

Report Identification Number: SY-19-047

Prepared by: New York State Office of Children & Family Services

Issue Date: Feb 11, 2020

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 3 month(s)

Jurisdiction: Tioga
Gender: Male

Date of Death: 09/12/2019
Initial Date OCFS Notified: 09/12/2019

Presenting Information

An SCR report alleged on 9/12/19, the three-month-old male infant was found face down, deceased in the father's bed. At the time, the infant was swaddled in a blanket. There was no plausible explanation for the infant's death.

Executive Summary

On 9/12/19, the Tioga County Department of Social Services (TCDSS) received an SCR report regarding the death of the three-month-old infant. The infant resided with his mother, father and two-year-old sibling.

TCDSS conducted a joint investigation with law enforcement and learned that the father fed the infant a bottle around 2:00 AM on 9/12/19. The father then swaddled the infant in a swaddling blanket and laid in bed holding the infant. The father reported he accidentally fell asleep and he woke up around 8:30 AM. The father found the infant face-down on the bed next to him. The father picked up the infant and saw that his face was blue, and he was not breathing. The father began CPR and called 911 at 8:31 AM. Law enforcement and EMS arrived, and the infant was pronounced deceased upon their arrival. The mother slept in the sibling's bedroom on the night of 9/11/19 and she was dropping the sibling off at Head Start when law enforcement contacted her and informed her of the incident.

An autopsy was conducted, and it was determined the manner of death was "accident" and the cause of death was "suffocation/overlaying" due to "unsafe sleep environment". The medical examiner found no developmental abnormalities or injuries. The examination was consistent with the infant suffocating from being face down and there was no lividity on the infant's left side where the father was laying up against him. It was determined the infant died within two hours of his last feeding. Law enforcement reported there were no signs of foul play and they closed their investigation with no charges filed.

TCDSS conducted a thorough investigation and contacted necessary collaterals. There were no concerns expressed for the sibling and she was found to be safe in her parents' care. TCDSS unfounded the allegations of DOA/Fatality and Inadequate Guardianship against the father due to a lack of credible evidence that the father failed to exercise a minimum degree of care. It was determined the parents were aware of safe sleep guidelines and the infant slept in a safe sleep environment nightly in a bassinet in the parent's bedroom. The father unexpectedly fell asleep while comforting the infant and the infant's cause of death was ruled to be accidental. The parents were provided with funeral assistance and the case was appropriately closed.

LDSS Response

TCDSS began their investigation upon receipt of the SCR report on 9/12/19. They conducted a search of the SCR and found that the parents had no history. They spoke to the source of the report, law enforcement and the district attorney to gather information about the incident. TCDSS assessed the home to contain no safety hazards and they spoke to the mother, father, maternal grandmother and sibling.

Through interviews it was learned that the sibling and infant had been sick with a virus, so the mother was sleeping in the sibling's bedroom and the father was caring for the infant at night. The infant was otherwise healthy and developmentally on target. The parents were aware of safe sleep guidelines and utilized a bassinet for the infant to sleep in. The parents said they always swaddled the infant with a swaddling blanket and he normally went right to sleep once placed in the bassinet. The infant had been unusually fussy since he was not feeling well.

The father reported the infant was fussy after his 2:00 AM feeding on 9/12/19, so he swaddled the infant and was comforting him before placing him back in his bassinet. The father laid in bed holding the infant in his left arm and he accidentally fell asleep. The father was laying on a pillow and there were no blankets covering them or other items in the bed at that time. The mother and sibling woke up around 7:00 AM and they did not enter the bedroom or hear any sounds coming from the room. The mother left to take the sibling to Head Start and while she was gone, the father awoke and found the infant face down on the mattress. The father immediately began performing CPR and he called 911.

Law enforcement reported the infant was deceased upon arrival and the scene was consistent with the details reported by the father. The pediatrician records showed the infant was up to date on well visits and he and was last seen on 8/30/19 for nasal congestion. There were no concerns expressed for either of the children.
