KATHY HOCHUL  
Governor

SUZANNE MILES-GUSTAVE, ESQ.  
Acting Commissioner

January 31, 2024

Dear Chief Executive Officer,

Thank you for submitting Suffolk County's Supervision and Treatment Services for Juveniles Program (STSJP) plan for Program Year (PY) 2023-2024. Your entire STSJP plan, including any amounts listed for PY 2023-2024 STSJP-RTA, has been **approved**.

The County is eligible to receive 62% State reimbursement for STSJP expenditures up to the capped STSJP allocation amount. Your municipality will continue to receive 49% State reimbursement for eligible detention services expenditures up to the capped allocation amount. If your municipality shifts a portion of its detention allocation into its STSJP plan, your municipality will receive 62% State reimbursement, up to the capped allocation, if such shifted funds are spent on STSJP eligible expenditures. A municipality may make a detention allocation shift at the time of the STSJP plan submission or up until June 30, 2024, unless otherwise approved by the Office of Children and Family Services.

If the County plans to shift its detention allocation for STSJP eligible expenses, please submit a request on official letterhead to Lynn Tubbs and email it to [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) outlining

1. the amount that will be shifted and
2. the type of programming or services the re-purposed detention funds will be used for under STSJP

Once the shift is approved, an amended STSJP plan will need to be submitted.

As a reminder, to access RTA reimbursement that a municipality may be eligible for, the expenditures must be specifically included in a locality's comprehensive RTA plan.

All STSJP claims, inclusive of STSJP-RTA, must be submitted electronically via the Juvenile Detention Automated System (JDAS) for the service period of October 1, 2023, to September 30, 2024. Questions on all aspects of the claiming process should be directed to the STSJP mailbox at [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) with the subject line: "STSJP Claiming Questions".

If you have any STSJP plan questions, please also email us at [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) and write "STSJP Plan Questions" in the subject line or reach out to Lynn Tubbs at (518) 473-9116.

Thank you for your continued partnership as we reform the juvenile justice practices in New York State by safely engaging youth and their families through innovative programming to reduce out of home placement and detention of youth.

Sincerely,

Nina Aledort, PhD  
Deputy Commissioner

### PLAN SUBMISSION INSTRUCTIONS

**STSJP plans are due to the Office of Children and Family Services (OCFS) by 08 / 04 / 2023**

- Once you have opened this form on your computer, please use the "Save As" function to save a copy with the following file name: "STSJP 2023-2024 Annual Plan – [ex. Municipality Name]."
- Work from the copy saved in Step 1 as you record your municipality information. Save your work as you complete each section.
- Email the completed application to OCFS at [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov). Use the subject line "STSJP 2023-2024 Annual Plan – [Municipality Name]" to facilitate timely review of your plan.

**Please direct any STSJP plan questions to the STSJP mailbox at: [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov), or you may contact Geneva Hilliard 518-486-1819 or Lynn Tubbs 518-473-9116.**

**NOTE: Cooperative Applications submitted jointly by two or more counties**

Two or more eligible local jurisdictions (counties) may join together to establish, operate, and maintain STSJP programs, and may enter into agreements in connection therewith. Counties submitting such applications must provide additional information under **Part I - Municipality Level Details, Section C. Cooperative Application.**

### PART I – MUNICIPALITY LEVEL DETAILS

#### A. Municipality Level Analysis

- (a) Identify the communities or neighborhoods (ZIP codes) from which the highest number of Youthful Offenders (YO), Adolescent Offenders (AO), Juvenile Offenders (JO), Juvenile Delinquents (JD), and Persons in Need of Supervision (PINS) enter the youth justice system, are remanded to detention, and/or are residentially placed; and  
(b) Discuss what factors may be contributing to these high numbers:

The following communities have the highest concentrations of PINS/JD/AO/JO youth by zip code as of July 2023 according to the Probation database of cases. Approximately 35% of 292 current youth on Probation reside in seven zip codes: Bayshore 11706, Brentwood 11717, Central Islip 11722, Patchogue 11772, Riverhead 11901, Shirley, 11967, and Wyandanch 11798. In 2022, youth placed in detention were from a wide range of communities across Suffolk County. The three top zip codes for youth in detention were Huntington 11746, Mastic 11951, and Riverhead 11901. Approximately 35% of all youth admitted to detention (143) were from these three zip codes.

