

Report Identification Number: NY-23-110

Prepared by: New York State Office of Children & Family Services

Issue Date: Apr 29, 2024

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services had an open investigation or a CPS monitored services case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Presenting Information

The New York City Administration for Children’s Services (ACS) received an SCR report on 11/4/2023, which alleged the 1-year-old child (SC) was put to sleep on his back in a pack and play at approximately 5:00 PM by the mother (SM). The father (SF) checked on the child at approximately 6:30 PM and found the child on his stomach and unresponsive. The father yelled for help and initiated CPR. The mother called 911 and the child was transported to the hospital by ambulance where he was pronounced dead. The mother and father did not have an explanation for the child’s death.

Executive Summary

This report concerns the death of a 1-year-old child which occurred while in the care of his mother and father. The child was placed in a pack and play by the mother to take a nap at approximately 4:30 PM. The mother left the bedroom to make dinner. At approximately 6:20 PM, the mother asked the father to check on the child and wake him. The father entered the room and found the child unresponsive, yelled for help, and initiated CPR. The child was transported to the hospital where he was pronounced dead.

The mother and father were interviewed by phone and in their home within the first 24 hours following the death of the child. The mother and father confirmed the narrative of events and denied the child had any pre-existing medical conditions which would have contributed to his death. The mother and father were provided information on bereavement services. The mother and father declined any further contact from ACS throughout the investigation.

ACS interviewed the medical examiner and law enforcement assigned to the investigation. The medical examiner found no signs of abuse or trauma, and there were no external factors identified in the home which would have contributed to the child’s death. Law enforcement stated they did not think there would be any criminal charges, pending the final autopsy report. The final autopsy report was not available at the time the investigation was closed.

The allegations of DOA/Fatality and Inadequate Guardianship against the parents regarding the child were unsubstantiated and the investigation was closed.

LDSS Response

ACS received the SCR report and coordinated their response with LE. LE informed ACS the SM and SF stated the SM put the SC down for a nap at approximately 4:30 PM and then went to make dinner at approximately 5:00 PM. At approximately 6:20 PM, the SF went to the bedroom to wake the SC for dinner and found the SC face-down and unresponsive. The SM called 911 while the SF initiated CPR and the SC was transported to the hospital where he was pronounced dead.

ACS interviewed the SM and SF by phone initially. The SM and SF confirmed the events as reported to ACS by LE. The SM and SF denied the SC had any medical issues prior to his death and stated the SC rolled and moved a lot while asleep. The SM and SF stated there were no items in the pack and play with the SC aside from a blanket he was asleep on top of. The SM and SF had no further explanation for the SC's death. ACS provided the parents with information on services in relation to the death of the SC. The SM and the SF declined to speak further with ACS for the duration of the investigation.

ACS interviewed extended family members including the maternal aunt, paternal aunt, and paternal grandmother. No concerns were identified for the care of the SC by the SM and the SF.

ACS interviewed the ME LE assigned to the investigation of the SC's death. The ME stated an autopsy was completed and the ME found no identifiable external factors that could have contributed to the SC's death. The final autopsy report was pending at the time the investigation was closed. LE stated they did not expect to press criminal charges unless the final autopsy report contained unexpected information that would require further investigation.

The allegations against the SM and the SF regarding the death of the SC were unsubstantiated and the investigation was closed.
