

## Office of Children and Family Services

KATHY HOCHUL  
Governor

SHEILA J. POOLE  
Commissioner

April 15, 2022

Dear Chief Executive Officer,

Thank you for submitting Westchester County's Supervision and Treatment Services for Juveniles Program (STSJP) plan for Program Year (PY) 2021-2022. Your entire STSJP plan, including any amounts listed for PY 2021-2022 STSJP-RTA, has been **approved.**

The County is eligible to receive 62% State reimbursement for STSJP expenditures up to the capped STSJP allocation amount. Your municipality will continue to receive 49% State reimbursement for eligible detention services expenditures up to the capped allocation amount. If your municipality shifts a portion of its detention allocation into its STSJP plan, your municipality will receive 62% State reimbursement, up to the capped allocation, if such shifted funds are spent on STSJP eligible expenditures. A municipality may make a detention allocation shift at the time of the STSJP plan submission or up until June 30, 2022, unless otherwise approved by the Office of Children and Family Services.

If the County plans to shift its detention allocation for STSJP eligible expenses, please submit a request on official letterhead to Lynn Tubbs and email it to [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) outlining

1. the amount that will be shifted and
2. the type of programming or services the re-purposed detention funds will be used for under STSJP

Once the shift is approved, an amended STSJP plan will need to be submitted.

As a reminder, to access RTA reimbursement that a municipality may be eligible for, the expenditures must be specifically included in a locality's comprehensive RTA plan.

All STSJP claims, inclusive of STSJP-RTA, must be submitted electronically via the Juvenile Detention Automated System (JDAS) for the service period of October 1, 2021 to September 30, 2022. Questions on all aspects of the claiming process should be directed to the STSJP mailbox at [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) with the subject line: "STSJP Claiming Questions".

If you have any STSJP plan questions, please also email us at [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov) and write "STSJP Plan Questions" in the subject line or reach out to Geneva Hilliard at (518) 486-1819 or Lynn Tubbs at (518) 473-9116.

Thank you for your continued partnership as we reform the juvenile justice practices in New York State by safely engaging youth and their families through innovative programming to reduce out of home placement and detention of youth.

Sincerely,

A handwritten signature in black ink, appearing to read 'Nina Aledort', with a stylized flourish at the end.

### PLAN SUBMISSION INSTRUCTIONS

**STSJP plans are due to the Office of Children and Family Services (OCFS) by 09/08/2021**

1. Once you have opened this form on your computer, please use the "Save As" function to save a copy with the following file name: "STSJP 2021-2022 Annual Plan – [ex. Municipality Name]."
2. Work from the copy saved in Step 1 as you record your municipality information. Save your work as you complete each section.
3. Email the completed application to OCFS at [stsjp@ocfs.ny.gov](mailto:stsjp@ocfs.ny.gov). Use the subject line "STSJP 2021-2022 Annual Plan – [Municipality Name]" to facilitate timely review of your plan.

**Please direct any STSJP plan questions to the STSJP mailbox at: [STSJP@ocfs.ny.gov](mailto:STSJP@ocfs.ny.gov), or you may contact Geneva Hilliard 518-486-1819 or Lynn Tubbs 518-473-9116.**

**NOTE: Cooperative Applications Submitted Jointly by Two or More Counties**

Two or more eligible local jurisdictions (counties) may join together to establish, operate and maintain STSJP programs, and may enter into agreements in connection therewith. Counties submitting such applications must provide additional information under **Part I - Municipality Level Details, Section C. Cooperative Application.**

### PART I – MUNICIPALITY LEVEL DETAILS

#### A. MUNICIPALITY LEVEL ANALYSIS

1. (a) Identify the communities or neighborhoods (ZIP codes) from which the highest number of Youthful Offenders (YO), Adolescent Offenders (AO), Juvenile Offenders (JO), Juvenile Delinquents (JD), and Persons in Need of Supervision (PINS), enter the youth justice system, are remanded to detention, and/or are residentially placed; and (b) Discuss what factors may be contributing to these high numbers:

The AO/JO/JD/PINS youth are from all over Westchester County however several cities in Westchester see a higher numbers of juvenile arrests/appearance tickets. These tend to be the larger and/or more urbanized cities in Westchester including Yonkers( 10701, 10703,10705) , White Plains(10601,10604) , Mount Vernon(10550, 10553, 10552), New Rochelle( 10801), Peekskill(10566), Portchester(10573) and Ossining(10562). Yonkers(10701, 10703) and Mount Vernon(10550, 10552, 10553) are on the border of the boroughs heightening criminal activity in these Westchester neighborhoods. Parts of these cities are marked by high crime rates among adult offenders. These communities suffer from truancy, high dropout rates, community disorganization, extensive crime, gangs (particularly in and around schools), and other social ills including generational familial dysfunction.

