

Report Identification Number: SY-16-015

Prepared by: Syracuse Regional Office

Issue Date: 11/16/2016

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 3 month(s)

Jurisdiction: Onondaga
Gender: Male

Date of Death: 04/26/2016
Initial Date OCFS Notified: 04/27/2016

Presenting Information

On 4/25/16 at approximately 11:00pm, biological parents placed the SC and surviving sibling into the same crib to go to sleep. The crib had pillows and blankets inside of it. The BF found the SC non-responsive the morning of 4/26/16 and the BM called Emergency Services. SC was transported to the hospital where he was pronounced dead at 8:47 am on 4/26/16. SC had no known medical condition and was an otherwise health child. The surviving sibling had no injuries but was placed at risk by the parents' actions.

Executive Summary

The State Central Register (SCR) received a report on 4/27/16 with allegations of DOA/Fatality and IG against the BF and BM in regards to the 3 month old SC. The report alleged that the BF and BM placed the SC in a crib, propped up on a u-shaped pillow and the SC's twin sibling sharing the crib with the SC on 4/25/16 at 11:00pm. The SC's BM was home studying for school with friends and went to bed at 1:30am on 4/26/16 without checking on the SC or his sibling. The SC's twin sibling was not injured but was put at risk by the BF and BM. During the course of the investigation, it was determined that the BF placed the SC in his bed, on his back, propped on a u-shaped pillow with the SC's twin sibling sharing the crib laying head to head as the parents would frequently place both children in the same crib to sleep. The BF found the SC non-responsive the next day, 4/26/16 at 8:00am. The BM called EMS and attempted lifesaving techniques until EMS responded. EMS transported the SC to the hospital where the SC was pronounced dead at 8:47am. The ME's final autopsy listed the cause of death of the SC as suffocation due to unsafe sleeping environment the manner of death was accidental.

The Onondaga County Department of Children and Family Services (OCDCFS) initiated their investigation on 4/27/16 in collaboration with LE. LE determined that criminal charges would not be pursued. OCDCFS gathered sufficient information to assess the safety of the surviving sibling within the first 24 hours of receiving the report however a 24 hour safety assessment was not completed in CONNECTIONS. Safety decisions made at 7 day, 30 day, 60 day and at case closing were appropriate based on case circumstances. Collateral contacts and home visits were made and casework activities were appropriate. Caseworkers engaged the family throughout the investigation and services were offered to the family but they declined.

The allegations of DOA/Fatality and IG were substantiated against BF and BM based on some credible evidence discovered during the course of the investigation.

LDSS Response

OCDCFS initiated their investigation on 4/27/16, the same day that the SCR report was registered. Safety assessments were adequately completed at 7 days, 30 days, 60 days and at case closing. Safety was assessed for the surviving sibling within 24 hours of the report and documented by the caseworker in a progress note however there was not a 24 hour safety assessment completed in CONNECTIONS as required. Collateral contacts, including LE and EMS, were made with relevant sources and visits were made to the family to continue to assess safety and risk to the surviving siblings in the home. The BF and the BM were offered services but they declined at the time of the investigation. The case was closed with the allegations of DOA/Fatality and IG against the BF and BM being substantiated. The investigation conclusion narrative stated that the allegations were substantiated for IG and DOA/Fatality based on the fact that the BF and BM placed the SC and surviving sibling in the same crib with the SC propped up on a u shaped "boppy" pillow. The ME's autopsy report listed the cause of death was suffocation due to an unsafe sleeping environment.