Suffolk County has five identified Qualified Opportunity Zones in a county with 64 towns. Qualified Opportunity Zones are economically distressed communities eligible for tax incentives. These five zones are Central Islip, Huntington Station, North Bellport, Riverhead, and Wyandanch. Three of the zones are included in the top zip codes for justice-involved youth.

Several risk factors associated with poverty include substance use, health and mental health, abuse and neglect, and academic achievement. Comprehensive family prevention and intervention programs designed to address a variety of risk and protective factors are the focus of this funding. These initiatives can improve the overall outcomes for the youth and families who are disproportionately represented in the juvenile justice system.

Of the 143 total detention admissions in 2022 for Suffolk County, 128 were for JD youth. More than half (63%) had a low DRAI score indicating others factors for detention placement. One factor may be the top charge for the detention admission. More than half (61%) of the JD’s referred to detention were for either a felony, violent felony, violation of probation, or a warrant. Further analysis is necessary to look at DRAI scores and misdemeanor charges to see if other factors may be contributing the detention referral. While the total number of detention cases for Suffolk County is high, Suffolk County does have a comparable rate of detention to all of NYS when comparing the number of juveniles in detention to the total number of juveniles in the population. Suffolk County had 143 detention placements from a total juvenile population of 305,751 (rate of .05%). NYS had 3210 detention placements from a total juvenile population of 3,988,354 (rate of .08%).

2. Resources available at the following link can help you answer these questions:

<https://www.ocfs.ny.gov/programs/youth/stsjp/planning.php>

(a) In the charts below, please provide the municipality’s distributions by race, ethnicity, and sex assigned at birth for the general population of youth younger than 18, and for the detained and placed population of youth. For the placement admissions data, please add together county data from Tables 1b-Total OCFS Facility Admissions by Sex, Race/Ethnicity and Age, 6b-JD Foster Care Admissions by Sex, Race/Ethnicity and Age and 7b-PINS Post-Dispositional Foster Care Admissions by Sex, Race/Ethnicity and Age from [Annual Out of Home Placement Admissions Data Packet](#)

Race/Ethnicity	2020 General Population <18 years		2022 Detention Admissions		2022 Placement Admissions	
	#	%	#	%	#	%
Black/African American	28,037	9%	57	40%	26	28%
White	169,373	55%	20	14%	12	13%
Native American/Alaskan	798	0%	0	0%		
Asian/Pacific Islander	14,651	5%	0	0%		
Hispanic	92,892	30%	66	46%	47	52%

Sex Assigned at Birth	2020 General Population <18 years		2022 Detention Admissions		2022 Placement Admissions	
	#	%	#	%	#	%
Male	156,006	51%	114	80%	67	74%
Female	149,745	49%	29	20%	24	26%

b) If you identified any disparities when comparing youth representation in the general population and their representation in detention and placement, explain how this plan will address those disparities. If you did not identify any disparities, please note such.

As illustrated in the above chart, the population of youth in detention and placement are racially disproportionate to the general youth population for the county with Black youth almost 5 times more likely to be in detention and placement than White youth. The rates of detention for Hispanic youth are equal to the general youth population but slightly higher for placement rates. Also illustrated in the chart above, males are disproportionately represented in detention and placement with 75% of all admissions being male. This is consistent with the rates of youth entering the juvenile justice system nationally. While the programs listed in this plan attempt to address numerous risk factors associated with youth entering the juvenile justice system, these programs do not specially target the racial and gender disparities evident in the juvenile justice population. The primary goal of these program are to address the youth and family needs through education and advocacy, child and family prevention and treatment, mental health, child welfare, health, and other services based upon individual and family needs, all in an attempt to reduce further

entry into the system and thus prevent detention and placement for the youth. When these risk factors are not adequately addressed, youth are more likely to end up in detention and placement.

In addition, regular monitoring and reporting of data including all disparities is presented to key stakeholders within the county (courts, DSS, child welfare service providers, education advocates, and other juvenile justice system representatives) and discussed at meetings such as the regional youth and justice team and the family court juvenile drug court grant stakeholders meeting to raise awareness and bring about change.