Gang are attempting to establish a strong foothold, recruiting youth at younger ages. Residents are normally of lower income and tend to have less access to financial opportunities. Schools are no longer the safe zones we knew as children. Cuts in funding for school guidance counselors and resource officers present a disconnect between the youth/family and the schools.

Yonkers(10701) sees larger PINS referrals than most other Westchester cities due to its close proximity to the city, and issues with sexual trafficking. Yonkers(10701, 10703, 10705), Mount Vernon(10550) and New Rochelle(10801) experience higher levels of of juvenile criminal involvement. These municipalities are our more urban cities, close to the NYC border with high levels of gang involvement. Cities such as Pleasantville(10570),Yonkers(10701)and Dobbs

Ferry (10522) and Hastings on the Hudson(10706) also see a disproportionate amount of juvenile arrests and appearance tickets as these cities contain juvenile residential placement facilities, housing neglected youth placed locally from NYC. A majority of these cases, whether they be for juvenile arrests or PINS referrals, are characterized by a long history of CPS involvement with parents demonstrating limited capacity issues. As a county, Westchester is predominantly white; however, the JD, JO AO, and PINS population are predominantly from cities that are more than half minority. According to the NYS DCJS Disproportionality study done on Westchester Probation, Probation does not have the ability to affect disproportionate minority contact until the child touches our system. Westchester County Department of Probation has built effective firewalls at every step to attempt to keep children from entering the juvenile justice system. We work closely with the Diversionary Gender Responsive Initiatives Partnership Court as well as the local Youth Bureau's diversionary youth courts. Municipal police diversionary programs continue to grow in Westchester. Family Court Probation takes an active role in National Night Out and works closely with our High Impact Gang Unit who respond to shots fired in the Yonkers and Mount Vernon areas.

2. Resources available at the following link can help you answer these questions:

<https://www.ocfs.ny.gov/programs/youth/stsjp/planning.php>

(a) In the charts below, please provide the municipality's distributions by race, ethnicity, and sex assigned at birth for the general population of youth younger than 18, and for the detained and placed population of youth younger than 18. (**Note:** Every July, the National Center for Health Statistics releases population data for the previous year. The population data you are being asked to report on was the latest available at the time OCFS updated the contents of this plan.)

Race/Ethnicity	2019 General Population <18 years		2020 Detention Admissions <18 years		2020 Placement Admissions <18 years	
	#	%	#	%	#	%
Black/African American	29,335	14	70	51	23	58
White	96,834	46	4	3	2	5
Native American/Alaskan	382	0	0	0		
Asian/Pacific Islander	13,941	7	0	0		
Hispanic	69,760	33	45	33	9	23

Sex Assigned at Birth	2019 General Population <18 years		2020 Detention Admissions <18 years		2020 Placement Admissions <18 years	
	#	%	#	%	#	%
Male	108,403	52	108	79	27	68
Female	101,879	48	29	21	13	33

b) If you identified any disparities when comparing youths' representation in the general population and their representation in detention and placement, explain how this plan will address those disparities. If you did not identify any disparities, please note such.

Youth of color comprise a higher percentage of youth entering the criminal justice system than white youth. Current diversionary programming that includes early intervention aspects, such the Alternatives to Detention, Juvenile Extended Supervision, Linkages, Juvenile Officers help support the child/family in an effort to prevent further penetration into the criminal justice system. New programming such as Cluster Mediation Services will hopefully help to address familial discord promoting parents willingness to take a child home/keep a child home, rather than seek out of home placement. Electronic Home Monitoring will also hopefully support the Court in

determining a child can be released to the community with safeguards in place for supervision and monitoring. While acknowledging issues of disproportionate minority contact as an issue across the Country only a very small number of youth actually penetrate the criminal justice system in Westchester comparative to youth total population. Less than .0006 percent of youth enter detention and even less (.0002) are placed residentially. This is the result of collaboration among the County systems, promoting a belief in most cases it is in the best interest of the youth we serve to remain in the community. This is usually accomplished by promoting long term sustainable change for the family through the establishment of supportive community connections.

