

**Report Identification Number: SY-15-028**

**Prepared by: Syracuse Regional Office**

**Issue Date: 2/11/2016**

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child's family; any extraordinary or pertinent information concerning the circumstances of the child's death; whether the child or the child's family received assistance, care or services from the social services district prior to the child's death; any action or further investigation undertaken by OCFS or the social services district since the child's death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child's household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child's siblings or other children in the household.**

OCFS' review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS' assessment and the performance of these agencies.

# NYS Office of Children and Family Services - Child Fatality Report

**Report Type:** Child Deceased  
**Age:** 3 month(s)

**Jurisdiction:** Jefferson  
**Gender:** Male

**Date of Death:** 07/17/2015  
**Initial Date OCFS Notified:** 07/17/2015

## Presenting Information

On 7/17/15, the SCR registered a report that the infant SC, age 3 months was found unresponsive after being put down for a nap at his babysitter's home. The babysitter placed the SC down for a nap face up in a swing, and roughly 30 minutes later, the babysitter found him blue and limp. The babysitter's husband began CPR on the SC, while the babysitter called EMS. EMS responded to the scene and transported the SC to the hospital. The SC was deceased soon after arriving at the hospital. Local LE was called, no arrests were made.

## Executive Summary

The SC was pronounced dead on 7/17/15, with the cause of death listed in the ME's report as Sudden Infant Death Syndrome. The manner of the child's death was listed as Natural. The BM began using the babysitter in this case for child care a few months prior to the SC's death, while working, and the BF was working out of state. On 7/17/15, the BM dropped the SC off with the babysitter as usual. The babysitter stated the SC was acting appropriately this day, with nothing out of the ordinary. The babysitter stated she laid the SC down for a nap, in the living room of the home, in a swing, and about a half hour later she found the SC limp and unresponsive. The babysitter's husband, and two children were in the home on this day as well. The babysitter called for her husband, who began CPR, while the babysitter called EMS. Local EMS responded and transported the SC to the hospital, where the SC was pronounced dead.

Following the fatality, the LDSS assessed the safety of the babysitter's two children, and made contact with the BM, the babysitter and her husband. The SC was the BM and BF's only child. In coordinating the investigation with LE and the ME, it was determined that the babysitter did not act inappropriately in this case, and no criminal charges were filed. The LDSS investigation showed that the BM had taken the SC to the ER about 2 months prior to the fatality, because the SC had difficulty breathing. There was no medical diagnosis at this time, and the BM was told to monitor any symptoms. The BM reported no recurrence of these symptoms and the ME's report showed no signs of trauma or other medical issues that led to the death of the SC.

The LDSS CW adequately engaged all individuals in the case well. Appropriate services were offered and referrals made for mental health and grief counseling following the fatality. The LDSS CW assessed for safety of the surviving children in the case on an ongoing basis. The LDSS determined the allegations of DOA/Fatality and Inadequate Guardianship to be unfounded, based on the ME's report, and that there was no credible evidence to show that the babysitter had caused any harm to the SC.

## LDSS Response

The LDSS investigation determined that the SC died in the care of the SC's babysitter. The LDSS, through consultation with the ME determined the cause of the SC's death to be from Sudden Infant Death Syndrome. The LDSS made collateral contact with the local LE, who determined no criminal charges needed to be filed. The LDSS interviewed the SC's babysitter, her husband and children, who were present in the home at the time of the SC's death. The LDSS assessed safety of the babysitter's children during interviews and home visits. The LDSS CW also contacted the BM by telephone and face to face interview, and made contact with the SC's BF by telephone. The SC in this case has no siblings, and is the BM and BF's only child. The LDSS met with all involved in the case to continue to assess for safety of the babysitter's children, and to ensure that grief and mental health services were in place for the people in the case. The LDSS unfounded the allegations of DOA/Fatality and IG in regard to the SC's babysitter, as there was no credible evidence to suggest the babysitter had caused the SC harm. The BM, BF and babysitter's husband were determined to have no role in the case. The babysitter's children were determined to be safe, and also had no role in this case.
