

Report Identification Number: SY-22-036

Prepared by: New York State Office of Children & Family Services

Issue Date: Jan 05, 2023

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 1 month(s)

Jurisdiction: Onondaga
Gender: Female

Date of Death: 07/15/2022
Initial Date OCFS Notified: 07/15/2022

Presenting Information

Onondaga County Department of Children and Family Services notified OCFS of the death of the 1-year-old subject child via a 7065 Agency Reporting Form. The child passed away during an open CPS investigation that began on 5/30/22. Onondaga County Department of Children and Family Services documented the child was diagnosed with cardiomyopathy with arrhythmia on 6/7/22 while in the Neonatal Intensive Care Unit. The child passed away in the hospital on 7/15/22.

Executive Summary

This fatality report concerns the death of the 1-month-old that occurred on 7/15/22. The child died during an open investigation concerning the mother’s positive toxicology for both prescription and illicit drugs at the time of the child’s birth. There were also concerns for the mother’s untreated mental health disorders. The child remained in the hospital for the entirety of her life. There was a 9-year-old sibling who was in the care and custody of the maternal grandmother. The sibling was assessed to be safe.

Onondaga County Department of Children and Family Services (OCDCFS) gathered information from the hospital that the child was born at 33 weeks gestation. The child was diagnosed with cardiomyopathy and her condition was not improving. As a result of the child’s heart condition, she passed away. An autopsy was not performed. OCDCFS obtained the death certificate which listed the immediate cause of death as heart failure due to or as a consequence of genetic cardiomyopathy gene and/or non-compaction cardiomyopathy. The manner of death was natural.

Prior to the child’s death, the mother was arrested for violating an order of protection regarding an individual in the community. As a result, the mother was incarcerated. OCDCFS filed a Neglect Petition in family court against the mother on behalf of the child. OCDCFS identified that the mother was unable to plan for the child. A temporary order of custody was granted, and the grandmother became the child’s custodian. The Neglect Petition was withdrawn as the child’s demise was inevitable.

The family was offered bereavement services and burial assistance. It was unknown if the services were utilized. The investigation remained open at the time this report was written.

PIP Requirement

OCDCFS will submit a PIP to the Syracuse Regional Office within 30 days of the receipt of this report. The PIP will identify action(s) the OCDCFS has taken, or will take, to address the cited issue(s). For issues where a PIP is currently implemented, OCDCFS will review the plan and revise as needed to address ongoing concerns.

LDSS Response

On 5/30/22, OCDCFS began their investigation into an SCR report regarding the mother’s drug misuse and untreated mental health concerns. Despite the mother’s positive toxicology, the mother denied using any drugs other than marijuana. OCDCFS completed a Plan of Safe Care with the mother and observed the child in the hospital.

Prior to the death, OCDCFS learned from hospital staff that the child was not doing well due to a heart condition that was being monitored by hospital doctors. Hospital staff reported that the child showed symptoms of failure to thrive, which could have been a result of the medications prescribed to the mother or due to the mother’s recreational drug use. The child’s health continued to deteriorate, and she was not feeding normally. Hospital staff reported the family would need to decide to have the child relocated to another hospital for a heart transplant or to discontinue medical treatment. On 7/7/22, the child was transported to another hospital to be reviewed for a heart transplant; however, the child passed away prior to the heart transplant operation.

After learning of the child’s death from hospital staff, the safety of the sibling was assessed at the grandmother’s house. The sibling did not reveal concerns for his safety. The grandmother was offered bereavement services for her and the sibling. The mother was offered services; however, she remained incarcerated, and it was unknown if she was able to receive the services.