**B. LOCAL COLLABORATION**

1. Legislation requires local collaboration. Please describe your municipality’s activities in developing this year’s STSJP plan in collaboration with local agencies responsible for probation, law enforcement, detention, diversion, social services, courts, service providers, schools, and youth development programs:

Westchester Probation partners with the Local Department of Social Services, and the Local Department of Community Mental Health embracing a no wrong door approach to help youth and families access services in Westchester. Westchester will follow this model with our RTA youth as well. CSU is a voluntary service offered to all families who become involved with our system. As necessary and as allowed by parent/guardian, the CSU team confers in plan development.

Westchester Probation is the lead agency for the Mid-Hudson Regional Youth Justice Team currently working in collaboration with DCMH and DSS on a Trauma and Resiliency pilot project. Additionally, Westchester Probation and the LDSS and DCMH Cross Systems team continue to work with the Westchester Family Court on the Westchester Gender Responsive Initiative and Partnership(GRIP) Court. Probation is the lead agency for PINS with an all time low placement number of 6 in 2020. Probation, LDSS, DCMH and the Youth Bureau have establish PINS team network meetings to help promote best outcomes for these youth and their families and hopefully decreased PDP placements.

Westchester County is currently participating in the Policy Equity Training Academy to analyze systematic causes of disproportionate minority contact in Westchester. Probation, as the lead agency in conjunction with LDSS, LDCM, the Youth Bureau, the County Attorney's Office, Attorney for the Child, Bravehearts administration and youth, select municipal police departments, and schools (SRO Officers) , detention, and select residential treatment facilities are working in conjunction with NYS to look at local policy and programming and identify where we can make further efforts and change in a disproportionately inequitable system.

Probation is the administrating operator of Woodfield Juvenile Secure and Specialized Secure Detention Facility currently under contract to Children's Village. Children's Village also currently has the contract for our non-secure detention programing and performs on site court ordered clinical assessments. We work closely with the Court and County Attorney's Office on "step down programming" options. A continuum of care is established/incorporated with the Alternative to Detention program.

Probation continues to work closely with local law enforcement, the County Attorney's Office and the Youth Bureaus in support of the Youth Court and pre-division community programming.

2. How is your municipality gathering participant youth and family feedback as part of your STSJP plan development?

Westchester has only just started exploring a more formalized plan to gain youth and parent feedback regarding programming incorporated into the STSJP plan. Discussions have included different types of survey techniques. Currently Officers and Supervisors are talking with families during the individualized PRCR case plan development and audits. These conversations normally occur before programmatic referrals as well as during and after participation in certain programming supported by STSJP. Officer/Supervisory feedback is also considered. Describe how the plan incorporates that feedback; if you have not yet received youth and family feedback, please describe the municipality implementation plan to develop such feedback mechanisms during PY 2021-2022. While it is believed that direct verbal communication is the best way to develop and enhance relationships with our youth and families, it is acknowlded that there are limitations to this method including interpretation and child/family not wanting to open up regarding issues or complaints. A survey system will allow for a certain amount of anonymity and the possibility of more candor/disclosure.

Specific to the Juvenile Extended Operations(JES) and Juvenile Accountability and Community Service(JACS) programs youth are encouraged to discuss their likes in dislikes in an open group forum or privately at a later date. This has been the process for years as it assists in the continued development of appropriate and relevant discussion topics in group work. We have found through youth feedback some community service sites provide greater benefit to the youth we work with. One particular favorite of youth from all zip codes is Muscoot Farms where youth work with horses and help with the community garden. Feedback from youth also consistently includes positive reference to the "eating/food break" part of group- whether it be shared pizza, sandwiches, desert. The shared eating experience of our group has been impacted over the past 18 months due to COVID. We are trying to think of different ways to adress this such as the possibility of pre-"snack pick up" for virutal group when COVID numbers are high.

3. Was community feedback in high-need ZIP codes (A.1.) sought as part of the STSJP plan development?

Yes  No

If yes, please describe how the plan incorporates that feedback; if no, please describe the municipality implementation plan to develop such feedback mechanism during PY 2021-2022.

