

Report Identification Number: NY-23-095

Prepared by: New York State Office of Children & Family Services

Issue Date: Mar 12, 2024

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services had an open investigation or a CPS monitored services case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 22 day(s)

Jurisdiction: New York
Gender: Male

Date of Death: 10/11/2023
Initial Date OCFS Notified: 10/11/2023

Presenting Information

On 10/11/2023, the New York City Administration for Children's Services (ACS) received an SCR report that alleged the death of the 22-day-old subject child which occurred that day. Around 3:00 AM, the mother put the subject child to sleep with her in the adult bed. The mother woke around 6:00 AM and found the subject child in the bed and not breathing. The mother went for help and 911 was contacted. The subject child was transported to the hospital by emergency medical services and was pronounced deceased at 6:46 AM. The SCR report alleged that the unsafe sleep environment contributed to the death of the subject child.

Executive Summary

This report concerns the death of the 22-day-old subject child which occurred on 10/11/2023. At the time of his death, the subject child resided with his mother in a facility. It was unknown what, if any, contact the subject child had with the father. ACS determined there was a surviving 4-year-old paternal half-sibling who resided with his mother and had no contact with the father in over 2 years. The half-sibling was assessed to be safe in the care of his mother.

On 10/10/2023, the mother missed her morning dose of prescribed medication which she took instead around 7:30 PM, making her drowsy. Between 12:30 AM and 1:00 AM on 10/11/2024, the mother fed and burped the subject child and placed the child to sleep next to her in a twin bed. The subject child was placed to sleep on his back with a blanket covering his lower body and the mother's arm around his waist. Around 6:00 AM, the mother woke and observed the subject child was face-down, not breathing, and cold to the touch. The mother alerted staff at the facility who initiated life-saving measures and contacted emergency medical services. The subject child was transported to the hospital where life-saving measures continued; however, he was pronounced deceased at 6:43 AM.

An autopsy was completed, and the Office of the Medical Examiner reported to ACS there were no outward signs of trauma observed during the preliminary autopsy and no findings that would explain the subject child's death; however, the final autopsy report and death certificate remained pending, awaiting the results of laboratory testing. Law enforcement noted their investigation remained open awaiting the results of the autopsy; however, there were no charges or arrests as of this writing.

The allegation of Inadequate Guardianship was substantiated against the mother. The Investigation Conclusion Narrative noted the mother created an unsafe sleep environment when she used prescription medicine that caused her to be drowsy and then co-slept in an adult bed with the subject child. The allegation of DOA / Fatality was unsubstantiated, and the Investigation Conclusion Narrative noted there was no official cause of death or other sufficient information from the Office of the Medical Examiner to determine that the mother was directly responsible for the death of the subject child.

The mother and father did not speak with ACS and thus ACS was unable to provide fatality related or other services. The investigation was indicated and closed on 12/10/2023.

LDSS Response

ACS initiated an investigation immediately upon receipt of the SCR report on 10/11/2023. ACS gathered information from law enforcement, hospital staff, facility staff, and the office of the medical examiner.

ACS made multiple attempts to locate and contact the mother and father through telephone calls, letters, and home visits; however, the parents did not respond to any attempts at contact. As such, the mother and father could not be interviewed regarding the death of the subject child.

ACS identified a 4-year-old paternal half-sibling who resided with his mother. ACS assessed the half-sibling to be safe in the care of his mother. The mother of the half-sibling stated she had no contact or locating information for the father and reported the father had no contact with the half-sibling in over two years.

ACS attempted to gather information from medical providers and facility staff; however, were unable to do so without releases of information signed by the mother. ACS was able to verify the mother had been counseled and educated about safe sleep practices.
