

Report Identification Number: SV-16-019

Prepared by: Spring Valley Regional Office

Issue Date: 12/16/2016

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 1 month(s)

Jurisdiction: Nassau
Gender: Male

Date of Death: 04/07/2016
Initial Date OCFS Notified: 04/11/2016

Presenting Information

On 4/1/16, the subject child was found unresponsive by the SM while at home. The SC was transported to the hospital by EMS. It was determined SC was in cardiac arrest. After testing, hospital states there were no signs of trauma, physical injury or medical reason for the cardiac arrest. The SC was taken off ventilator on 4/7/16 and pronounced deceased at 1:51 p.m. The case will be referred to medical examiner.

Executive Summary

On April 7, 2016, the Subject Child (SC) passed away after being removed from life support, while hospitalized. An SCR report was received by Nassau County Department of Social Services (NCDSS) on April 1, 2016 with allegations of Internal Injuries and Inadequate Guardianship against the Subject Mother (SM) after Subject child (SC) was found unresponsive with blood coming from the nose and transported to the local hospital. The father and the four year old siblings had no role.

The SC was in the pediatric ICU from April 1, 2016 to April 7, 2016 and underwent numerous medical testing. There were two CT scans done and no bleeding, fractures, or trauma had been found. An ophthalmologist exam presented no retinal hemorrhage or bleeding in the eye. During the course of the investigation, it was revealed that the subject child had arrested in the home, was down for approximately forty minutes, and did not receive oxygen to the brain. As a result, SC sustained significant brain damage. SC would not be able to survive off life support and have any meaningful interactions. On April 7, 2016, Subject child's parents decided to remove SC from life support and SC passed away shortly after. Subject child's case has been referred to the Nassau County Medical Examiner's Office. There was o new SCR report filed as there was no reasonable cause to suspect Child abuse or neglect.

The investigation was closed on April 25, 2016. The allegations on the report were determined to be unsubstantiated regarding the SM. The safety of the surviving sibling was ascertained and the Safety Assessments as well as Risk Assessment Profile (RAP) were appropriate, timely, and accurately reflected the circumstances of the case. Appropriate collateral contacts were made and there was no involvement by law enforcement. NCDSS contacted medical professionals and family relatives. The family was offered bereavement counseling. SM has commenced participating in therapy. There were no additional services needed for the family.

LDSS Response

At the time of the child's death on 4/7/16, Nassau County Department of Social Services, (NCDSS), was conducting an investigation into the allegations registered on the 4/1/16 SCR report. NCDSS did make appropriate collateral contacts including hospital staff, community resources, and relatives. There was no involvement by law enforcement. Subject Mother, Subject Child's Father and other persons named on the report were interviewed as well as observed, and the allegations were discussed.

Home visits to assess the safety and well-being of subject child's 5-year-old sibling, were made and contact was maintained throughout the course of the investigation. NCDSS completed all Safety Assessments as well as Risk Assessment Profile (RAP) appropriately and in a timely manner. The safety assessments and RAP did accurately reflect the circumstances of the case. The case notes were well documented and comprehensive. There was documentation of supervisory consultations highlighting the events of the case being deliberated and directives were imparted.

The investigation was closed on April 25, 2016. The allegations on the report were determined to be unsubstantiated regarding the SM. The family was offered bereavement counseling. SM has commenced participating in therapy.