Same answer as above as verbal feedback is always something that has been fostered. Westchester is in the process of establishing a formalized ability to obtain feedback from all zip codes in Westchester. We believe youth and familial buy in, and relationship building is an extremely important aspect of Probation Supervision and Probation Facilitated programming such as Juvenile Extended Supervision, Juvenile Accountability and Community Service, Juvenile Probation Officers and Linkages. Some STSJP programming designed to keep high risk youth in the community may not be able to derive the same amount of positive youth feedback. Programming such as the Alternatives to Detention program or Electronic Home Monitoing may be better judged by the programs ability to allow the Courts to decrease reliance on detention or out of home placements.

\*Note: If you indicated this program will operate as an FSS, it cannot provide STSJP-RTA services under this program.

3. Please list the ZIP codes this program will target:  
all zip codes in Westchester County

4. Describe the program, including how it is family focused. If you answered "Yes" to Q1 (FSS), be sure to demonstrate how your program meets each requirement of the legislation. Also, please explain how each of the service types selected in Q2 will address the unique needs of youth at that system point, and how those services will aid in the reduction of youth detained and residentially or otherwise placed. If you selected Indirect Services, please list them. (Please refer to the STSJP Annual Plan Development Guide for additional guidance.)

Juvenile Extended Operations: This program has three components: Juvenile Accountantability, Juvenile Community Service and Extended Supervision, which will serve PINS, JD, JO youth on diversion, during the pendency of a court matter, or during formal supervision. This program is comprised of Probation Officers serving youth in the community who present the highest risk and potential for residential placement/detention, conducting intensive supervision, providing familial supports with targeted cognitive behavioral interventions during non traditional work hours. The program also serves as supportive step down from detention for youth and family. JES includes CBI, Interactive Journaling, Girls Circle and parent groups facilitated by trained Juvenile Probation Officers. POs will engage/partner with professional community partners(substance abuse, mental health, medical providers) to provide for gender responsive, trauma informed, resiliency group programming. POs will partner with community organizations to provide education about gangs, sexually transmitted disease, safe relationships-human trafficking, etc.. JES helps to promoted positive adult relationships and foster resiliency with the youth we serve. The program provides for incentives allowing youth to participate in positive community events and provides snacks/food for groups and events as well as journaling notebooks/supplies/CBI- real color workbooks. JES also encompasses community service, an important restorative justice component. In Spring we hope to start a community garden and donate the vegetables to Feeding Westchester. This new endeavor may entail the purchase of some supplies such as gardening tools for a community garden.

5. Is the program capable of being replicated across multiple locations?  Yes  No

**C. PROGRAM 1 PERFORMANCE HISTORY (REFER TO YOUR MUNICIPALITY'S STSJP DATA FILES.)**

1. What, if any, funding did this program receive in PY 2020-2021? If the program was approved in PY 2020-2021, but was not implemented or is anticipated to serve no youth, please choose None.  
 None (If none, skip to section D.)  STSJP  STSJP-RTA

2. Please use the table to record **how many youth (#) were served** by the program between 10/1/2020 and 3/31/2021. Enter zero (0) if not applicable.

Approved Funding	Program Type								Total
	P	EI	ATD/ATPDP				ATP	R/A	
			(PINS)	(JO/JD)	(JD-RTA)	(AO)			
STSJP	0	52	3	11	0	0	35	0	101
STSJP-RTA	0	0			0	0	0	0	0
Total	0	52	3	11	0	0	35	0	101

3. Based on the program's record of youth served, do you anticipate this program serving more or less than its projected capacity on 9/30/2021? Please explain:  
 under capacity- This would be as a result of low numbers due to COVID. All youth under diversion, during the pendency of a case or on formal supervision at risk for detention/placement, participate in JES programming on some level. This program offers long term supportive services engaging and strengthening the youth and family. It allows for officers to intercede/intervene during non traditional hours performing crisis intervention, arranging for parental approved respite options, mediate escalating issues such as curfew violations, school truancy, while engaging with the youth and family at home, and or in the community.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2020 and 3/31/2021. Enter zero (0) if not applicable.

