

Report Identification Number: NY-19-027

Prepared by: New York City Regional Office

Issue Date: Aug 30, 2019

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Date of Death: 03/25/2019
Initial Date OCFS Notified: 03/25/2019

Presenting Information

The narrative of the fatality report alleged that sometime between 12:00AM-1:00AM on 3/25/19, the BM fell asleep in her bed with the six-week-old SC sleeping next to her. At approximately 6:30AM, the BM awoke and observed the SC to be unresponsive. EMS was called to the residence and attempted to resuscitate the SC. The SC was then pronounced dead at 6:51AM at the residence.

Executive Summary

On 3/25/19, the SC passed away while in the BM's care. A review of the case records revealed at about 1:00AM on 3/25/19, the BM fell asleep while feeding the SC in her bed. At about 6:30AM, the BM woke up and found the SC laying on her side unresponsive. The BM immediately alerted the BF about the SC's condition and asked him to call the ambulance. The BM began performing CPR on the SC while the BF called a private religious ambulance. The ambulance responded to the home in minutes and took over the CPR on the SC. The ambulance team pronounced the SC dead at the scene. According to the ME, the SC's cause and manner of death was undetermined.

On 3/25/19, ACS initiated the investigation by contacting the family, LE, the ME and hospital staff. The explanation provided by the family seemed consistent and plausible in that the BM was co-sleeping with the SC when he was found unresponsive. The family did not report any underlying medical issues for the SC. The family did not consent to an autopsy for the SC due to their religious belief; however, a magnetic resonance imaging was conducted and there was no suspicion of abuse or neglect to the SC. LE stated based on the information obtained from the BPs and the ME, there was no criminality involved in the SC's death and no arrests were made.

During the investigation, ACS discussed safe-sleep practice with the BM at every home visit. During the visits, ACS assessed the SS' crib to be clean and free of clutter. The SS received early intervention services in the home and in the school. The SS' providers did not report any concerns for the SS' care. Additionally, the family's service provider stated the parents were engaging and complying with all service recommendations. There were no concerns for the SS.

ACS maintained weekly contact with the family and always observed the SS to be free of marks and bruises. The home did not pose any safety or health hazards to the SS.

On 5/28/19, ACS unsubstantiated the allegations of the report against the BM. ACS based its decision on the ME's report which stated the SC's final cause and manner of death was undetermined. The family was offered PPRS; however, they declined services as they were receiving supportive services through a Community Based Organization.

LDSS Response

On 3/25/19, ACS contacted the family, LE, the ME and hospital staff. The information provided by the family revealed the BM was co-sleeping with the SC when he was found unresponsive. The family did not report any underlying medical issues for the SC. The paternal grandparents (PGPs) described the BM as an amazing mother and a very strong woman. The PGPs stated they were willing to be a support for the parents.

The ME stated the family declined an autopsy for the SC due to their religious belief; however, a magnetic resonance imaging was conducted and there were no signs of trauma on the SC. The ME asked the BM to re-enact the events that occurred after discovering the SC unresponsive. The ME stated the explanation provided by the BM seemed consistent and plausible.

LE assessed the SS and deemed him safe. LE stated that based on the preliminary findings, there was no suspicion of abuse to the SC. The death appeared accidental and no arrests were made pending further investigation.

Also on 3/25/19, the SS' therapist did not report any concerns for the SS under the care of his parents. The SS was doing very well and developing appropriately. The therapist denied observing the children with any marks or bruises

Later that same day, the children's pediatrician reported that the SS's immunizations were current and there were no concerns for his care.

On 3/26/19, the family's service provider stated the parents were engaging and complying with all service recommendations. There were no concerns for the SS under the parents' care. The family would be provided trauma grief counseling, and bereavement therapy to help them deal with their loss.

On 3/27/19, ACS held a child safety conference (CSC). The CSC did not seek court intervention but recommended services for the family. The parents agreed to the service plan.

On 3/28/19, the SS' school did not report any concerns for the SS and the family. The SS maintained his normal schedule

by attending day care daily despite the family's loss.

On 4/22/19, the ME reported that the SC's final cause and manner of death were undetermined.

On 5/7/19, ACS received the drug and alcohol results for the parents. The parents tested negative for all drugs and alcohol.

Between 4/8/19 and 5/24/19, ACS made multiple home visits to th family. During the visits, ACS discussed safe-sleep practice with the family. There were no safety concerns reported or identified. Based on ACS' assessment, the SS was deemed safe in the care of his parents and did not experience any adjustment issues. He continued to attend school daily and received early intervention services at school and in the home weekly.

On 5/28/19, ACS unsubstantiated the allegations of the report against the BM.