**B. Local Collaboration**

1. Legislation requires local collaboration. Please describe your municipality’s activities in developing this year’s STSJP plan in collaboration with local agencies responsible for probation, law enforcement, detention, diversion, social services, courts, service providers, schools, and youth development programs:

One major source of collaboration is the Long Island Regional Youth and Justice Team (LIRYJT). The team includes juvenile justice representatives from Nassau and Suffolk who share best practices, identified areas for practice improvement and provide input to state policymakers. Members include probation, social services, OCFS, attorney, advocates, and service providers. In addition to the LIRYJT, the Probation Department collaborates with several juvenile justice service providers to develop and manage program to reduce detention and placement for Suffolk County. The Regional Youth and Justice Team no longer meets since the grant ended in 2023. Suffolk County Probation will need to convene another group to serve as the collaborative body for STSJP planning. This will occur when a new County Executive takes over in 2024. The majority of the programs included in the STSJP plan have been created through a competitive RFP process soliciting agencies to provide evidence based services for the juvenile justice population. The agencies providing these services work in close collaboration with probation DSS, and the family court to ensure that programming is specific to the needs of the population and is modified as needed. For example, Suffolk County has worked closely with Hope for Youth to develop programs designed to prevent placement and detention such as the Adjustment Services program (#5 in this plan). The County Executive’s Office in collaboration with the local school districts, court, probation, and community representatives, worked with STRONG YOUTH Inc. to develop the gang prevention program (#3 in this plan) tailored to the needs of the community. The county has worked with Long Island Advocacy Center to develop educational advocacy for and families throughout the county.

2. Is your municipality gathering participant youth and family feedback as part of your STSJP plan development?

- Yes. (If yes, please describe how the plan incorporates that feedback at the system level, e.g., funding and service continuum decisions.)
- No. (If no, please describe the barriers to implementation and the municipality's solutions to develop such feedback mechanism during PY 2023-2024.)

This 2023-24 plan maintains most of the same programming as the last STSJP plan. We have reduced the numbers of youth served by Hope for Youth Supervision and Treatment Program (Program #6) in STSJP since they are receiving grant funds for youth in the juvenile drug court. We also removed the DR-RTLA Prevention & Early Intervention program listed in last years’ plan. This was added when the additional STSJP funds were available. If additional funding becomes available again, we will reinstate the program. No youth were served by the program to date. Probation uses STSJP reporting data and discussions with the service agencies to make modifications and improvements to address gaps in services. STSJP providers complete exit interviews with youth and families. That feedback is shared with the STSJP lead agency on a regular basis for STSJP plan development changes.

3. Was community feedback in low opportunity ZIP codes sought as part of the STSJP plan development?

- Yes. (If yes, please describe how the plan incorporates that feedback at the system level, e.g., funding and service continuum decisions.)
- No. (If no, please describe the barriers to implementation and the municipality's solutions to develop such feedback mechanism during PY 2023-2024.)

As described above, community feedback is provided indirectly through provider agencies, schools, courts, and probation. The feedback is used to make modifications to existing programs and create new ones such as the gang prevention program which was created directly from community requests for gang prevention services. Finding from the Southampton Youth Bureau Community Needs Assessment is also used for the STSJP Annual Plan development.

**C. Cooperative Application** *(Complete this section only if this is a joint application.)*

1. Describe the provisions for the proportionate cost to be borne by each county:

2. Describe how personnel will be compensated across and between counties in the cooperative:

3. Will a single fiscal officer be the custodian of the funds made available for STSJP?  
 Yes. (If yes, please provide their contact details below.)  
 No. (If no, skip to Q.4.)

Officer's Name:	Title:
Phone: ( )	Ext:                      Email:

4. Provide the name and email address of the person who will be responsible for collecting and submitting STSJP data for jointly funded programs, as well as the names and email addresses of the fiscal officers responsible for jointly funded programs:

**B. Program 1 Description and Target Population**

1. A Family Support Services (FSS) program may ONLY serve youth at risk of becoming, alleged to be, or adjudicated as PINS; or children under 12 years of age who do not meet the definition of a JD and whose behavior, but for their age, would bring them within the jurisdiction of the family court under Article 3 of the Family Court Act (FCA). This program meets the legal definition of an FSS program (Social Services Law Section 458-m) and will operate in this capacity for PY 2023-2024.  
 Yes     No

2. Please check all applicable boxes below to identify the service types that will be utilized for this program in PY 2023-2024:

STSJP	STSJP-RTA	
<input type="checkbox"/>	<input type="checkbox"/>	Prevention (P)
<input type="checkbox"/>	<input type="checkbox"/>	Early Intervention (EI)

<input type="checkbox"/>	<input type="checkbox"/>	Reentry/Aftercare (R/A)
<input type="checkbox"/>	<input type="checkbox"/>	Indirect Services

**\*Note:** If you indicated this program will operate as an FSS, it cannot provide STSJP-RTA services under this program. Additionally, children under 12 years of age who do not meet the definition of either a PINS or a JD and whose behavior, but for their age, would bring them within the jurisdiction of the family court under Article 3 of the FCA, may only be served through the Prevention and Early Intervention service domains.

