Note: Certain counties were excluded from the above table due to the following reasons: (1) counties with less than 50 Black children under 18 years; and (2) counties with less than 6 Black children with SCR reports. The following types of changes should be interpreted with extreme caution: (a) for small counties, particularly when the number of children in a particular category is small, sharp changes in disparity rates; and, (b) when disparity rate is available in one year and NOT for another, it indicates that the rate for the year where available was calculated on a small number, although above the requisite threshold.

<sup>1</sup> State disparity ratio is estimated using the total state numbers and the total includes numbers from counties not reported.

**Hispanic Disparity Rate: Unique Children in SCR Reports CY 2020**

Disparity index is ratio of rate of unique Hispanic children in SCR reports per 1000 Hispanic children under 18 in county relative to comparable rate for White children

State disparity ratio <sup>1</sup>=

1.31
