## Presenting Information

The New York City Administration for Children's Services (ACS) received an SCR report on 9/25/2023, which alleged the mother (SM) became physically aggressive towards the 14-year-old child (SC). The mother stabbed the child in the back causing the child to die from her injuries. The mother then stabbed herself, causing her own death.

## Executive Summary

This report concerns the death of a 14-year-old child which occurred while in the care of her mother. The mother stabbed the child in the back, puncturing her lung, which caused the child's death. The mother then stabbed herself in the chest and slit her throat which caused her own death. The bodies of the mother and child were found by the mother's boyfriend who broke into the home after he became concerned after attempting to contact the mother for several days with no reply.

ACS received the SCR report and coordinated their response with law enforcement. Law enforcement informed ACS the mother's boyfriend attempted to file a missing person report and was denied. He then went to the home and gained entry by breaking a hole in the wall and reaching his hand inside to unlock the door. He then found the bodies of the mother and child inside.

An autopsy was performed, and the medical examiner confirmed the child was stabbed in the back, punctuating her lung, and died due to her injuries. The mother sustained self-inflicted injuries and died as a result. The medical examiner stated the deaths may have occurred on or before 9/22/2023 due to the conditions of the bodies. The final autopsy report was pending at the time ACS closed their investigation.

ACS substantiated the allegations of DOA/Fatality, Inadequate Guardianship and Lacerations, bruises, Welts against the mother regarding the child. There were no surviving children, and the investigation was closed.

### LDSS Response

ACS received the SCR report on 9/25/2023 and coordinated their response with LE. LE informed ACS the bodies of the SC and the SM were found by the SM’s boyfriend (OA) after he became concerned after not hearing from the SM for several days. The OA attempted to file a missing persons report on the SM and was turned away by LE. The OA then went to the apartment and broke part of the wall to the apartment so he could reach in and open the door, finding the bodies inside the home.

LE stated the SC had been stabbed once in the back and died from the injury. LE stated it appeared the SM then killed herself by stabbing herself in the chest and slitting her own throat. LE informed ACS the BF lived out of state, signed his rights away several years prior, and had no contact with the SM or SC.

An autopsy was performed and confirmed the SC died from a punctured lung sustained when she was stabbed in the back. The SM had hesitation wounds to her wrists, a self-inflicted stab to her chest, and had slit her own throat. The death was ruled a homicide, though a definitive cause of death was not available at the time the investigation was closed by ACS as the final autopsy report was pending.

ACS interviewed the OA who confirmed finding the bodies of the SM and SC. The OA stated he had delivered a couch to the home several days prior and had been attempting to contact the SM for several days. The OA attempted to file a missing person report and was denied by LE. The OA stated he then went to the apartment and tried to gain entry, eventually using an object to break the wall, reach his hand through, and open the door from the inside. Upon entry, the OA found the bodies of the SM and SC and contacted LE. The OA stated he had no previous concerns for the SC and described the relationship between the SM and SC as amazing.

ACS interviewed the MGM who lived out of state. The MGM stated the SM sustained a brain injury in a car accident in 2016 and never seemed the same again. The MGM had no previous concerns for the SC in the care of the SM. ACS interviewed staff at the SC’s school. The SC was new to the school and no concerns were identified for the SC in the care of the SM and staff stated the SC was adjusting well to the school.

ACS substantiated the allegations of DOA/Fatality, IG, and L/B/W and closed the investigation. The OA and MGM were offered services in relation to the death of the SC which were declined.