3. Please list the ZIP codes this program will target:

All zip codes in Suffolk County are served. The following communities with the higher number of JD are of focus for this program. These include 11706, 11717, 11722, 11746, 11757, 11763, 11701, 11901, 11798

4. Describe the program, including how it is family focused. If you answered “Yes” to Q.1. Family Support Services program, be sure to demonstrate how your program meets each requirement of the legislation. Also, please explain how each of the service types selected in Q.2. will address the unique needs of youth at that system point, and how those services will aid in the reduction of youth detained and residentially or otherwise placed. If you selected Indirect Services, please list them. (Please refer to the *STSJP Annual Plan Development Guide* for additional guidance.)

The purpose of this program is to effectively address the needs of adjudicated RTA and non-RTA juvenile delinquents through the provision of evidence-based family-focused support services to the youth and their families primarily within community based treatment settings. Family treatment, delivered in a community-based setting, is less intensive and follows a strengths-based and family focused perspective emphasizing individualized services to the youth and family. The approach is designed to keep youth at home whenever possible by providing services and support to the youth and family in the community rather than in an institutional setting.

5. Is the program capable of being replicated across multiple locations?  Yes  No

**C. Program 1 Performance History (Refer to your municipality’s STSJP data files.)**

1. What, if any, funding did this program receive in PY 2022-2023? If the program was approved in PY 2022-2023 but was not implemented or is anticipated to serve no youth, please choose None.

None (If none, skip to section D.)  STSJP  STSJP-RTA

2. Please use the table to record **how many youth (#) were served** by the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

Approved Funding	Program Type					Total
	P	EI	ATD/ATPDP	ATP	R/A	
STSJP				13		13
STSJP-RTA				6		6
Total				19		19

3. Based on the program’s record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2023? Please explain:  
 We projected this program serving 35 (20 STSJP, 15 STSJP-RTA) youth during the 2022-2023 program year. Overall numbers of youth referred to Family Court have been going down. The projected numbers will be adjusted if the trend in referrals to Family Court continues to decline.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

Approved Funding	Program Type				
	P	EI	ATD/ATPDP	ATP	R/A
STSJP				167	
STSJP-RTA				181	

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.

The average length of service is as expected for this program. The average length of stay for October 1, 2022 through March 31, 2023 is 167.50 for STJSP and 181 for STSJP-RTA. This program is designed for youth to spend 90 days to one year depending on their needs. The length of time is consistent with family treatment programs that provide assessment, case management, and counseling. The length of stay in this program is longer than the average length of stay of 13.7 days for JD youth in detention. The length of stay is shorter than the average length of stay of 11.4 months for OCFS placements.

6. Will this program's outcomes meet the PY 2022-2023 projected goals by 9/30/2023?

Yes. (If yes, skip to section D.)  Partially  No

7. (a) What outcomes are on track to meet the goals set for PY 2022-2023?  
(b) How will they be met?

8. (a) What outcomes are not on track to meet the goals set for PY 2022-2023?  
(b) Please describe any contributing barriers:

9. What changes have been made to overcome the barriers identified in Q.8. so that the program can achieve its desired goals for PY 2023-2024?  
For the 2022-2023 STSJP term, we decreased the number of youth served from 40 to 35. This program is currently on track for meeting the reduced number of goals.

**D. Program 1 Service Projections for PY 2023-2024**

3. Please list the ZIP codes this program will target:

All zip codes in Suffolk County are served. The program does serve youth from each of the communities with the higher number of PINS and JD. These include 11706, 11717, 11722, 11746, 11757, 11763, 11701, 11901, 11798.

If you selected Indirect Services, please list them. (Please refer to the *STSJP Annual Plan Development Guide* for additional guidance.)