Approved Funding	Program Type							
	P	EI	ATD/ATPDP				ATP	R/A
			(PINS)	(JO/JD)	(JD-RTA)	(AO)		
STSJP	0.00	79.45	21.00	204.00	0.00	0.00	343.62	0.00
STSJP-RTA	0.00	0.00			0.00	0.00	0.00	0.00

5. How does the average length of service compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.  
 Youth in detention tend to have shorter length of stays than youth participating in the JES program. The program length surpasses Detention ALOS in Q4 2020 which is 40.7 days; Juvenile Offenders in detention had the longest ALOS at 101 days while RTA JD youth had the shortest ALOS at 28.  
 This long programmatic period allows Probation Officers to develop positive supportive on-going relationships with youth and family throughout the course of Probation involvement.

6. Will this program's outcomes meet the PY 2020-2021 projected goals by 9/30/2021?

If you selected Indirect Services, please list them. (Please refer to the STSJP Annual Plan Development Guide for additional guidance.)

This program is aimed at reducing disproportionate minority contact of youth with the Court system. Probation Officers conduct diversion adjustment supervision to diminish court involvement thereby lowering youth's exposure to detention and placement. Specially trained Juvenile Probation Officers are responsible for case management, assessments, referrals and planning for all JD appropriate cases for Adjustment. The goal is to afford all appropriate cases an opportunity at Adjustment Services to avoid the youth penetrating the criminal justice system- Court-remands-placment. The program encourages youth skill building and connection to community opportunities to reduce risk and increase protective factors. This program understands that a youth chance for success is weighted heavily by parental/guardian involvements/strengths. Officers work with parents,

making referrals as warranted to strengthen parent capacity and engagement. Youth are not penalized for parents refusal to participate ("my kid got arrested- not me", " fix them") Instead, Officers look to strengthens youths' abilities to be resilient, self directive and resouceful while attempting to engage other positive adult role models in the youth's life such as coaches, school counselor, pastoral minister, aunt/uncle,etc. All youth considered for Diversion adjustment services receive appropriate referrals to community supports. Prescreen assessment are completed to assess needs and strengths. Due to Department policy, we do not attempt to adjust loaded firearm, sex offense and arson cases. Cases whereby victims seek Court access for Orders of Protection, or if the respondent's parent/guardian want Court access are also forwarded to the Presentment Agency. Most cases are extremely serious in nature as Police Department's locally are utilizing pre-diversionary programs for most first and second offenses. The more serious cases are being supervised for up to 5 months. This increased supervision in the community was allowed for in 2020 legislation to promote the likelihood of increasing successful adjustment.

5. Is the program capable of being replicated across multiple locations?  Yes  No

**C. PROGRAM 2 PERFORMANCE HISTORY (REFER TO YOUR MUNICIPALITY'S STSJP DATA FILES.)**

3. Based on the program's record of youth served (Q2), do you anticipate this program serving more or less than its projected capacity on 9/30/2021? Please explain:  
 Undercapacity- Arrest numbers were down during this period; it is believed arrests were only made on the most serious matters. It is believed this was due to COVID.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2020 and 3/31/2021. Enter zero (0) if not applicable.

STSJP-RTA	0.00	0.00			0.00	0.00	0.00	0.00

5. How does the average length of service (Q4) compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.  
 The average lengths of program participation is greater than detention stays. The additional time(30 days) to provide diversion services approved by legislation heightens the Department's ability to provide more intensive wrap around supportive services to youth and families. It increases the Department's ability to successfully adjust cases, avoid referrals to the Presentment Agency and decrease Court involvement. Westchester's Juvenile Delinquency Diversionary program consistently exceed a 90% Adjustment rate for cases which are opened for Diverion/Adjustment efforts.

4. Describe the program, including how it is family focused. If you answered “Yes” to Q1 (FSS), be sure to demonstrate how your program meets each requirement of the legislation. Also, please explain how each of the service types selected in Q2 will address the unique needs of youth at that system point, and how those services will aid in the reduction of youth detained and residentially or otherwise placed. If you selected Indirect Services, please list them. (Please refer to the STSJP Annual Plan Development Guide for additional guidance.)

