly below)