The purpose of this program is to effectively address the needs of PINS youth through the provision of evidence-based family-focused support services to prevent further progression through the juvenile justice system. The program is delivered to the youth and their families primarily within community based treatment settings. Family treatment, delivered in a community-based setting, is less intensive and follows a strengths-based and family focused perspective emphasizing individualized services to the youth and family. The program has a collaborative relationship with several other service provider agencies. Through these collaborations, additional evening and weekend services are available 24/7 through the Response Crisis Center Hotline and 24/7 respite services are provided by Hope for Youth through a county contract. The Community Home Based Program uses the wraparound model of service delivery for juveniles with serious emotional and behavioral disorders (SEBD). Services are delivered through a team-based collaborative process designed to provide coordinated and individualized intake, assessment, crisis intervention, family mediation, skill building, mental and behavioral health services, and case management to youths with SEBD and their families across a variety of settings. The versatile wraparound process "wraps" a variety of services and support networks "around" the individual and their families. The overall goal is to reduce the numbers of PINS petitions filed and reduce the number of youth adjudicated as PINS. This goal is met through a range of services to improve mental health, improve school achievement and attendance, reduce recidivism, and achieve more successful permanency outcomes. Given that the wraparound process is designed to provide juveniles with better access to treatment, it is closely tied to the system-of-care (SOC). The SOC framework is a "comprehensive spectrum of mental health and other services and supports organized into a coordinated network to meet the diverse and changing needs of juveniles with severe emotional disorders and their families".

The youth can be referred by the school or parents if they believe the youth is engaging in behaviors that place them at risk of becoming PINS or JD. Some of the youth may already be PINS or JD and enter the program to reduce the likelihood of further involvement. The program helps to increase protective factors that reduce the risk of gang involvement. These protective factors include improved school performance, prosocial activities, and connection to community. The program provides community education and support through community grieving circles, STRONG Talks, and street outreach. They provide socio emotional learning through in-school and afterschool programs such as intensive counseling, case management, and home based services. 1. What, if any, funding did this program receive in PY 2022-2023? If the program was approved in PY 2022-2023 but was not implemented or is anticipated to serve no youth, please choose None.  
 None (If none, skip to section D.)     STSJJP     STSJJP-RTA

2. Please use the table to record **how many youth (#) were served** by the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

3. Based on the program's record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2023? Please explain:  
 We have exceeded the number of prevention cases projected for the 2022-2023 STSJJP program year for prevention. We do not anticipate to meet the number of cases projected for early intervention.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.  
 The average length of service is average for this program. This program serves youth throughout their school years. The program provides services to the youth and families during the school year and provides summer programming to ensure youth stay engaged in productive activities year round. The average length of stay is higher than detention or placement given the program follows youth for several years. The cost per day is less than less than detention and placement

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.  
 The average length of service is consistent with programs that address longer-term school problems and failure. This program will provide services to the juveniles throughout their school year and for as long as they are on probation. Most cases stay open for the length of time they are under supervision. While the length of services is higher than the length of stay for placements or detention, this program targets key protective factors that increase success in school and reduce the likelihood of further entry into the juvenile justice system. The program provides the needed support and advocacy for juveniles in all aspects of their education includes school testing, suspension hearing and court hearing.

Additionally, children under 12 years of age who do not meet the definition of either a PINS or a JD and whose behavior, but for their age, would bring them within the jurisdiction of the family court under Article 3 of the FCA, may only be served through the Prevention and Early Intervention service domains.

3. Please list the ZIP codes this program will target:

All zip codes in Suffolk County are served. The program does serve youth from each of the communities with the higher number of PINS and JD. These include 11706, 11717, 11722, 11746, 11757, 11763, 11701, 11901, 11798.

Family Support Services program, be sure to demonstrate how your program meets each requirement of the legislation. Also, please explain how each of the service types selected in Q.2. will address the unique needs of youth at that system point, and how those services will aid in the reduction of youth detained and residentially or otherwise placed. If you selected Indirect Services, please list them. (Please refer to the *STSJP Annual Plan Development Guide* for additional guidance.)

This program provides Probation with an opportunity to reduce further entry into the juvenile justice system by allowing youth to have their court cases adjusted by Probation thus avoiding Family Court involvement. Suffolk County has developed a 60-day restorative justice program for youth. The program offers youth the opportunity to participate in restorative justice conferences and gain connections to community resources, such as counseling, community service, and a parenting program.

3. Based on the program’s record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2023? Please explain:  
 We anticipate the program serving less STSJP-RTA cases than projected.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.  
 The average length of service for the Adjustment Program averages between 80-90 days. This is more than the expected length of service of 60 days to adjust a case. The length of service is more than the average length of stay for detention. However, the purpose of adjustment is to allow the cases to be settled prior to court involvement thus eliminating the potential for the youth to enter further into the juvenile justice system.

6. Will this program’s outcomes meet the PY 2022-2023 projected goals by 9/30/2023?  
 Yes. (If yes, skip to section D.)     Partially     No

7. (a) What outcomes are on track to meet the goals set for PY 2022-2023?  
 (b) How will they be met?  
 The project will serve all youth referred to the program for Adjustment Services.