Linkages provides timely assessments, critical interventions and linkage to supportive mental health, substance abuse and developmental disability services for youth who have been arrested for an offense and will receive diversion services who are at risk of accessing Court. In addition to the comprehensive youth assessment which includes a substantial portion of the report devoted to the impact of familial dynamics, there is followup and assistance in connecting the family to community resources. This parental support promotes youth and family engagement, while addressing issues that brought the youth into the criminal justice system, helping to provide for the best chance of success. Parents with youth who suffer from mental health, developmental disabilities and substance abuse many times suffer from capacity issues that leave them at a loss to navigate the system. This unique intensive assessment program under Director Suzanne Doll provides ongoing support past the assessment and referral stage.

5. Is the program capable of being replicated across multiple locations?  Yes  No

3. Based on the program’s record of youth served (Q2), do you anticipate this program serving more or less than its projected capacity on 9/30/2021? Please explain:

The program is on par for capacity ( XXXXX/50 mid year).

This program was duplicated and enhanced for RTA. There was a separate requested and approved Linkages RTA-STSJP funded program for RTA youth submitted last year. We did not enter into a RTA contract with Linkages as slots remained open in the non RTA program, and the RTA youth were handled under the existing STSJP funds. We did not use the RTA STSJP funding source last year- the RTA funding was not claimed. The RTA youth were serviced under regular STSJP funding as there was available capacity.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2020 and 3/31/2021. Enter zero (0) if not applicable.

STSJP-RTA	0.00	0.00			0.00	0.00	0.00	0.00

5. How does the average length of service (Q4) compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.

ALOS is longer programmatically than detention. Linkages performs an intensive designated assessment; trauma informed and gender responsive. The report focus on family history and dynamics, triggers, substance involvement, mental health history and educational progression providing additional supports to youth and family and assisting in the referral process. The director/clinician serves as a resource for the family. This has proven as a particularly strong resource for parents of youth suffering from developmental delays/cognitive impairments with low IQs. The program length surpasses ALOS in detention Q4 2020 which is approx. 37.5 days for non RTA JDs, 28 days for RTA JD and 40.7 days AOs.

The Westchester Alternatives to Detention Program works with Probation and in concert with community stakeholders. Westchester ATD Caseworkers provide additional intensive community supports for the youth during diversion, the pendency of court matters and during formal supervision to help youth maintain compliance thereby avoiding court intervention, detention or placement. The Westchester ATD Caseworker assists Probation Officers efforts to ensure compliance and promote youth residing safely in the community, through increased community engagement and interactions such as going to the youth's home to make sure they are up for school, or abiding by curfew as imposed by the Court. Caseworkers are skilled in mediation and skill building to improve familial and community relationships (such as child and parent or child/school) as well as crisis intervention. The Program is designed to facilitate increased community, home and school contacts for youth who present the highest risk and potential for residential placement and for high risk juveniles as a step down from detention to the community. The programs contacts are mainly performed during non traditional work hours. These extra supports are tailored to the individualized needs of the youth and family. This Program can be utilized for PINS, non RTA JD/JO and RTA youth in an attempt to prevent cases from going to Court, youth entering detention, as a step down from detention or as a graduated response to attempt to avoid placement. This increased support can assist juveniles in the community providing a positive adult role model. The philosophy of the program is that detention and placement can be prevented/decreased by surrounding youth with positive role models, mentoring and increased supports to keep youth focused and proactively guide them to make healthy decisions. Youth participate approximately 4 months. This program was funded under STSJP and RTA STSJP in 2019-2020 however due to initial low numbers(COVID/Courts) there was available capacity under the regular STSJP funding stream to service RTA youth.

This service will be provided to PINS JO/JD and AO youth. This program will provide voluntary educational advocacy services for probation involved youth (diversion, court involved or post disposition) and their parents to facilitate registration, reenrollment/reentry into the home school district after being dropped from the rolls, enrollment as an unaccompanied minor, and address other registration related issues keeping youth out of/from attending school. Student Advocacy will provide support services and intervention for the resolution of school disciplinary problems including suspensions, and advocate for improved academic support services including services for youth who have faced trauma or have a disability. The program may also provide advocacy during suspension hearings or IEP meetings. The Student Advocacy program will

facilitate linkages to additional youth services in the community to improve educational outcomes. The program will provide advisory support and consultation to the youth and their family in an effort to promote success in the educational setting.

