

Report Identification Number: RO-18-002

Prepared by: New York State Office of Children & Family Services

Issue Date: May 29, 2018

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child's family; any extraordinary or pertinent information concerning the circumstances of the child's death; whether the child or the child's family received assistance, care or services from the social services district prior to the child's death; any action or further investigation undertaken by OCFS or the social services district since the child's death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child's household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child's siblings or other children in the household.**

OCFS' review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS' assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 7 year(s)

Jurisdiction: Monroe
Gender: Female

Date of Death: 01/20/2018
Initial Date OCFS Notified: 01/20/2018

Presenting Information

The 7-year-old child went to bed on 1/19/18 at 10PM. The following morning, 1/20/18, around 8:30AM, the child was found unresponsive. The child was found by her mother, father, aunt, and uncle as they went in to see her after they woke up. The aunt called 911 after the child was found unresponsive. She was an otherwise healthy child with no prior medical issues or visible injuries that would have caused her death. The child's death is suspicious and all adults were listed as alleged subjects. The 3-year-old female surviving sibling had an unknown role.

Executive Summary

This fatality report concerns the death of a 7-year-old child who died on 1/20/18. A report was made to the SCR on the same date regarding the death and alleged lack of medical care by the mother and father. There was a 6-year-old surviving sibling.

Monroe County Department of Human Services (MCDHS) coordinated efforts with law enforcement upon receipt of the report. An autopsy was performed; however, the medical examiner's report was pending at the time of this writing.

On 1/20/18, the father awoke around 7AM, checked on the child and found her unresponsive. The father called 911 and the child was taken by ambulance to the hospital where she was pronounced dead. The mother and father had last seen the child alive around 10PM the previous night when they put her to bed.

MCDHS gathered information about the child's death from the mother, father, hospital staff, and a community agency. MCDHS contacted collaterals such as the children's school, physician, and law enforcement.

Several home visits were made and collaterals were interviewed. Grief counseling and burial assistance were offered to the family. The family had obtained supportive services from a local community agency they had been working with. MCDHS completed required reports and safety assessments accurately and on time. The case remained open at the time of this writing.

LDSS Response

On 1/20/18, MCDHS received the fatality report from the SCR. MCDHS initiated their investigation within 24 hours and coordinated efforts with LE. MCDHS contacted the source of the report, completed a CPS history check, and notified the ME and DA of SC's death. There was a 6-year-old surviving sibling living in the home.

MCDHS completed a home visit on 1/20/18 to assess the safety of the SS and interview SM and SF. There were no concerns for the SS during this visit. Both parents stated they last saw SC around 10PM the night before (1/19/18). SM heard SC get up and use the bathroom around 5AM on 1/20/18. The parents said SC shared a room with her sister (SS) and denied SC had been sick or taking any medications. SC was obese and the parents said she had gained a lot of weight since moving approximately 2 months ago. The SC did suffer from sleep apnea and began sleeping with an oxygen mask but sometimes it would come off during the night. SF said SC had been using the oxygen the past 4-5 nights prior to her death. The father woke up around 7AM on 1/20/18 and found SC not breathing. It is unknown if the oxygen device was on or off SC. He called 911 and said his sister-in-law who speaks English also called 911. EMS arrived and transported SC to the hospital where she was pronounced dead. Interpretation services were used while interviewing the family.

MCDHS obtained information from EMS who reported there were several people in the home that day but were unable to get much information as nobody in the home at the time spoke English.

MCDHS spoke with the attending doctor in the emergency department where the child was brought. The doctor reported no obvious signs of trauma and said the child was in cardiac arrest when she arrived. The doctor said the child was morbidly obese and the family reported she had a history of sleep apnea.

The family moved to the United States from a different country and said the child's breathing became worse after they moved. The parents brought SC to the doctor for her breathing issues and were awaiting additional doctor's appointments for further testing. SC was last seen by her doctor on 1/10/18 and had a follow up appointment scheduled for 1/22/18. The parents reported the SS was hospitalized when she was 3 years old for difficulty breathing and other medical concerns. The parents said they had a younger child who "died the same way" before moving to the United States. The record did not reflect any further details on that child's death. SM and SF denied anyone in the home abused drugs or alcohol, or had mental health issues, and denied any domestic violence concerns. The SS was being evaluated to see if she was susceptible to this condition.

The family had no CPS history. LE found no criminality in the case. The autopsy report was pending at the time of this writing and the case remains open.
