

Report Identification Number: SV-21-024

Prepared by: New York State Office of Children & Family Services

Issue Date: Nov 16, 2021

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 12 year(s)

Jurisdiction: Suffolk
Gender: Female

Date of Death: 06/14/2021
Initial Date OCFS Notified: 06/14/2021

Presenting Information

Suffolk County Department of Social Services (SCDSS) received the SCR report on 6/14/2021 which alleged that on the same date, the 12-year-old subject child (SC) was not being adequately supervised by the father (SF) and accessed the above-ground pool. The mother (BM) returned to the home at approximately 7:00 PM and the SC was found unresponsive in the pool at approximately 7:10 PM. 911 was called and EMS responded to the home, attempted to resuscitate the SC, and transported her to the hospital where she was pronounced dead.

Executive Summary

This report concerns the death of a 12-year-old child which occurred while under the supervision of her father. The child was last seen in the family's above-ground swimming pool at approximately 6:30 PM and was found unresponsive in the pool at approximately 7:10 PM.

The child was home with her mother, father, 15-year-old sibling, and 8-year-old sibling when she asked her mother if she could use the pool. The mother gave the child permission to go in the pool, and then left for a dental appointment. The 15-year-old sibling was in the back yard mowing the lawn, observed the child in the pool, and when she was finished mowing the lawn, no longer saw the child in the pool and assumed she had gone inside the house. The father was inside the home working on the computer and the 8-year-old sibling was at a friend's house at the time of the incident. When the mother returned home, she located the child in the pool, unresponsive.

The child was transported to the hospital by emergency medical services and pronounced dead. The child was described by the family as a very good swimmer and the depth of the pool was measured to be 3 feet 9 inches. The child was measured to be 5 feet 5 inches. The preliminary cause of death was believed to be an accidental drowning and the medical examiner believed the child may have had a medical emergency prior to drowning. The final autopsy report had not been issued at the time the investigation was closed. SCDSS offered the family services in relation to the death of the child which were declined by the family. The allegations of Lack of Supervision, DOA/Fatality and Inadequate Guardianship against the SF were unsubstantiated.

LDSS Response

SCDSS received the SCR report and coordinated their response with LE. LE informed SCDSS that the SC was found unresponsive in the pool by the BM after she returned home from a dental appointment. The SC was last seen in the pool by the 15-year-old SS between 6:30-7:00 PM.

SCDSS interviewed the family with LE present. The BM stated that the SC asked to go in the pool around 6:15 PM and was given permission to do so. The BM then left the home at 6:30 PM for a dental appointment, leaving the SC in the care of the SF. The SF was inside the home working at the computer and the 15-year-old SS was outside mowing the lawn. The SF did not know the SS was in the pool when the SM left the home and believed she was in her bedroom. The 15-year-old SS confirmed seeing the SC in the pool at 6:15 PM while she was mowing the lawn. When she was finished mowing, she no longer saw the SC in the pool and assumed she had gone inside. The BM returned to the home at approximately 7:00 PM and asked the SF where the SC was. The SF stated he believed she was in her room, and the BM went to check on her. When the BM did not find the SC, she went outside to check the pool and located the SC unresponsive. 911 was called, EMS responded to the home, and the SC was pronounced dead after being transported to the hospital. The 8-year-old SS was not home at the time of the incident and disclosed no knowledge of what occurred.

All family members described the SC as an excellent swimmer and she was often allowed to be in the pool unsupervised. The BM stated that the SC had been diagnosed with a mild form of autism, had a learning disability, and additional services were being put in place for the 2021-2022 school year. There were no concerns identified for the health of the child by her pediatrician or developmental pediatric specialist and no physical impairments had been diagnosed in the SC.

LE stated that the depth of the water in the pool was measured to be 3 feet 9 inches and that the SC was measured during the autopsy to be 5 feet 5 inches. The autopsy showed no signs of head or neck trauma that would have indicated the SC was injured and unable to stand up to avoid drowning. The ME identified the preliminary cause of death to be accidental drowning. The ME could not preliminarily rule out that the SC suffered a medical emergency prior to drowning. The final autopsy results were pending at the time the investigation was closed. LE did not anticipate any criminal charges against the SF, and the LE investigation remained open pending the final autopsy results.

SCDSS interviewed all family members and obtained additional information from relevant collateral contacts. An unsubstantiated determination of the allegations of Lack of Supervision, DOA/Fatality and Inadequate Guardianship against the SF were made in congruence with the evidence gathered. The family was offered services in relation to the death of the SC which were declined. The investigation was closed prior to the final autopsy report being made available to SCDSS.