This is a new program in the 2021-2022 STSJP plan we anticipate the Student Advocacy Program will prove itself to be effective and demonstrate positive outcomes benefitting youth and ultimately their families by helping to keep youth in school and promoting educational success. Youth who remain in school will ultimately increase diversionary rates and reduce detention rates, and out of home placements – a small step in addressing the school to prison pipeline. This program will service youth in the Early Intervention, Alternative to Detention/Alternative to Pre-dispositional Placement, and Alternative to Placement service types.

 Frequently training budgets have been drastically reduced and do not allow opportunities for staff to enhance their knowledge and expertise. Funding allows Juvenile Probation Officers and Juvenile Administration assigned to the Bureau of Family Justice to attend trainings and conferences the Department is not usually able to afford on issues and trends concerning youth and families: gender identity, LGBTQ, trauma, resiliency, mental health,

substance abuse, truancy, gangs, etc...Training enhances service delivery by Probation to the youth, families and Court allowing Officers confidence and knowledge to deal with the most complicated situations, while honing their expertise. When staff is trained in complex issues pertaining to the risks and needs of juveniles and their families, they are better equipped at addressing their needs, enhancing their supervision practices and increasing positive outcomes. This promotes better outcomes for youth and their family. Funds may also be used for OT costs associated to attend training during non traditional work hours. Detention workers, County Attorneys, appropriate in house service providers working in the juvenile justice continuum may also participate in these trainings to reduce the need for detention and placement.

If you selected Indirect Services, please list them. (Please refer to the STSJP Annual Plan Development Guide for additional guidance.)

Electronic Home Monitoring can provide full time accurate tracking in locations where GPS is not available such as indoors. This targeted intervention can be utilized on high/greatest risk youth who are at risk of remand or placement, as a step down from detention, in lieu of detention or disposition of placement. Youth are anticipated to be ordered to between 2 weeks to 2 months of EHM by the Court depending on risk level and youth's compliance with this program, other STSJP programming and orders of the Court. Funding will cover the cost of

equipment per unit and when necessary OT to install equipment during non traditional work hours to accommodate working parents'/guardians' schedules. This program was awarded RTA STSJP funding in the 2019-2020 and 2020-2021 STSJP plans however the program was not instituted.

In last year's plan we redistributed/shifted requested funding from Data Prison Systems to be able to offer this program to the Courts for non RTA adjudicated youth under regular STSJP funding to attempt to lower detention admissions, shorten LOS in detention and lower placement for non RTA court involved youth as well.

West. Mediation Centers of Cluster Community Services(WRMC) proposes to provide gender responsive, trauma informed services in the areas of mediation, restorative justice and conflict coaching for RTA and non RTA youth including PINS during adjustment, and during the pendency of Court matters. WRMC will assess youth and family, provide critical crisis interventions to start dialogue in cases of familial

disconnect/dysfunction and provide skill building to increase effective communication in an effort to avoid detention. WRMC Restorative Justice Program can facilitate mediation cases, including school attendance issues, family group mediation, parent/teen mediation to reduce community conflicts/tension to alleviate the need for remand. 107 units of 2 hour sessions is the equivalent of serving 35 youth with 3 two hour sessions. Not all remediation can be resolved adequately in 3 sessions and some remediation may require additional sessions.

The program has three components: Juvenile Accountantability, Juvenile Community Service and Extended Supervision, which will serve RTA JD/AO and YO(AO only) youth. This program is comprised of Probation Officers serving youth in the community who present the highest risk and potential for Court access, residential placement or remand to detention. This program allows for intensive supervision and supports to youth on diversion, during the pendency of Court and/or during formal supervision. Through group work and increased community engagement it provides familial supports with targeted cognitive behavioral interventions during non traditional work hours. The program also serves as supportive step down from detention for youth and family. JACS includes groups such as CBI, Interactive Journaling, Girls Circle and parent groups facilitated/cofacilitated by trained Juvenile Probation Officers. POs engage/partner with professional community partners(substance abuse, mental health, medical providers) to provide for gender responsive, trauma informed, resiliency group programming. POs partner with community organizations to provide educational groups about gangs, sexually transmitted disease, safe relationships-human trafficking, etc. Officers conduct additional field contacts with youth and families, at home and in the community during non traditional work hours. Similar to GIVE, Officers display an increased presence in the community after crisis. JACS helps to promoted positive adult relationships and foster resiliency with the youth we serve. The program also provides for incentives allowing youth to participate in positive community events and provides snacks/food for groups and events as well as journaling notebooks/supplies/CBI- real color workbooks. JACS also encompasses community service, an important restorative justice component. It is important for youth to learn to be part of and give back to their neighborhoods- they need to develop a connection.

