

Report Identification Number: SY-23-026

Prepared by: New York State Office of Children & Family Services

Issue Date: Sep 08, 2023

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services had an open investigation or a CPS monitored services case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Presenting Information

An SCR reported was received on 5/4/2023 and alleged the mother and father co-slept with the 10-month-old subject child on 5/3/2023. On 5/4/2023, the mother woke up at 2:50AM and noticed the subject child was cold and not breathing. The mother contacted 911, EMS arrived and began life-saving measures. The child was transported to the hospital and pronounced dead at 3:33AM.

Executive Summary

This report concerns the death of a 10-month-old female child that occurred on 5/4/2023. Onieda County Department of Social Services (OCDSS) received an SCR report on 5/4/2023, regarding the fatality. The SCR report contained allegations of DOA/Fatality and Inadequate Guardianship against the mother and father. At the time of her death, the subject child resided with her mother, father and 7-year-old sibling. OCDSS immediately assessed the safety of the 7-year-old surviving sibling, interviewed the sibling, parents, and assessed the living environment.

Through a joint investigation with law enforcement, it was learned on 5/3/2023, the mother, 7-year-old sibling and 10-month-old subject child all co-slept together in the parents' bed. In the early morning of 5/4/2023, the mother noticed the subject child was not breathing and immediately contacted 911. Emergency medical services and law enforcement responded to the residence and attempted life-saving measures. EMS administered Narcan and attempted suctioning the airway while the child was transported to the hospital, but shortly after the child arrived, she was pronounced deceased at 3:33AM.

OCDSS communicated with the medical examiner and learned a preliminary autopsy was completed on 5/4/2023 and showed no significant traumatic injuries. Internally, the child had pulmonary edema and prominent abdominal lymph nodes. The medical examiner had no concerns regarding the child's inability to move as the child was able to stand and pull.

On 7/14/2023, the medical examiner ruled the official cause of death as unexplained sudden death of an infant (intrinsic and extrinsic factors), and the manner of death was undetermined. Microbiology testing showed the child was positive for rhinovirus, enterovirus, and adenovirus. OCDSS spoke with law enforcement regarding the fatality, they advised the parents did not appear to be under the influence and denied having any concern for the mother's parenting ability. At the time this report was written, there were no criminal charges pending against the parents.

OCDSS offered the family bereavement services and explained the process to apply for assistance with funeral costs if needed. They gathered pertinent information from collateral contacts such as the pediatrician, school, medical staff, law enforcement and the paternal grandmother. The record reflected the 24-hour, 7-Day, and 30-Day Safety Assessments were completed timely. Progress notes were entered contemporaneously, and the required notice of existence letters were mailed. At the time this report was written, the CPS investigation remained open and not yet determined.

LDSS Response

On 5/4/2023, OCDSS received a report regarding the death of the subject child. OCDSS initiated their investigation within 24 hours, notified the district attorney, medical examiner and coordinated their efforts with law enforcement. OCDSS contacted the source of the report, completed a CPS history check, assessed the safety of the surviving sibling, and completed a home visit at a relative's residence.

OCDSS completed interviews with the mother and father on 5/4/2023. During her interview, the mother explained the family always co-slept in the same bed together. The mother described the evening prior to the fatality as normal with feedings and playing. On 5/3/2023, around 10:00PM, the mother fed the subject child and put her to bed, placing her on the parents' bed with her sibling. The subject child's positioning was unknown, but shortly after being placed on the bed, the mother observed both children to be sleeping. The mother then went to sleep in the same bed with the children. In the early morning on 5/4/2023, around 2:50AM, she heard the father return to the residence and got up to use the bathroom. When doing this, she noticed the subject child was not breathing. The mother reported yelling and immediately calling 911. During his interview, the father confirmed the family had always co-slept in the bed together. The father explained he had returned home from being out with friends and the mother woke up, went to the bathroom, and started yelling that the subject child was not breathing. The mother and father both denied the child was showing any signs of illness.

OCDSS completed an interview with the 7-year-old surviving sibling on 5/4/2023. During his interview, he reported going to bed first, then the subject child and mother went into the bed. He explained waking up to his mother yelling something about the subject child not waking up and being scared. His mother told him to sit down and relax and contacted law enforcement. He reported law enforcement arrived and his father took him to his paternal grandmother's residence. The sibling did not report any concerns for the subject child or his parents.

OCDSS spoke with the paternal grandmother who reported the mother and father were good parents and stated the fatality was a tragic accident. She denied any concerns for mental health, domestic violence, and substance abuse regarding either parent.

OCDSS communicated with the subject child's pediatrician. The child was last seen on 3/30/2023 for her routine 9-month well child visit and was reported to be healthy. She was behind on routine immunizations and there were no concerns

reported. OCDSS also communicated with the 7-year-old sibling's pediatrician, the sibling was up to date with his well child visits and immunizations, there were no concerns noted for the surviving sibling's physical health.