8. (a) What outcomes are not on track to meet the goals set for PY 2022-2023?  
 (b) Please describe any contributing barriers:  
 The numbers of RTA youth eligible for Adjustment is lower than expected. This will result in a lower target number for 2022-23 than expected.

9. What changes have been made to overcome the barriers identified in Q.8. so that the program can achieve its desired goals for PY 2023-2024?  
 No programming changes are needed. The target number of RTA youth eligible for Adjustment will be lowered.

<b>C. Program 6 Performance History (Refer to your municipality's STSJP data files.)</b>																						

1. What, if any, funding did this program receive in PY 2022-2023? If the program was approved in PY 2022-2023 but was not implemented or is anticipated to serve no youth, please choose None.  
 None (If none, skip to section D.)     STSJP     STSJP-RTA

2. Please use the table to record **how many youth (#) were served** by the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

Approved Funding	Program Type					Total
	P	EI	ATD/ATPDP	ATP	R/A	
STSJP				6		6
STSJP-RTA				2		2
Total				8		8

3. Based on the program's record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2023? Please explain:  
 We anticipate the same number of youth to be served in 2023-24.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2022 and 3/31/2023. Enter zero (0) if not applicable.

Approved Funding	Program Type				
	P	EI	ATD/ATPDP	ATP	R/A
STSJP				126	
STSJP-RTA					

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.  
 The average length of stay is longer than detention or placement stay. The cost of Supervision and Treatment program is less than the cost of detention or placement.

6. Will this program's outcomes meet the PY 2022-2023 projected goals by 9/30/2023?  
 Yes. (If yes, skip to section D.)     Partially     No

7. (a) What outcomes are on track to meet the goals set for PY 2022-2023?  
 (b) How will they be met?

8. (a) What outcomes are not on track to meet the goals set for PY 2022-2023?  
 (b) Please describe any contributing barriers:  
 Based on the number of youth served from October 1, 2022 - March 31, 2023, we do not anticipate this program meeting either STSJP or STSJP-RTA goals. The number of youth referred to the program was reduced since the Suffolk County Family Court Juvenile treatment Program received OJJDP enhancement funding to provide MDFT services to youth enrolled in the court. This resulted in fewer youth served through this STSJP program.

9. What changes have been made to overcome the barriers identified in Q.8. so that the program can achieve its desired goals for PY 2023-2024?  
 For PY 2023-2024 we have decreased the number of referrals and decreased the amount of funding allocated to this program.

The program addresses the educational needs of youth prior to a PINS petition. The Long Island Advocacy Center (LIAC) has provided educational advocacy for parent PINS cases demonstrating success in preventing many of these cases from filing for a PINS petition. With the changes in PINS reform prohibiting referrals for truancy only cases, schools have referred cases for behavioral issues rather than for truancy. The program advocates on behalf of the youth to address needs and ensure that truancy is not the primary reason for the PINS referral. By addressing these issues, the program hopes to reduce the numbers of cases moving further into the system.</p>

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.  
 The average length of service is consistent with programs that address longer-term school problems and failure. This program will provide services to the juveniles throughout their school year and for as long as they are on probation. Most cases stay open for the length of time they are under supervision. While the length of services is higher than the length of stay for placements or detention, this program targets key protective factors that increase success in school and reduce the likelihood of further entry into the juvenile justice system. The program provides the needed support and advocacy for juveniles in all aspects of their education includes school testing, suspension hearing and court hearing.

**Program 11 Description and Target Population**

1. A Family Support Services (FSS) program may ONLY serve youth at risk of becoming, alleged to be, or adjudicated as PINS; or children under 12 years of age who do not meet the definition of a JD and whose behavior, but for their age, would bring them within the jurisdiction of the family court under Article 3 of the Family Court Act (FCA). This program meets the legal definition of an FSS program (Social Services Law Section 458-m) and will operate in this capacity for PY 2023-2024.  
 Yes     No

2. Please check all applicable boxes below to identify the service types that will be utilized for this program in PY 2023-2024:

**PART III – Goals for PY 2023-2024**

Please set the municipality’s goals for its programs to achieve in PY 2023-2024. State-required outcomes have been included with space for you to identify which programs in **Part II-Program Level Details** will serve youth within each service domain. Goals are focused by service type and should reflect the percentage of youth expected to achieve the outcome described. **Note:** Outcomes are only recorded for youth once they have left the program; this may represent a subset of all the youth served during the period. Goals should reflect high, yet realistic, expectations for the programs.