This is not contracted programming as such unused funds are not claimed.

3. Based on the program's record of youth served (Q2), do you anticipate this program serving more or less than its projected capacity on 9/30/2021? Please explain:

Program capacity could serve up to 300, having served 114 youth during the six month period of 10/1/19-3/31/2020. Due to COVID we will not reach max. capacity for this program. This program is not contracted. As a result if we go over capacity the Probation Department will be able to absorb those extra numbers. When we are under capacity, the money will not be spent and thus not claimed. This program is based on levels of intensity-contact heightens for youth more at risk of accessing court, detention and/or placement. It also allows for the ability to provide additional supports for youth and families most vulnerable/in need. As such the numbers the program will serve will fluxuate depending on the degree of services provided to each youth and family during the entirety of their case. For the 2020-2021 STSJPD programmatic year, unused money allocated to the program was NOT claimed- the same will apply for the 2021-2022 programmatic year as COVID has made some aspects of programming difficult while following Covid protocols.

4. Please use the table to record the **average length of service (days)** for youth who exited the program between 10/1/2020 and 3/31/2021. Enter zero (0) if not applicable.

5. How does the average length of service (Q4) compare to what you would expect for that service type? For ATD/ATPDP and ATP service types, compare with the average length of stay for youth who were in detention and residential placements during the same time period.

Program participation runs throughout the course of probation diversion/formal supervision. The program length surpasses ALOS in Q4 2020 which is approx. 28 days for RTA JD and 41 days for AO. This programming period allows Probation Officers to develop positive ongoing supportive relationships with youth and family.

Westchester Jewish Community Services Juvenile Starting Over Program conducts clinical risk assessments for firesetters and youth displaying problematic sexualized behaviors and provides treatment for our RTA youth engaging in sexually offender behaviors. In Westchester, Probation recommends community based Probation supervision on 9 out of 10 juvenile sex offense cases. Timely interventions including psycho-sexual clinical risk assessments and treatment, beginning at the earliest stages, benefit the youth, the family and the community, allowing for the greatest chance of success. Clinical assessments and the initiation of treatment can occur during the pre-dispositional process or post adjudication during supervision. Youth do not have to have a sexual offense adjudication to participate in this program. Youth who display problematic sexualized behaviors may participate in this twelve month program; Youth participation in this program can be extended for an additional twelve months pending further evaluation, determinate upon psycho social and clinical risk assessments. This program may serve up to 47 youth referred by Probation.

The RTA Interpersonal Violence Program (implemented by URI) for diversionary and adjudicated RTA youth is a trauma informed approach from the NYS recommended Deluth Model utilizing evidence based Moral Reconation Therapy (MRT). This Cognitive Behavioral Therapy content for batterers and victims will allow URI to address those youth who have been involved in family, intimate partner, or community violence. This program was awarded STSJP RTA funding for the 2019-2020 and 2020-2021 however the program was not implemented.

If you selected Indirect Services, please list them. (Please refer to the STSJP Annual Plan Development Guide for additional guidance.)

Bravehearts MOVE New York in partnership with Children's Village develops and operates peer led programming, "motivational meetings" and policy improvement initiatives, all while utilizing a Peer to Peer model in which young professionals with former lived experiences work with RTA 16 and 17 year olds. The program would work with youth during the pendency of their Court case, including AO youth during VACS, under professional supervision. Braveheart Peers would provide direct mentorship, assisting in system navigation and as a service connection support for youth impacted by the juvenile justice system.

**PART III – Goals for PY 2021-2022**

Please set the municipality's goals for its programs to achieve in PY 2021-2022. State-required outcomes have been included with space for you to identify what programs in **Part II-Program Details** will serve youth within each service domain. Goals are focused by service type and should reflect the percentage of youth expected to achieve the outcome described. **Note:** Outcomes are only recorded for youth once they have left the program; this may represent a subset of all the youth served during the period. Goals should reflect high, yet realistic, expectations for the programs.
