**Supervision and Treatment Services for Juveniles Program
Monitoring Report**

NOTES

1 Program Type

STSJP funded programs receive State reimbursement for 62% of their total program costs. In 2017, the STSJP continuum was expanded to include the following direct service categories: Prevention, Early Intervention, Alternatives to Detention (ATD) for Juvenile Delinquents (JD), Juvenile Offenders (JO) and Persons in Need of Supervision (PINS), Alternatives to Placement (ATP), and Reentry/Aftercare Programming. Under the 2019 PINS reform legislation, as of January 1, 2020 it is no longer permissible to place PINS youth in detention facilities. Instead, the court may order a PINS youth to pre-dispositional placement. In light of this change, the STSJP continuum of services was amended to include Alternatives to Pre-Dispositional Placements (ATPDP) for PINS cases.

STSJP-RTA funded programs receive access to 100% State reimbursement for RTA-related expenditures under the Raise the Age legislation. In 2018, STSJP was expanded to include the following direct service categories under RTA funding: Prevention, Early Intervention, Alternatives to Detention (ATD) for Juvenile Delinquents (JD) and Adolescent Offenders (AO), Alternatives to Placement (ATP), and Reentry/Aftercare Programming. STSJP-RTA programs must be approved on the Municipality's RTA Fiscal Comprehensive Plan *and* the STSJP Annual Plan to be included in this section.

Indirect Services. STSJP and STSJP-RTA funds can also be used to provide indirect services. This report excludes indirect services (e.g., educational liaison, technical support, transportation, one-visit assessments) since those services do not target specific youth, or youth whose outcomes can be tracked during a continuous enrollment period.

2 Total Served

These numbers may include duplicate counts; youth could be counted more than once if they were served by one program, released, and then admitted to the same or another program during the reporting period.

3 Race

Counts may not sum to Total Served and percentages may not sum to 100% because multiple race selections are possible for each youth.

4 Average Age at Program Start

Data for this Monitoring Report come from the County Summary Sheets, which include program-level data rather than youth-level data. If the locality funded multiple programs of the same type (e.g., Prevention) during the reporting period, Average Age at Program Start was calculated by weighting the average reported for each program by the number of youth that program served.

5,6 Average Length of Service

Percentages are out of the number served presented in Table 1 for STSJP funded programs and Table 4 for STSJP-RTA funded programs.

Data for this Monitoring Report come from the County Summary Sheets, which include program-level data rather than youth-level data. If the locality funded multiple programs of the same type (e.g., Prevention) during the reporting period, Average Length of Service was calculated by weighting the average reported for each program by the number of youth that program released.

7 Program Involvement

"Attended at least 90% of all required program activities" is the only Program Involvement or Outcome item that includes an option for *Not Applicable (N/A)*. All other items include three options: *Yes*, *No*, and *Information Not Collected*. For the sake of simplicity, all *Information Not Collected* and *N/A* responses are included under Unknown for the purposes of this report.

8 Outcomes

Youth outcomes and program involvement are reported in the period coinciding with their exit from the program. Outcomes include events that occurred during program involvement (i.e., between a youth's Program Start Date and Program End Date).

General

Numbers in this report may not match those reported elsewhere due to data cleaning for accuracy and county level aggregation.
